Salaries and wages for public service as a percent of total expenses for public service (GASB)

Storage: double | Stata name: F1SWPBSP | Observed years: 2016-2024 | Nulls: 136,765

Definitions by release year

2016-2024: Salaries and wages for public service as a percent of total expenses for public service (GASB)

Salaries and wages for public service as a percent of total expenses for public service for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for public service (F1C032) divided by total expenses for public service (F1C031). Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

2016-2024: Salaries and wages for research as a percent of total expenses for research (GASB)
Salaries and wages for research as a percent of total expenses for research for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for research (F1C022) divided by total expenses for research (F1C021). Research (expense) - A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) FASB institutions include actual or allocated costs for operation & maintenance of plant, interest, and depreciation. GASB institutions do not include operation & maintenance of plant or interest but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). 2016-2024: Salaries and wages for student services as a percent of total expenses for student services (GASB)

Salaries and wages for student services as a percent of total expenses for student services for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for student services (F1C062) divided by total expenses for student services (F1C061). Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support.) FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest but may, as an option, distribute depreciation expense. F1SYSNAM_2006_2024

[varies by year] Name of multi-institution or multi-campus organization

Storage: string | Stata name: F1SYSNAM_2006_2024 | Observed years: 2006-2024 | Nulls: 34,486

Definitions by release year

2006-2009: Name system, governing board or corporate entity.

Name of System, Governing Board or Corporate Structure (please see instructions for reporting System or Corporate data.) SYSTEM - An organization of two or more institutions of higher education under the control or supervision of a common administrative governing body. Governing bodies generally have the power to act in their own name, to hire and fire personnel, enter into contracts, etc. A coordinating body without these powers or a section of a state agency usually would not be considered a system office. Governing Board - An entity that ensures on behalf of the public the performance of an institution or a group of institutions. Responsibilities of the board may include appointing, supporting, and monitoring the president of the institution; reviewing educational and public service programs; insisting on strategic planning; and, ensuring good management and adequate resources.

2010-2011: Name of system, governing board or corporate entity.

Name of System, Governing Board or Corporate Structure (please see instructions for reporting System or Corporate data.) SYSTEM - An organization of two or more institutions of higher education under the control or supervision of a common administrative governing body. Governing bodies generally have the power to act in their own name, to hire

and fire personnel, enter into contracts, etc. A coordinating body without these powers or a section of a state agency usually would not be considered a system office. Governing Board - An entity that ensures on behalf of the public the performance of an institution or a group of institutions. Responsibilities of the board may include appointing, supporting, and monitoring the president of the institution; reviewing educational and public service programs; insisting on strategic planning; and, ensuring good management and adequate resources.

2012: Name of system, governing board or corporate entity.

Name of multi-institution or multi-campus organization A multi-institution or multi-campus organization includes organizations with two or more institutions or campuses. Non-postsecondary education agencies that govern or control institutions include, but are not limited to, public school districts, art organizations, hospitals and other medical/health organizations. Not included are: coordinating systems single institution owner single institution corporate name single institution governing board consortia associations religious affiliation (requested in control question)

2013-2024: Name of multi-institution or multi-campus organization

Name of multi-institution or multi-campus organization Is the institution part of a multi-institution or multi-campus organization that owns, governs, or controls the institution? A multi-institution or multi-campus organization includes organizations with two or more institutions or campuses. Non-postsecondary education agencies that govern or control institutions include, but are not limited to, public school districts, art organizations, hospitals and other medical/health organizations. Not included are: coordinating systems single institution owner single institution corporate name single institution governing board consortia associations religious affiliation (requested in control question)

F1TUFEFT

Revenues from tuition and fees per FTE (GASB)

Storage: double | Stata name: F1TUFEFT | Observed years: 2006-2024 | Nulls: 111,649

Definitions by release year

2006-2019: Revenues from tuition and fees per FTE (GASB)

Revenues from tuition and fees per FTE enrollment for public institutions using GASB 34/35 standard is derived as follows: Tuition and fees revenues (F1B01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F1B01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment ([info link](#)) under frequently used\ 12-month enrollment.

2020-2024: Revenues from tuition and fees per FTE (GASB)

Revenues from tuition and fees per FTE enrollment for public institutions using GASB 34/35 standard is derived as follows: Tuition and fees revenues (F1B01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F1B01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month full-time equivalent enrollment ([info link](#)) under frequently used\ 12-month enrollment.

Definitions by release year

2004-2024: Total unrestricted net assets

Total unrestricted net assets is the sum of unrestricted (designated and undesignated) and unrestricted (investment in plant, property, and equipment, net of related debt) net assets. Unrestricted net assets are amounts that are available for the general purposes of the institution without restriction. Includes amounts specifically designated by the governing board, such as those designated as quasi-endowments for building additions and replacement, for debt service, and for loan programs. Also, includes the unrestricted portion of net investment in plant, property, and equipment less related debt. This amount is computed as the amount of plant, property, and equipment, net of accumulated depreciation, reduced by any bonds, mortgages, notes, capital leases, or other borrowings that are clearly attributable to the acquisition, construction, or improvement of those assets.

2004-2024: Total restricted net assets

Total restricted net assets is the sum of temporarily restricted and permanently restricted net assets. Temporarily restricted includes the amount of all net assets that are subject to temporary donor/grantor restrictions that limit availability for expenditure. Temporary restrictions are also those that permit the institution to expend the donated assets for a specified purpose or a future date. Permanent restrictions are those that stipulate the resourcees must be maintained permanently, but permit the organization to expend part or all of the income derived from donated assets. Net assets that are subject to a donor’s or grantor’s restriction are restricted net assets. Include long-term but temporarily restricted net assets, such as term endowments, and net assets held subject to trust agreements if those agreements permit expenditure of the resources at a future date.

2004-2024: Permanently restricted net assets included in total restricted net assets

Permanently restricted net assets included in total restricted net assets - Net assets of FASB institutions that must be maintained in perpetuity. Permanently restricted net assets increase when institutions receive contributions for which donor-imposed restrictions limiting the institution's use of an asset or its economic benefits neither expire with the passage of time nor can be removed by the organization's meeting certain requirements. Donor-imposed restrictions on the use of the investment income on the assets may also change the amount of such net assets. Permanent endowment funds are the most common example.

Temporarily restricted net assets

Storage: double | Stata name: F2A05B | Observed years: 2008-2024 | Nulls: 122,253

Definitions by release year

2008-2018: Temporarily restricted net assets

Restricted net assets (FASB institutions only) - Assets held by the institution upon which restrictions have been placed by donors. These restrictions may be temporary or permanent. They restrict the institution in its use of the assets and/or the period of time for which the restriction applies.

2019-2024: Temporarily restricted net assets

Assets held by the institution upon which restrictions have been placed by donors. They restrict the institution in its use of the assets and/or the period of time for which the restriction applies. Temporarily restricted net assets includes the amount of all net assets that are subject to temporary donor/grantor restrictions that limit availability for expenditure. Temporary restrictions are also those that permit the institution to expend the donated assets for a specified purpose or a future date.

Accumulated depreciation

Storage: double | Stata name: F2A18 | Observed years: 2008-2024 | Nulls: 122,253

Definitions by release year

2008-2024: Accumulated depreciation

Accumulated depreciation The total depreciation charged as expenses as of the reporting date (in the current year and in prior years) on the capital assets of the institution. FASB Statement No. 117 and GASB Statement No. 34 require that accumulated depreciation to date be recognized. NOTE: When a capital asset is removed from the accounting records due to disposal or end of the asset's useful life, the depreciation accumulated through the years on the asset is also removed from the records.

F2ACSPFT

Academic support expenses per FTE (FASB)

Storage: double | Stata name: F2ACSPFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Academic support expenses per FTE (FASB)

Academic support expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Academic support (F2E041) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Academic support expenses per FTE (FASB)

Academic support expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Academic support (F2E041) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Definitions by release year

2006-2015: Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support (FASB)

Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support for public and private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses for academic support (F2E042) plus employee fringe benefit expenses for academic support (F2E043) divided by total expenses for academic support (F2E041). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

Definitions by release year

2004-2024: Net assets, end of the year

Net assets, end of the year, is the sum of changes in net assets for the current year, net assets beginning of year, and adjustments to beginning net assets. This amount should agree with the amount reported in Part D, Statement of Financial Position, total end of year net assets and also agree with the amount reported for total net assets in the general purpose financial statements at the end of the fiscal year.

2020-2024: Discounts and allowances from Pell grants applied to tuition and fees

Pell grants includes the amount administered by the institution under the Pell grant program. Private institutions generally report Pell Grants as agency transactions. Allowance applied to tuition and fees is the portion of total student aid that is applied to tuition and fees. This amount plus tuition and fees revenues equals gross tuition and fee revenues.

Institutional grants (funded) includes the amounts awarded to students from institutional resources restricted for the purpose of student aid, such as scholarships and fellowships funded by gifts or endowment return restricted for that purpose. Institutional grants (unfunded) includes the amount awarded to students from unrestricted institutional resources. Allowance applied to tuition and fees is the portion of total student aid that is applied to tuition and fees. This amount plus tuition and fees revenues equals gross tuition and fee revenues.

2004-2007: State grants and contracts
State grants and contracts includes all revenues from state agencies that are for specific undertakings such as research projects, training projects, and similar activities, including contributions from federal agencies. Includes state grants for student aid when they are treated as student aid expenses when awarded to the student. If state grants for student aid are treated as agency transactions in general purpose financial statements they are excluded from this amount.

2008-2024: Private gifts - Total

Private gifts (Revenues) are revenues from private (non-governmental) entities including revenues received from gift or contribution nonexchange transactions (including contributed services) except those from affiliated entities. Includes bequests, promises to give (pledges), gifts from an affiliated organization or a component unit not blended or consolidated, and income from funds held in irrevocable trusts or distributable at the direction of the trustees of the trusts. Includes any contributed services recognized (recorded) by the institution.

2004-2007: Sales and services of auxiliary enterprises

Sales and services of auxiliary enterprises includes the amount of revenues generated by the auxiliary enterprise operations, net of any tuition and fee allowances applied in the general purpose financial statements. Auxiliary enterprises are operations that exist to furnish a service to students, faculty, of staff, and that charge a fee that is directly related to the cost of the service. Examples of auxiliary enterprises are residence halls, food services, student health services, intercollegiate athletics, college unions, stores and movie theaters.

2008-2024: Sales and services of auxiliary enterprises - Total

Sales and services of auxiliary enterprises includes the amount of revenues generated by the auxiliary enterprise operations, net of any tuition and fee allowances applied in the general purpose financial statements. 2004-2024: Instruction-Total amount

Instruction expenses includes all expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institutions's students. Also, includes expenses for both credit and non-credit activities. Excludes expenses for academic administration if the primary function is administration (e.g., academic deans).

Total expenses-Operation and maintenance of plant

Storage: double | Stata name: F2E134 | Observed years: 2004-2005, 2007-2024 | Nulls: 112,581

Definitions by release year

2004-2015: Total expenses-Operation and maintenance of plant

Total expenses-Operation and maintenance of plant

2016: Total expenses-Operation and maintenance of plant

Operations and maintenance - An expense category that includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include: janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture, and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; earthquake and disaster preparedness; safety; hazardous waste disposal; property, liability, and all other insurance relating to property; space and capital leasing; facility planning and management; and central receiving. This expense does include amounts charged to auxiliary enterprises, hospitals, and independent operations. Also includes information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support). FASB institutions are required to allocate O&M costs to other functional categories (e.g., instruction, research, etc.) while GASB institutions can allocate O&M costs OR report it as a separate functional category. In an effort to align FASB and GASB O&M expenses, from FY 2010 to FY 2015, O&M was reported as both a functional and natural expense category in IPEDS, causing its total to be equal to zero. However, beginning with FY 2016, both FASB and GASB institutions are required to allocate O&M to all the functions and report it as a natural expense category. Prior to fiscal year 2016 this variable would always be equal to zero. Like other natural classification categories OM was reported for all expense functions (survey column 4) . Unlike other natural classification categories OM also appeared as a function (line 11). Institutions would report positive values of salaries and wages, benefits, depreciation, interest and other expenses on the OM (survey line 11). However total OM line 11 column 1 was always zero and negative values were reported in the intersection of line 11 and column 4 to balance out the total of all expenses of OM distributed to the functional categories. For a better understanding of this, please visit the IPEDS survey form archive site for finance below: <http://nces.ed.gov/ipeds/InsidePages/ArchivedSurveyMaterials?section=Finance>

F2ENDMFT

Endowment assets (year end) per FTE enrollment (FASB)

Storage: double | Stata name: F2ENDMFT | Observed years: 2006-2024 | Nulls: 121,646

Definitions by release year

2006-2019: Endowment assets (year end) per FTE enrollment (FASB)

Endowment assets (year end) per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Endowment assets (year end) (F2H02) divided by 12-month FTE enrollment (FTE12MN)
 Endowment assets are gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations. Endowment funds are funds whose principal is nonexpendable (true endowment) and that are intended to be invested to provide earnings for institutional use. Term endowment funds are funds which the donor has stipulated that the principal may be expended after a stated period or on the occurrence of a certain event. Funds functioning as endowment (quasi-endowment funds) are established by the governing board to function like an endowment fund but which may be totally expended at any time at the discretion of the governing board. These funds represent nonmandatory transfers from the current fund rather than a direct addition to the endowment fund, as occurs for the true endowment categories. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment ([info link](#)) under frequently used\ 12-month enrollment.

2020-2024: Endowment assets (year end) per FTE enrollment (FASB)

F2EQUITR

Equity ratio (FASB)

Storage: double | Stata name: F2EQUITR | Observed years: 2006-2024 | Nulls: 116,700

Definitions by release year

2006-2024: Equity ratio (FASB)

Equity ratio for public and private-not-for profit institutions using FASB standards is derived as follows: Total net assets (F2A06) divided by total assets (F2A02) Net assets are the excess of assets over liabilities or the residual interest in the institution's assets remaining after liabilities are deducted. The change in net assets results from revenues, gains, expenses, and losses. FASB institutions classify net assets into three categories: permanently restricted, temporarily restricted, and unrestricted. GASB institutions classify net assets into three categories: invested in capital, net of related debt; restricted (with separate displays of restricted-expendable and restricted-nonexpendable net assets); and unrestricted. Although the terms are similar, the composition of the categories of net assets between FASB and GASB institutions can differ significantly. Total assets include a) Cash, cash equivalents, and temporary investments; b) Receivables (net of allowance for uncollectible amounts); c) Inventories, prepaid expenses, and deferred charges; d) Amounts held by trustees for construction and debt service; e) Long-term investments; f) Plant, property, and equipment; and, g) Other assets

F2GVGCFT

Revenues from government grants and contracts per FTE (FASB)

Storage: double | Stata name: F2GVGCFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Revenues from government grants and contracts per FTE (FASB)

Revenues from govenment grants and contracts per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Government grants and contracts is equal to the sum of Federal grants and contracts (F2D05), State grants and contracts (F2D06), and local grants and contracts (F2D07). Government grants and contract revenues is then divided by 12-month FTE enrollment (FTE12MN) Government grants and contracts (revenues) - Revenues from governmental agencies that are for specific research projects, other types of programs , or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

Definitions by release year

2006-2024: Government grants and contracts as a percent of core revenues (FASB)

Government grants and contracts as a percent of core revenues for public and private-not-for-profit institutions using FASB standards is derived as follows: Government grants and contracts is equal to the sum of Federal grants and contracts (F2D05), State grants and contracts (F2D06), and local grants and contracts (F2D07). Government grants and contract revenues is then divided by total core revenues (F2CORREV) Government grants and contracts (revenues) - Revenues from governmental agencies that are for specific research projects, other types of programs , or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts.

2020-2024: Expendable net assets

These variables are intended to collect the numerator and denominator used to calculate financial health ratios that compose the Composite Financial Index (CFI). Expendable net assets is the institution's expendable net assets. Includes net assets without donor restriction and net assets with donor restriction – subject to time or purpose restriction. Excludes net investment in plant and net assets with donor restriction – subject to time or purpose restriction that will be invested in plant.

2020-2024: Plant-related debt

These variables are intended to collect the numerator and denominator used to calculate financial health ratios that compose the Composite Financial Index (CFI). Plant-related debt from F2A03a Amounts for all long-term debt obligations including bonds payable, mortgages payable, capital leases payable, and long-term notes payable. (FARM para. 420.3, 423) If the current portion of long-term debt is separately reported in the GPFS, then that amount is included.

F2INSTFT

Instruction expenses per FTE (FASB)

Storage: double | Stata name: F2INSTFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Instruction expenses per FTE (FASB)

Instruction expenses per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Instruction expenses (F2E011) divided by 12-month FTE enrollment (FTE12MN) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Instruction expenses per FTE (FASB)

2006-2015: Salaries, wages, and benefit expenses for institutional support as a percent of total expenses for institutional support (FASB)

Salaries, wages, and benefit expenses for institutional support as a percent of total expenses for institutional support for public and private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses for institutional support (F2E062) plus employee fringe benefit expenses for institutional support (F2E063) divided by total expenses for institutional support (F2E061). Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. FASB institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

F2INVRFT

Revenues from investment return per FTE (FASB)

Storage: double | Stata name: F2INVRFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Revenues from investment return per FTE (FASB)

Revenues from investment return per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Investment return revenues (F2D10) divided by 12-month FTE enrollment (FTE12MN). Investment return - Income from assets including dividends, interest earnings, royalties, rent, gains (losses) etc. Assets - Physical items (tangible) or rights (intangible) that have value and that are owned by the institution. Assets are useful to the institution because they are a source of future services or because they can be used to secure future benefits. Interest - The price paid (or received) for the use of money over a period of time. Interest income is one component of investment income. Interest paid by the institution is interest expense. Gains - Increases in the

institution's net assets from peripheral or incidental transactions. This is in contrast to revenues, which occur from the institution's ongoing major or central operations. Whether a transaction generates revenue or a gain depends on the relationship of the transaction to the institution's activities. For example, the sale of computers by a college store might be part of ongoing central activities, while the sale of surplus computers from administrative offices might be considered otherwise. Losses - Decreases in net assets from an organization's peripheral or incidental transactions and other events affecting the organization, other than those that result from expenses. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Revenues from investment return per FTE (FASB)

Revenues from investment return per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Investment return revenues (F2D10) divided by 12-month FTE enrollment (FTE12MN) Investment return - Income from assets including dividends, interest earnings, royalties, rent, gains (losses) etc. Assets - Physical items (tangible) or rights (intangible) that have value and that are owned by the institution. Assets are useful to the institution because they are a source of future services or because they can be used to secure future benefits Interest - The price paid (or received) for the use of money over a period of time. Interest income is one component of investment income. Interest paid by the institution is interest expense. Gains - Increases in the institution's net assets from peripheral or incidental transactions. This is in contrast to revenues, which occur from the institution's ongoing major or central operations. 2006-2009: Other core revenues per FTE (FASB)

Revenues from other core revenue sources per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows. Other core revenues is equal to the sum of: Federal appropriations (F2D02) State appropriations (F2D03) Local appropriations (F2D04) Contributions from affiliated entities (F2D09) Sales and services of educational activities (F2D11) Other revenues (F2D15) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN)) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2010-2019: Other core revenues per FTE (FASB)

Revenues from other core revenue sources per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows. Other core revenues is equal to the sum of: Federal appropriations (F2D02) State appropriations (F2D03) Local appropriations (F2D04) Sales and services of educational activities (F2D11) Other revenues (F2D15) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN)) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2020-2024: Other core revenues per FTE (FASB)

Revenues from other core revenue sources per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows. Other core revenues is equal to the sum of: Federal appropriations (F2D02) State appropriations (F2D03) Local appropriations (F2D04) Sales and services of educational activities (F2D11) Other revenues (F2D15) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN)) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

Public service expenses per FTE (FASB)

Storage: double | Stata name: F2PBSVFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Public service expenses per FTE (FASB)

Public service expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Public service expenses (F2E031) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Public service expenses per FTE (FASB)

Public service expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Public service expenses (F2E031) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. 2006-2015: Salaries, wages, and benefit expenses for public service as a percent of total expenses for public service (FASB)

Salaries, wages, and benefit expenses for public service as a percent of total expenses for public service for public private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses for public service (F2E032) plus employee fringe benefit expenses for public service (F2E033) divided by total expenses for public service (F2E031). Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

2005-2010: Account for Pell grants as pass through transactions or as federal grant revenues to the institution?

Does your institution account for Pell grants as pass through transactions (a simple payment on the student's account) or as federal grant revenues to the institution? Pell Grants: under FASB standards institutions have the option to report

Pell grants as federal revenue and scholarships (or allowances) or as a pass-through transaction, essentially a payment on the student's account. The latter option is sometimes referred to as an agency transaction. Please indicate whether the institution accounts for Pell grants as pass-through payments or as federal revenue. If the institution does not award Pell grants, select the applicable option.

2011-2024: Account for Pell grants as pass through transactions or as federal grant revenues to the institution (FASB institutions)?

Does your institution account for Pell grants as pass through transactions (a simple payment on the student's account) or as federal grant revenues to the institution? Pell Grants: under FASB standards institutions have the option to report Pell grants as federal revenue and scholarships (or allowances) or as a pass-through transaction, essentially a payment on the student's account. The latter option is sometimes referred to as an agency transaction. Please indicate whether the institution accounts for Pell grants as pass-through payments or as federal revenue. F2PGGCFT

[varies by year] Revenues from private gifts, grants, contracts/contributions from affiliated entities per FTE (FASB)

Storage: double | Stata name: F2PGGCFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2009: Revenues from private gifts, grants, and contracts per FTE (FASB)

Revenues from private gifts, grants, and contracts per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Private gifts, grants, and contract revenues (F2D08) divided by 12-month FTE enrollment (FTE12MN) Private gifts, grants and contracts (revenues) Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2010: Revenues from private gifts, grants,contracts/contributions from affiliated entities per FTE (FASB)

Revenues from private gifts, grants, and contracts and contributions from affiliated entitiesper FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Private gifts, grants, and contract revenues (F2D08) plus Contributions from affiliated entities(F2D09) divided by 12-month FTE enrollment (FTE12MN) Private gifts, grants and contracts (revenues) Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2011-2019: Revenues from private gifts, grants, contracts/contributions from affiliated entities per FTE (FASB)

Revenues from private gifts, grants, and contracts and contributions from affiliated entitiesper FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Private gifts, grants, and contract revenues (F2D08) plus Contributions from affiliated entities(F2D09) divided by 12-month FTE enrollment (FTE12MN) Private gifts, grants and contracts (revenues) Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Revenues from private gifts, grants, contracts/contributions from affiliated entities per FTE (FASB)

Revenues from private gifts, grants, and contracts and contributions from affiliated entities per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Private gifts, grants, and contract revenues (F2D08) plus Contributions from affiliated entities (F2D09) divided by 12-month FTE enrollment (FTE12MN) Private gifts, grants and contracts (revenues) Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Research expenses per FTE (FASB)

Storage: double | Stata name: F2RSRCFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Research expenses per FTE (FASB)

Research expenses per FTE enrollment for public and private-not-for-profit institutions using FASB standards is derived as follows: Research expenses (F2E021) divided by 12-month FTE enrollment (FTE12MN) Research (expense) - A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This

function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) FASB institutions include actual or allocated costs for operation & maintenance of plant, interest, and depreciation. GASB institutions do not include operation & maintenance of plant or interest but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Research expenses per FTE (FASB)

Salaries, wages, and benefit expenses as a percent of total expenses for public and private not-for-profit institutions using FASB standards is derived as follows: Total Salaries and wage expenses (F2E132) plus employee fringe benefit expenses for institutional support (F2E133) divided by total expenses (F2E131). Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

2006-2019: Student service expenses per FTE (FASB)

Student services expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Student service expenses (F1E051) divided by 12-month FTE enrollment (FTE12MN) Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support.) FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Student service expenses per FTE (FASB)

Student services expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Student service expenses (F1E051) divided by 12-month FTE enrollment (FTE12MN) Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. 2016-2024: Salaries and wages for academic support as a percent of total expenses for academic support (FASB)

Salaries and wages for academic support as a percent of total expenses for academic support for public and private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses for academic support (F2E042) divided by total expenses for academic support (F2E041). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

2016-2024: Salaries and wages for instruction as a percent of total expenses for instruction (FASB)

Salaries and wages for instruction as a percent of total expenses for instruction for public and private not-for-profit-institutions using FASB standards is derived as follows: Salaries and wage expenses for instruction (F2E012) divided by total expenses for instruction (F2E011) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits,operations of plant, depreciation, interest and other expenses.

2016-2024: Salaries and wages for institutional support as a percent of total expenses for institutional support (FASB)

Salaries and wages for institutional support as a percent of total expenses for institutional support for public and private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses for institutional support (F2E062) divided by total expenses for institutional support (F2E061). Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. FASB institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits,operations of plant, depreciation, interest and other expenses.

2016-2024: Salaries and wages for other core expense functions as a percent of total expenses for other core expense functions (FASB)

Salaries and wages for other core expense functions as a percent of total expenses for other core expense functions for public and private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses (F2E082) for net grant aid to students, are added to salaries and wage expenses (F2E122) for other expense functions. The sum is then divided total other core expenses which is the sum of total expenses for net grant aid to students (F2E081) and other expenses (F2E121). Net grant aid to students (expenses) is the portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances. Other expenses (F2E121) is a generated expense category on the finance component that is an expense that cannot be included in the core expense functions (instruction, research, public service, academic support, student services, institutional support and net grant aid to students) or the noncore expense functions(auxiliary enterprises, hospitals and independant operations).

Revenues from tuition and fees per FTE (FASB)

Storage: double | Stata name: F2TUFEFT | Observed years: 2006-2024 | Nulls: 112,714

Definitions by release year

2006-2019: Revenues from tuition and fees per FTE (FASB)
Revenues from tuition and fees per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Tuition and fees revenues (F2D01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F2D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Revenues from tuition and fees per FTE (FASB)
Revenues from tuition and fees per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Tuition and fees revenues (F2D01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F2D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month

full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

Definitions by release year

2014-2024: Buildings

Buildings are end of year values for capital assets built or acquired for occupancy and use by the entity. These are structures such as classrooms, research facilities, administrative offices, and storage. It also includes built-in fixtures and equipment that are essentially part of the permanent structure. Capitalized leasehold improvements should be included if the improvements are related to leased facilities.

Accumulated depreciation

Storage: double | Stata name: F3A11 | Observed years: 2014-2024 | Nulls: 140,609

Definitions by release year

2014-2024: Accumulated depreciation

Accumulated depreciation is the total depreciation charged as expenses as of the reporting date (in the current year and in prior years) on the capital assets of the institution. FASB Statement No. 117 and GASB Statement No. 34 require that accumulated depreciation to date be recognized. NOTE: When a capital asset is removed from the accounting records due to disposal or end of the asset's useful life, the depreciation accumulated through the years on the asset is also removed from the records.

F3ACSPFT

Academic support expenses per FTE (for-profit institutions)

Storage: double | Stata name: F3ACSPFT | Observed years: 2014-2024 | Nulls: 120,910

Definitions by release year

2014-2019: Academic support expenses per FTE (for-profit institutions)

Academic support expenses per FTE enrollment for private for-profit institutions is derived as follows: Academic support (F3E03A1) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under Private for-profit standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Academic support expenses per FTE (for-profit institutions)

Academic support expenses per FTE enrollment for private for-profit institutions is derived as follows: Academic support (F3E03A1) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. 2014-2024: Academic support expenses as a percent of total core expenses (for-profit institutions)

Academic support expenses as a percent of total core expenses for private for-profit institutions is derived as follows: Academic support (F3E03A1) expenses divided by total core expenses (F3COREXP) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under Private for-profit standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense.

2014-2015: Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support (for-profit institutions)

Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support for private for-profit institutions is derived as follows: Salaries and wage expenses for academic support (F3E03A2) plus employee fringe benefit expenses for academic support (F3E03A3) divided by total expenses for academic support (F3E03A1). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention,

preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under Private for-profit standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

2006-2013: Academic and institutional support, and student services expense per FTE (for-profit institutions)

Academic and institutional support, and student services expenses per FTE enrollment for private for-profit institutions using FASB standards is derived as follows: Academic and institutional support, and student services expenses (F3E03) divided by the 12-month FTE enrollment (FTE12MN). The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment ([info link](#)) under frequently used\ 12-month enrollment. Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self-supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included

in institutional support.) FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest but may, as an option, distribute depreciation expense. Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. FASB institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense.

Storage: double | Stata name: F3C16 | Observed years: 2020-2024 | Nulls: 137,125

Definitions by release year

2020-2024: Total discounts and allowances from endowments and gifts
Endowments are funds whose principal is nonexpendable (true endowment) and that are intended to be invested to provide for institutional use. The funds also include funds for which the donor has stipulated that the principal may be expended after a stated period or on the occurrence of a certain event (term endowment) and funds established by the governing board to function line an endowment fund but which may be totally expended at any time at the discretion of the governing board. Gifts are received contributions as a nonexchange transaction. The contributions include bequests, promises to give (pledges), gifts from an affiliated organization or a component unit not blended or consolidated, and income from funds held in irrevocable trusts or distributable at the direction of the trustees of the trusts. Includes any contributed services recognized (recorded) by the institution. Total discounts and allowances is the sum of discounts and allowances applied to both tuition & fees and auxiliary enterprises.

2004-2013: Federal appropriations, grants and contracts

Federal appropriations, grants and contracts includes all amounts received from the Federal Government including a direct appropriation of Congress, and any grants or contracts. An example of a federal appropriation is a federal land-grant appropriation. Federal appropriations received through state channels should be included on line 02. Includes all revenues from federal agencies that are for specific undertakings such as research projects, training projects, and similar activities, including contributions from federal agencies. If federal Pell and similar student aid grants are treated as agency transactions in your general purpose financial statements, they are excluded from this amount. If federal Pell and similar student aid grants are treated as student aid expense when awarded to the student, include them on this line. If federal Pell and similar student aid grants are treated as allowances when awarded to the student, include the grant revenue on this line and in Schedule AA, Student Aid.

2014-2024: Federal appropriations, grants and contracts

Federal appropriations, grants and contracts includes all amounts received from the Federal Government including a direct appropriation of Congress, and any grants or contracts. An example of a federal appropriation is a federal land-grant appropriation. Includes all revenues from federal agencies that are for specific undertakings such as research projects, training projects, and similar activities, including contributions from federal agencies.

Sales and services of educational activities

Storage: double | Stata name: F3D06 | Observed years: 2004-2024 | Nulls: 92,677

Definitions by release year

2004-2024: Sales and services of educational activities

Sales and services of educational activities includes: all revenues derived from the sales of goods or services that are incidental to the conduct of instruction; research or public service; and revenues of activities that exist to provide instructional and laboratory experience for students and that incidentally create goods and services that may be sold.

Examples include film rentals, scientific and literary publications, testing services, university presses, dairies, and patient care clinics that are not part of a hospital.

2004-2013: Instruction

Included the instruction expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. The instruction category includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution’s students. (FARM para. 452.11) Include expenses for both credit and non-credit activities. Exclude expenses for academic administration if the primary function is administration (e.g., academic deans). Such expenses should be entered on line 03.

2004-2013: Research and public service

Research includes expenses for activities specifically organized to produce research outcomes and either commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research center, and individual and project research. Does not include nonresearch sponsored programs (e.g., training programs). Public service includes expenses specifically for public service and for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples are seminars and projects provided to the particular sectors of the community. Includes expenses for community services, cooperative extension services and public broadcasting services.

2014-2024: Public service-Total amount

Public service expenses include those expenses specifically for public service and for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to the particular sectors of the community. Include expenses for community services, cooperative extension services, and public broadcasting services. (FARM para. 703.6)

2004-2013: Academic and institutional support, and student services

Sum of expenses for academic support, student services, and institutional support. Academic support – Includes expenses for support services that are an integral part of the institution’s primary mission of instruction, research, or public service and that are not charged directly to these primary programs. Included are expenses for libraries, museums, galleries, audio/visual services, academic development, academic computing support, course and curriculum development, and academic administration. Include expenses for medical, veterinary and dental clinics if their primary purpose is to support the institutional program, that is, they are not part of a hospital. Student services - Includes expenses for admissions, registrar activities and activities whose primary purpose is to contribute to students emotional and physical well-being and to their intellectual, cultural and social development outside the context of the formal instructional program. Examples are career guidance, counseling, financial aid administration, student records, athletics, and student health services, except when operated as a self-supporting auxiliary enterprise. Institutional support – Includes all expenses for the day-to-day operational support of the institution. Include expenses for general administrative services, executive direction and planning, legal and fiscal operations, administrative computing support, and public relations/development.

2014-2024: Student service-Total amount

Student service expenses are expenses for admissions, registrar activities and activities whose primary purpose is to contribute to students emotional and physical well-being and to their intellectual, cultural and social development outside the context of the formal instructional program. Examples are career guidance, counseling, financial aid administration, student records, athletics, and student health services, except when operated as a self-supporting auxiliary enterprise. 2004-2013: Auxiliary enterprises

Auxiliary enterprises are expenses for essentially self-supporting operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, student health services, intercollegiate athletics (only if essentially self-supporting), college unions, college stores, faculty and staff parking, and faculty housing. Also included are depreciation related to auxiliary enterprises (if separately assigned by the institution). FASB institutions also charge or allocate interest expense to auxiliary enterprises.

Definitions by release year

2004-2013: Net grant aid to students

NET GRANT AID TO STUDENTS (Expenses) Scholarship and fellowship student financial aid treated as an expense because the institution incurs an incremental expense in the provision of a good or service. Thus, payments made to students or third parties in support of the total cost of education are expenses if those payments are made for goods and services NOT provided by the institution. Examples include payments for services to third parties (including students) for off-campus housing or for the cost of board provided by institutional contract meal plans.

2014-2024: Net grant aid to students-Total amount

Net grant aid to students expenses include student awards, made from contributed funds or grant funds, that are under the control of the institution, net of discounts and allowances applied to tuition and fees and auxiliary enterprises. If the institution treats student grant aid as passthrough agency transactions on their GPFS, then those amounts will not be included here.

Total expenses

Storage: double | Stata name: F3E07 | Observed years: 2004-2013 | Nulls: 119,636

Definitions by release year

2004-2013: Total expenses

Total expenses are the outflow or other using up of assets or incurrence of liabilities (or a combination of both) from delivering or producing goods, rendering services, or carrying out other activities that constitute the insitution's ongoing major or central operations or in generating revenues. Alternatively, expenses may be thought of as the costs of goods and services used to produce the educational services provided by the institution. Expenses result in a reduction of net assets.

2016-2024: Total expenses-Operations and maintenance

Operations and maintenance - An expense category that includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include: janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture, and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; earthquake and disaster preparedness; safety; hazardous waste disposal; property, liability, and all other insurance relating to property; space and capital leasing; facility planning and management; and central receiving. This expense does include amounts charged to auxiliary enterprises, hospitals, and independent operations. Also includes information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support).

2014-2015: Operation and maintenance of plant-Total amount

Operation and maintenance of plant includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include utilities, fire protection, property insurance, and similar items. Also included are information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support).

F3EQUITR

Equity ratio (for-profit institutions)

Storage: double | Stata name: F3EQUITR | Observed years: 2006-2024 | Nulls: 128,584

Definitions by release year

2006-2013: Equity ratio (for-profit institutions)

Equity ratio for private-for profit institutions using FASB standards is derived as follows: Total liabilities (F3A02) is subtracted from total assets (F3A01). This amount is then divided by total assets (F3A01). Liabilities are debts and obligations of the institution owed to outsiders or claims or rights, expressed in monetary terms, of an institution's creditors. Two types of liabilities are often defined, short-term and long term. Short-term liabilities are those that will be satisfied or paid within one year. Long-term liabilities are those which will not be satisfied within a year. Liabilities include: 1) accounts payable; 2) deferred revenues and refundable advances; 3) Post-retirement and post-employment obligations; 4) other accrued liabilities; 5) annuity and life income obligations and other amounts held for the benefits of others; 6) bonds, notes, and capital leases payable and other long-term debt, including current portions; 7) government grants refundable under student loan programs; and 8) other liabilities (those liabilities not falling in one or more of the above seven categories). The exact categories of liabilities that must be used are not specified and the above are examples only. Assets Physical items (tangible) or rights (intangible) that have value and that are owned by the institution. Assets are useful to the institution because they are a source of future services or because they can be used to secure future benefits. Assets are usually divided into two categories, current and fixed. Current assets are those that can be readily turned into cash. Fixed assets are those which cannot readily be turned into cash without disrupting the operation of the institution. Fixed assets include intangible assets consisting of certain nonmaterial rights and benefits of an institution, such as patents, copyrights, trademarks and goodwill. Categories of assets include the following items: 1) cash, cash equivalents, and temporary investments; 2) receivables (net of allowance for uncollectible accounts); 3) inventories, prepaid expenses, and deferred charges; 4) amounts held by trustees for construction and debt services; 5) long-term investments; 6) plant, property, and equipment; and 7) other assets (those assets not falling in one or more of the above six categories). The exact categories of assets that must be used are not specified and the above are examples only.

2014-2024: Equity ratio (for-profit institutions)

Equity ratio for private-for profit institutions using Private for-profit standards is derived as follows: Total liabilities (F3A02) is subtracted from total assets (F3A01). This amount is then divided by total assets (F3A01). Liabilities are debts and obligations of the institution owed to outsiders or claims or rights, expressed in monetary terms, of an institution's creditors. Two types of liabilities are often defined, short-term and long term. Short-term liabilities are those that will be satisfied or paid within one year. Long-term liabilities are those which will not be satisfied within a year. Liabilities include: 1) accounts payable; 2) deferred revenues and refundable advances; 3) Post-retirement and post-employment obligations; 4) other accrued liabilities; 5) annuity and life income obligations and other amounts held for the benefits of others; 6) bonds, notes, and capital leases payable and other long-term debt, including current portions; 7) government grants refundable under student loan programs; and 8) other liabilities (those liabilities not falling in one or more of the above seven categories). The exact categories of liabilities that must be used are not specified and the above are examples only. Assets Physical items (tangible) or rights (intangible) that have value and that are owned by the institution. Assets are useful to the institution because they are a source of future services or because they can be used to secure future benefits. Assets are usually divided into two categories, current and fixed. Current assets are those that can be readily turned into cash. Fixed assets are those which cannot readily be turned

into cash without disrupting the operation of the institution. Fixed assets include intangible assets consisting of certain nonmaterial rights and benefits of an institution, such as patents, copyrights, trademarks and goodwill. Categories of assets include the following items: 1) cash, cash equivalents, and temporary investments; 2) receivables (net of allowance for uncollectible accounts); 3) inventories, prepaid expenses, and deferred charges; 4) amounts held by trustees for construction and debt services; 5) long-term investments; 6) plant, property, and equipment; and 7) other assets (those assets not falling in one ore more of the above six categories). 2020-2024: Pretax income

These variables are intended to collect the numerator and denominator used to calculate financial health ratios that compose the Composite Financial Index (CFI). Pretax income Amount of income/loss, prior to taxes, from the GPFS. Typically, this is the amount of total revenue minus operating expenses.

2020-2024: Total revenues

These variables are intended to collect the numerator and denominator used to calculate financial health ratios that compose the Composite Financial Index (CFI). Total revenues recognized in the GPFS from F3B01. Total revenues and investment return is the sum of the following amounts: tuition and fees; government appropriations, grants and contracts; private grants and contracts; investment income and investment gains (losses) included in net income; sales and services of educational activities and auxiliary enterprises; and other revenue.

2020-2024: Total equity

These variables are intended to collect the numerator and denominator used to calculate financial health ratios that compose the Composite Financial Index (CFI). Total equity has been carried forward from F3A03. This is calculated as the total assets minus total liabilities. Total equity is the sum of the following amounts: stock (common, preferred, treasury, etc.) and additional paid-in-capital; retained earnings; and accumulated other comprehensive income.

2010-2013: Revenues from government appropriations, grants and contracts per FTE (for-profit institutions)

Revenues from government appropriations, grants and contracts per FTE (for-profit institutions) Federal appropriations, grants and contracts (F3D02) plus State appropriations, grants and contracts(F3D03) is divided by 12-month FTE enrollment (FTE12MN) Government appropriations (revenues) Revenues received by an institution through acts of a legislative body, except grants and contracts. These funds are for meeting current operating expenses and not for specific projects or programs . The most common example is a state's general appropriation. Appropriations primarily to fund capital assets are classified as capital appropriations. Grants and contracts (revenues) Revenues from governmental agencies and nongovernmental parties that are for specific research projects, other types of programs , or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts. GASB institutions are required to classify in financial reports such grants and contracts as either operating or nonoperating.

F3INSTFT

Instruction expenses per FTE (for-profit institutions)

Storage: double | Stata name: F3INSTFT | Observed years: 2006-2024 | Nulls: 97,654

Definitions by release year

2006-2013: Instruction expenses per FTE (for-profit institutions)

Instruction expenses per FTE enrollment for private-forprofit institutions using FASB standards is derived as follows: Instruction expenses (F3E01) divided by 12-month FTE enrollment (FTE12MN) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2014-2019: Instruction expenses per FTE (for-profit institutions)

Instruction expenses per FTE enrollment for private forprofit institutions is derived as follows: Instruction expenses (F3E011) divided by 12-month FTE enrollment (FTE12MN) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Instruction expenses per FTE (for-profit institutions)

Instruction expenses per FTE enrollment for private forprofit institutions is derived as follows: Instruction expenses (F3E011) divided by 12-month FTE enrollment (FTE12MN) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2006-2013: Instruction expenses as a percent of total core expenses (for-profit institutions)

Instruction expenses as a percent of total core expenses for private-for-profit institutions using FASB standards is derived as follows: Instruction expenses (F3E01) divided by total core expenses (F3COREXP) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. .

2014-2024: Instruction expenses as a percent of total core expenses (for-profit institutions)

Instruction expenses as a percent of total core expenses for private-for-profit institutions is derived as follows: Instruction expenses (F3E011) divided by total core expenses (F3COREXP) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense.

Definitions by release year

2014-2019: Institutional support expenses per FTE (for-profit institutions)

Institutional support expenses per FTE enrollment for private for-profit institutions is derived as follows: Institutional support expenses (F3E03C1) divided by 12-month FTE enrollment (FTE12MN) Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Institutional support expenses per FTE (for-profit institutions)

Institutional support expenses per FTE enrollment for private for-profit institutions is derived as follows: Institutional support expenses (F3E03C1) divided by 12-month FTE enrollment (FTE12MN) Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. F3INVRFT

Revenues from investment return per FTE (for-profit institutions)

Storage: double | Stata name: F3INVRFT | Observed years: 2014-2024 | Nulls: 120,920

Definitions by release year

2014-2019: Revenues from investment return per FTE (for-profit institutions)

Revenues from investment return per FTE enrollment for private for-profit institutions is derived as follows: Investment return revenues (F3D05) divided by 12-month FTE enrollment (FTE12MN) Investment return - Income from assets including dividends, interest earnings, royalties, rent, gains (losses) etc. Assets - Physical items (tangible) or rights (intangible) that have value and that are owned by the institution. Assets are useful to the institution because they are a source of future services or because they can be used to secure future benefits Interest - The price paid (or received) for the use of money over a period of time. Interest income is one component of investment income. Interest paid by the institution is interest expense. Gains - Increases in the institution's net assets from peripheral or incidental transactions. This is in contrast to revenues, which occur from the institution's ongoing major or central operations. Whether a transaction generates revenue or a gain depends on the relationship of the transaction to the institution's activities. For example, the sale of computers by a college store might be part of ongoing central activities, while the sale of surplus computers from administrative offices might be considered otherwise. Losses - Decreases in net assets from an organization's peripheral or incidental transactions and other events affecting the organization, other than those that result from expenses. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2006-2013: All other core expenses per FTE (for-profit institutions)

All other core expenses per FTE enrollment for private for-profit institutions using FASB standards is derived as follows: The sum of research and public service (F3E02), net grant aid to students (F3E05) and other expenses(F3E06) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) is afunctional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Net grant aid to students (expenses) is the portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances. Other expenses (F3E06) is a generated expense category on the finance component that is an expense that cannot be included in the core expense functions (instruction, research, public service, academic support, student services, institutional support and net grant aid to students) or noncore expense function(auxiliary enterprises). The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2014-2019: All other core expenses per FTE (for-profit institutions)

All other core expenses per FTE enrollment for private for-profit institutions is derived as follows: The sum of net grant aid to students (F3E051) and other expenses(F3E061) divided by 12-month FTE enrollment (FTE12MN) Net grant aid to students (expenses) is the portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances. Other expenses (F3E061) is a generated expense category on the finance component that is an expense that cannot be included in the core expense functions (instruction, research, public service, academic support, student services, institutional support and net grant aid to students) or noncore expense function(auxiliary enterprises). The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: All other core expenses per FTE (for-profit institutions)

All other core expenses per FTE enrollment for private for-profit institutions is derived as follows: The sum of net grant aid to students (F3E051) and other expenses(F3E061) divided by 12-month FTE enrollment (FTE12MN) Net grant aid to students (expenses) is the portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances. Other expenses (F3E061) is a generated expense category on the finance component that is an expense that cannot be included in the core expense functions (instruction, research, public service, academic support, student services, institutional support and net grant aid to students) or noncore expense function(auxiliary enterprises). The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). 2006-2013: Other core expenses as a percent of total core expenses (for-profit institutions)

All other core expenses as a percent of total core expenses for private for-profit institutions using FASB standards is derived as follows: The sum of research and public service (F3E02), net grant aid to students (F3E05) and other expenses(F3E06) divided by total core expenses (F3COREXP) Research (expense) is a functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) FASB institutions include actual or allocated costs for operation & maintenance of plant, interest, and depreciation. GASB institutions do not include operation & maintenance of plant or interest but may, as an option, distribute depreciation expense. Public service (expense) is afunctional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Net grant aid to students (expenses) is the portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances. Other expenses (F3E06) is a generated expense category on the finance component that is an expense that cannot be included in the core expense functions (instruction, research, public service, academic support, student services, institutional support and net grant aid to students) or the noncore expense functions(auxiliary enterprises, hospitals and independant operations).

2014-2024: Other core expenses as a percent of total core expenses (for-profit institutions)

2006-2009: Other core revenues per FTE (for-profit institutions)

Revenues from other core revenue sources per FTE enrollment for private-for-profit institutions using FASB standards is derived as follows. Other core revenues is equal to the sum of: Federal appropriations, grants and contracts (F3D02) State and local appropriations, grants and contracts (F3D03) Private gifts, grants, and contracts (F3D04) Investment income and investment gains (losses) included in net income (F3D05) Other revenues (F3D08) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2010-2013: Other core revenues per FTE (for-profit institutions)

Revenues from other core revenue sources per FTE enrollment for private-for-profit institutions using FASB standards is derived as follows. Other core revenues is equal to the sum of: Private gifts, grants, and contracts (F3D04) Investment income and investment gains (losses) included in net income (F3D05) Other revenues (F3D08) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2014-2019: Other core revenues per FTE (for-profit institutions)

Revenues from other core revenue sources per FTE enrollment for private-for-profit institutions using Private for-profit standards is derived as follows. Other core revenues is equal to the sum of: Federal (F3D02A). state (F3D03A) and local (F3D03C) appopriations and Other revenues (F3D08) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) Prior to Fiscal year 2014, Other core revenues included Private gifts, grants, and contracts (F3D04) and Investment income and investment gains (losses) included in net income (F3D05) and Other revenues (F3D08). Appropriations from federal, state and local sources were combined with government grants and contracts from federal, state and local sources into a category called Government appropriations, grants, and contracts The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2020-2024: Other core revenues per FTE (for-profit institutions)

Revenues from other core revenue sources per FTE enrollment for private-for-profit institutions using Private for-profit standards is derived as follows. Other core revenues is equal to the sum of: Federal (F3D02A). state (F3D03A) and local (F3D03C) appopriations and Other revenues (F3D08) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) Prior to Fiscal year 2014, Other core revenues included Private gifts, grants, and contracts (F3D04) and Investment income and investment gains (losses) included in net income (F3D05) and Other revenues (F3D08). 2014-2019: Public service expenses per FTE (for-profit institutions)

Public service expenses per FTE enrollment for private for-profit institutions is derived as follows: Public service expenses (F3E02B1) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Public service expenses per FTE (for-profit institutions)

Public service expenses per FTE enrollment for private for-profit institutions is derived as follows: Public service expenses (F3E02B1) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. 2014-2024: Public service expenses as a percent of total core expenses (for-profit institutions)

Public service expenses as a percent of total core expenses private for-profit institutions is derived as follows: Public service expenses (F3E02B1) divided by total core expenses (F3COREXP) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense.

Definitions by release year

2014-2019: Revenues from private gifts, grants, contracts per FTE (for-profit institutions)

Revenues from private gifts, grants, and contracts per FTE enrollment for private for-profit institutions is derived as follows: Private gifts, grants, and contract revenues (F3D04) divided by 12-month FTE enrollment (FTE12MN) Private gifts, grants and contracts (revenues) Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Revenues from private gifts, grants, contracts per FTE (for-profit institutions)

Revenues from private gifts, grants, and contracts per FTE enrollment for private for-profit institutions is derived as follows: Private gifts, grants, and contract revenues (F3D04) divided by 12-month FTE enrollment (FTE12MN) Private gifts, grants and contracts (revenues) Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. 2014-2015: Total salaries, wages, and benefit expenses as a percent of total expenses (for-profit institutions)

Salaries, wages, and benefit expenses as a percent of total expenses for private not-for-profit institutions is derived as follows: Total Salaries and wage expenses (F3E072) plus employee fringe benefit expenses for institutional support (F3E073) divided by total expenses (F3E071). Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits,operations of plant, depreciation, interest and other expenses.

2016-2024: Total salaries, wages, and benefits as a percent of total expenses (for-profit institutions)

Salaries, wages, and benefit expenses as a percent of total expenses for private not-for-profit institutions is derived as follows: Total Salaries and wage expenses (F3E072) plus employee fringe benefit expenses for institutional support (F3E073) divided by total expenses (F3E071). Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Revenues from sales and services of educational activities per FTE (for-profit institutions)

Storage: double | Stata name: F3SSEAFT | Observed years: 2006-2024 | Nulls: 97,695

Definitions by release year

2006-2013: Revenues from sales and services of educational activities per FTE (for-profit institutions)

Revenues from sales and services of educational activities per FTE enrollment for private for-profit institutions using FASB standards is derived as follows: Revenues from sales and services of educational activities (F3D06) divided by 12-month FTE enrollment (FTE12MN) Sales and services of educational activities (revenues) are revenues from the sales of goods or services that are incidental to the conduct of instruction, research or public service. Examples include film rentals, sales of scientific and literary publications, testing services, university presses, dairy products, machine shop products, data processing services, cosmetology services, and sales of handcrafts prepared in classes The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity

(credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2014-2019: Revenues from sales and services of educational activities per FTE (for-profit institutions)

Revenues from sales and services of educational activities per FTE enrollment for private for-profit institutions using Private for-profit standards is derived as follows: Revenues from sales and services of educational activities (F3D06) divided by 12-month FTE enrollment (FTE12MN) Sales and services of educational activities (revenues) are revenues from the sales of goods or services that are incidental to the conduct of instruction, research or public service. Examples include film rentals, sales of scientific and literary publications, testing services, university presses, dairy products, machine shop products, data processing services, cosmetology services, and sales of handcrafts prepared in classes The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). 2016-2024: Salaries and wages for academic support as a percent of total expenses for academic support (for-profit institutions)

Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support for private for-profit institutions is derived as follows: Salaries and wage expenses for academic support (F3E03A2) divided by total expenses for academic support (F3E03A1). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under Private for-profit standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits, operations of plant, depreciation, interest and other expenses.

2016-2024: Salaries and wages for instruction as a percent of total expenses for instruction (for-profit institutions)

Salaries, wages, and benefit expenses for instruction as a percent of total expenses for instruction for private for-profit-institutions is derived as follows: Salaries and wage expenses for instruction (F3E012) divided by total expenses for instruction (F3E011) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). 2016-2024: Salaries and wages for institutional support as a percent of total expenses for institutional support (for-profit institutions)

Salaries, wages, and benefit expenses for institutional support as a percent of total expenses for institutional support for private for-profit institutions is derived as follows: Salaries and wage expenses for institutional support (F3E03C2) divided by total expenses for institutional support (F3E03C1). Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. Private for-profit institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. 2016-2024: Salaries and wages for other core expense functions as a percent of total expenses for other core expense functions (for-profit)

Salaries, wages, and benefit expenses for other core expense functions as a percent of total expenses for other core expense functions for private for-profit institutions is derived as follows: Salaries and wage expenses (F3E062) divided by total other core expenses which is the sum of total expenses for net grant aid to students (F3E051) and other expenses (F3E061). Net grant aid to students (expenses) is the portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances. Other expenses (F3E061) is a generated expense category on the finance component that is an expense that cannot be included in the core expense functions (instruction, research, public service, academic support, student services, institutional support and net grant aid to students) or the noncore expense functions(auxiliary enterprises, hospitals and independant operations).

Revenues from tuition and fees per FTE (for-profit institutions)

Storage: double | Stata name: F3TUFEFT | Observed years: 2006-2024 | Nulls: 97,695

Definitions by release year

2006-2013: Revenues from tuition and fees per FTE (for-profit institutions)

Revenues from tuition and fees per FTE enrollment for private for-profit institutions using FASB standards is derived as follows: Tuition and fees revenues (F3D01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F3D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2014-2019: Revenues from tuition and fees per FTE (for-profit institutions)

Revenues from tuition and fees per FTE enrollment for private for-profit institutions Tuition and fees revenues (F3D01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F3D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2024: Revenues from tuition and fees per FTE (for-profit institutions)

Revenues from tuition and fees per FTE enrollment for private for-profit institutions Tuition and fees revenues (F3D01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F3D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). F3TUFEPC

Tuition and fees as a percent of core revenues (for-profit institutions)

Storage: double | Stata name: F3TUFEPC | Observed years: 2006-2024 | Nulls: 97,506

Definitions by release year

2006-2013: Tuition and fees as a percent of core revenues (for-profit institutions)

Tuition and fees as a percent of core revenues for private-for-profit institutions using FASB standards is derived as follows: Tuition and fees revenues (F3D01) divided by total core revenues (F3CORREV) Tuition and fees (revenues) (F3D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees.

2014-2024: Tuition and fees as a percent of core revenues (for-profit institutions)

Tuition and fees as a percent of core revenues for private for-profit institutions is derived as follows: Tuition and fees revenues (F3D01) divided by total core revenues (F3CORREV) Tuition and fees (revenues) (F3D01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees.

FGRNT_A

[varies by year] Average amount of federal grant aid awarded to full-time first-time undergraduates

Storage: double | Stata name: FGRNT_A | Observed years: 2004-2024 | Nulls: 21,320

Definitions by release year

2004-2008: Average amount of federal grant aid received

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

Student Financial Aid and Student Counts - Financial Aid Average amount of federal grants (grants/educational assistance funds) received by full-time, first-time degree/certificate-seeking undergraduate undergraduate students.

Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies.

Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate

Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2009-2013: Average amount of federal grant aid received by full-time first-time undergraduates

Student Financial Aid and Student Counts - Financial Aid Average amount of federal grants (grants/educational assistance funds) received by full-time, first-time degree/certificate-seeking undergraduate undergraduate students.

Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies.

Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate

Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2014-2019: Average amount of federal grant aid awarded to full-time first-time undergraduates

Student Financial Aid and Student Counts - Financial Aid Average amount of federal grants (grants/educational assistance funds) awarded to full-time, first-time degree/certificate-seeking undergraduate undergraduate students.

Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies.

2004-2008: Percentage receiving federal grant aid

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. Student Financial Aid and Student Counts - Financial Aid Percentage of full-time, first-time degree/certificate-seeking undergraduate students who received federal grants (grants/educational assistance funds). Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students

enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2009-2013: Percent of full-time first-time undergraduates receiving federal grant aid

Student Financial Aid and Student Counts - Financial Aid Percentage of full-time, first-time degree/certificate-seeking undergraduate students who received federal grants (grants/educational assistance funds). Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2014-2019: Percent of full-time first-time undergraduates awarded federal grant aid

Student Financial Aid and Student Counts - Financial Aid Percentage of full-time, first-time degree/certificate-seeking undergraduate students who were awarded federal grants (grants/educational assistance funds). Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2020-2024: Percent of full-time first-time undergraduates awarded federal grant aid

Student Financial Aid and Student Counts - Financial Aid Percentage of full-time, first-time degree/certificate-seeking undergraduate students who were awarded federal grants (grants/educational assistance funds). Federal grants (grants/educational assistance funds) - Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, and other federal agencies. FLOAN_A

[varies by year] Average amount of federal student loans awarded to full-time first-time undergraduates

Storage: double | Stata name: FLOAN_A | Observed years: 2008-2024 | Nulls: 56,337

Definitions by release year

2008: Average amount of federal loan aid received

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. Average amount of federal loan aid received by full-time, first-time degree/certificate-seeking undergraduate students. Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2009-2013: Average amount of federal student loan aid received by full-time first-time undergraduates

Average amount of federal loan aid received by full-time, first-time degree/certificate-seeking undergraduate students. Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who

attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2014-2019: Average amount of federal student loans awarded to full-time first-time undergraduates

Average amount of federal student loans awarded to full-time, first-time degree/certificate-seeking undergraduate students. Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2020-2024: Average amount of federal student loans awarded to full-time first-time undergraduates

Average amount of federal student loans awarded to full-time, first-time degree/certificate-seeking undergraduate students. Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2014-2019: Percent of full-time first-time undergraduates awarded federal student loans

Percentage of full-time, first-time degree/certificate-seeking undergraduate students who were awarded federal student loans. Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2020-2024: Percent of full-time first-time undergraduates awarded federal student loans

Percentage of full-time, first-time degree/certificate-seeking undergraduate students who were awarded federal student loans. Loans to students - Any monies that must be repaid to the lending institution for which the student is the designated borrower. Includes all Title IV subsidized and unsubsidized loans. Does not include PLUS and other loans made directly to parents. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

Consolidated source columns

SFA 2008→SFA_P 2009 retains the same number and core full definition after annual-cohort normalization and removal of the old perturbation notice.

FLOAN_P__SFA__00070361__2CE265A8DA69: 2008
FLOAN_P__SFA_P__00070361__A9AEB207431F: 2009-2024

Old source has an explicit disclosure-perturbation notice. 2014 wording changes received/receiving to awarded within the later column. Preserve that reporting-basis caveat; no assertion of whole-series measurement invariance. 2024 SFA maps to the later column.

FPCERT

First-professional certificate

Storage: double | Stata name: FPCERT | Observed years: 2005-2009 | Nulls: 135,430

Definitions by release year

2005: First-professional certificate

Firstprofessional certificates awarded between July 1, 2004 and June 30, 2005. FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE) An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

2006: First-professional certificate

Firstprofessional certificates awarded between July 1, 2005 and June 30, 2006. This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and First-professional certificates (AWLEVEL=11) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE) An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

2007: First-professional certificate

Firstprofessional certificates awarded between July 1, 2006 and June 30, 2007. This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and First-professional certificates (AWLEVEL=11) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE) An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

2008: First-professional certificate

Firstprofessional certificates awarded between July 1, 2007 and June 30, 2008. This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and First-professional certificates (AWLEVEL=11) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE) An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

2009: First-professional certificate

Firstprofessional certificates awarded between July 1, 2008 and June 30, 2009. This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and First-professional certificates (AWLEVEL=11) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE) An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

2007: First professional degree

First-professional degrees awarded between July 1, 2006 and June 30, 2007 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and First-professional degree (AWLEVEL=10) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. First-professional degree - An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least 2 years of college work prior to entering the program; and (3) a total of at least 6 academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself. First-professional degrees may be awarded in the following 10 fields: Chiropractic (D.C. or D.C.M.) Dentistry (D.D.S. or D.M.D.) Law (L.L.B., J.D.) Medicine (M.D.) Optometry (O.D.) Osteopathic Medicine (D.O.) Pharmacy (Pharm.D.) Podiatry (D.P.M., D.P., or Pod.D.) Theology (M.Div., M.H.L., B.D., or Ordination) Veterinary Medicine (D.V.M.)

2008: First professional degree

First-professional degrees awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and First-professional degree (AWLEVEL=10) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. First-professional degree - An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least 2 years of college work prior to entering the program; and (3) a total of at least 6 academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself. First-professional degrees may be awarded in the following 10 fields: Chiropractic (D.C. or D.C.M.) Dentistry (D.D.S. or D.M.D.) Law (L.L.B., J.D.) Medicine (M.D.) Optometry (O.D.) Osteopathic Medicine (D.O.) Pharmacy (Pharm.D.) Podiatry (D.P.M., D.P., or Pod.D.) Theology (M.Div., M.H.L., B.D., or Ordination) Veterinary Medicine (D.V.M.)

2009: First professional degree

First-professional degrees awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and First-professional degree (AWLEVEL=10) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. FTE

[varies by year] Full-time equivalent fall enrollment

Storage: double | Stata name: FTE | Observed years: 2004-2024 | Nulls: 6,855

Definitions by release year

2004: Full-time equivalent enrollment: Fall 2004

Full-time equivalent enrollment This variable is derived from the enrollment by race/ethnicity section of the fall enrollment survey. The full-time equivalent of the institution's part-time enrollment is estimated and then added to the full-time enrollment of the institution. This formula has been used to produce the full-time equivalent enrollment that is published annually in the Digest of Education Statistics. The full-time equivalent of part-time enrollment is estimated by multiplying the part-time enrollment by factors that vary by control and level of institution and level of student. The following factors were used: Part-time undergraduate enrollment (line 22) Public 4-year .403543 Not-for-profit and for-profit, 4-year .392857 Public 2-year and <2year .335737 All other sectors .397058 First professional (line 23) Public 4-year .600000 Not-for-profit and for-profit, 4-year .545454 Graduate (line 25) Public 4-year .361702 Not-for-profit and for-profit, 4-year .382059 These factors were estimated using reported full-time equivalent of part-time enrollments from enrollment data collected in the Higher Education General Information System (HEGIS) 1967-1986.

2005: Full-time equivalent enrollment: Fall 2005

Full-time equivalent enrollment This variable is derived from the enrollment by race/ethnicity section of the fall enrollment survey. The full-time equivalent of the institution's part-time enrollment is estimated and then added to the full-time enrollment of the institution. This formula has been used to produce the full-time equivalent enrollment that is published annually in the Digest of Education Statistics. The full-time equivalent of part-time enrollment is estimated by multiplying the part-time enrollment by factors that vary by control and level of institution and level of student. The following factors were used: Part-time undergraduate enrollment (line 22) Public 4-year .403543 Not-for-profit and for-profit, 4-year .392857 Public 2-year and <2year .335737 All other sectors .397058 First professional (line 23) Public 4-year .600000 Not-for-profit and for-profit, 4-year .545454 Graduate (line 25) Public 4-year .361702 Not-for-profit and for-profit, 4-year .382059 These factors were estimated using reported full-time equivalent of part-time enrollments from enrollment data collected in the Higher Education General Information System (HEGIS) 1967-1986.

2006: Full-time equivalent enrollment: Fall 2006

Full-time equivalent enrollment This variable is derived from the enrollment by race/ethnicity section of the fall enrollment survey. The full-time equivalent of the institution's part-time enrollment is estimated and then added to the full-time enrollment of the institution. This formula has been used to produce the full-time equivalent enrollment that is published annually in the Digest of Education Statistics. The full-time equivalent of part-time enrollment is estimated by multiplying the part-time enrollment by factors that vary by control and level of institution and level of student. The following factors were used: Part-time undergraduate enrollment (line 22) Public 4-year .403543 Not-for-profit and for-profit, 4-year .392857 Public 2-year and <2year .335737 All other sectors .397058 First professional (line 23) Public 4-year .600000 Not-for-profit and for-profit, 4-year .545454 Graduate (line 25) Public 4-year .361702 Not-for-profit and for-profit, 4-year .382059 These factors were estimated using reported full-time equivalent of part-time enrollments from enrollment data collected in the Higher Education General Information System (HEGIS) 1967-1986.

2007: Full-time equivalent enrollment: Fall 2007

Full-time equivalent enrollment This variable is derived from the enrollment by race/ethnicity section of the fall enrollment survey. The full-time equivalent of the institution's part-time enrollment is estimated and then added to the full-time enrollment of the institution. This formula has been used to produce the full-time equivalent enrollment that is published annually in the Digest of Education Statistics. The full-time equivalent of part-time enrollment is estimated by multiplying the part-time enrollment by factors that vary by control and level of institution and level of student. The following factors were used: Part-time undergraduate enrollment (line 22) Public 4-year .403543 Not-for-profit and for-profit, 4-year .392857 Public 2-year and <2year .335737 All other sectors .397058 First professional (line 23) Public 4-year .600000 Not-for-profit and for-profit, 4-year .545454 Graduate (line 25) Public 4-year .361702 Not-for-profit and for-profit, 4-year .382059 These factors were estimated using reported full-time equivalent of part-time enrollments from enrollment data collected in the Higher Education General Information System (HEGIS) 1967-1986.

2008: Full-time equivalent enrollment: Fall 2008

Full-time equivalent enrollment This variable is derived from the enrollment by race/ethnicity section of the fall enrollment survey. The full-time equivalent of the institution's part-time enrollment is estimated and then added to the full-time enrollment of the institution. This formula has been used to produce the full-time equivalent enrollment that is published annually in the Digest of Education Statistics. The full-time equivalent of part-time enrollment is estimated by multiplying the part-time enrollment by factors that vary by control and level of institution and level of student. The following factors were used: Part-time undergraduate enrollment (line 22) Public 4-year .403543 Not-for-profit and for-profit, 4-year .392857 Public 2-year and <2year .335737 All other sectors .397058 First professional (line 23) Public 4-year .600000 Not-for-profit and for-profit, 4-year .545454 Graduate (line 25) Public 4-year .361702 Not-for-profit and for-profit, 4-year .382059 These factors were estimated using reported full-time equivalent of part-time enrollments

from enrollment data collected in the Higher Education General Information System (HEGIS) 1967-1986.

2009-2024: Full-time equivalent fall enrollment

Full-time equivalent enrollment This variable is derived from the enrollment by race/ethnicity section of the fall enrollment survey. The full-time equivalent of the institution's part-time enrollment is estimated and then added to the full-time enrollment of the institution. This formula has been used to produce the full-time equivalent enrollment that is published annually in the Digest of Education Statistics. The full-time equivalent of part-time enrollment is estimated by multiplying the part-time enrollment by factors that vary by control and level of institution and level of student. The following factors were used: Part-time undergraduate enrollment (line 22) Public 4-year .403543 Not-for-profit and for-profit, 4-year .392857 Public 2-year and <2year .335737 All other sectors .397058 First professional (line 23) Public 4-year .600000 Not-for-profit and for-profit, 4-year .545454 Graduate (line 25) Public 4-year .361702 Not-for-profit and for-profit, 4-year .382059 These factors were estimated using reported full-time equivalent of part-time enrollments from enrollment data collected in the Higher Education General Information System (HEGIS) 1967-1986.

Definitions by release year

2004: 12-month full-time equivalent enrollment: Academic year 2003-04

12-month full-time equivalent enrollment: Academic year 2003-04. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2004 Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours).

First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall counts (part A) and applying this ratio to the 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2005: 12-month full-time equivalent enrollment: Academic year 2004-05

12-month full-time equivalent enrollment: Academic year 2004-05. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2004 Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall counts (part A) and applying this ratio to the 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2006: 12-month full-time equivalent enrollment: Academic year 2005-06

12-month full-time equivalent enrollment FTE: Academic year 2005-06. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). The calculation of FTE undergraduate and graduates is as follows: For institutions using a quarter calendar system, One undergraduate FTE over 12-month period is equivalent to 45 credit hours or 900 contact hours. One graduate FTE over a 12-month period is equivalent to 36 credit hours. For institutions with a Semester/trimester/4-1-4 plan/other academic year calendar system, one undergraduate FTE over 12-month period is equivalent to 30 credit hours or 900 contact hours. One graduate FTE over a 12-month period is equivalent to 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900. If institutions reported undergraduate or graduate FTE. The reported values were used in the generation of the total 12-month FTE. First-professional credit hours or first-professional FTE are not reported in IPEDS, so first-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall enrollment counts (part A) and applying this ratio to the 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The total 12-month FTE (FTE12MN) was then generated by summing the estimated or reported undergraduate FTE, the estimated or reported graduate FTE and the estimated First-professional FTE.

2007: 12-month full-time equivalent enrollment: Academic year 2006-07

12-month full-time equivalent enrollment: Academic year 2006-07. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2006-07 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall 2006 counts and applying this ratio to the 2006-07 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2008: 12-month full-time equivalent enrollment: Academic year 2007-08

12-month full-time equivalent enrollment: Academic year 2007-08. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2007-08 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall 2007 counts and applying this ratio to the 2007-08 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level

(One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2009: 12-month full-time equivalent enrollment: 2008-09

12-month full-time equivalent enrollment: Academic year 2008-09. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2008-09 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the Fall 2008 counts and applying this ratio to the 2008-09 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2010: 12-month full-time equivalent enrollment: 2009-10

12-month full-time equivalent enrollment: Academic year 2009-10. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2009-10 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the Fall 2008 counts and applying this ratio to the 2009-10 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2011: 12-month full-time equivalent enrollment: 2010-11

12-month full-time equivalent enrollment: Academic year 2010-11. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2010-11 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the Fall 2008 counts and applying this ratio to the 2010-11 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2012: 12-month full-time equivalent enrollment: 2011-12

12-month full-time equivalent enrollment: Academic year 2011-12. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2011-12 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the Fall 2008 counts and applying this ratio to the 2011-12 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2013: 12-month full-time equivalent enrollment: 2012-13

12-month full-time equivalent enrollment: Academic year 2012-13. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2012-13 12-month Enrollment component) plus the estimated FTE of first-professional

students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the Fall 2008 counts and applying this ratio to the 2012-13 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2014: 12-month full-time equivalent enrollment: 2013-14

12-month full-time equivalent enrollment: Academic year 2013-14. The number of FTE students is calculated based on the credit and/or contact hours reported by the institution on the IPEDS 12-month enrollment (E12) component and the institution's calendar system, as reported on the IC Header component. The following table indicates the level of instructional activity used to convert the credit and/or contact hours reported to an indicator of full-time equivalents (FTE students): - Quarter calendar system - Enrollment level (One FTE over 12-month period) -Undergraduate 45 credit hours, 900 contact hours -Graduate 36 credit hours - Semester/trimester/4-1-4 plan/other calendar system -Enrollment level (one FTE over 12-month period) -Undergraduate 30 credit hours 900 contact hours -Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900. Institutions have the choice of using the estimated FTE generated from the above formula or report their own FTE. The total 12-month FTE is generated by summing the estimated or reported undergraduate FTE and the estimated or reported graduate FTE and reported Doctor's Professional Practice FTE.

2015: 12-month full-time equivalent enrollment: 2014-15

12-month full-time equivalent enrollment: Academic year 2014-15. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2014-15 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2016: 12-month full-time equivalent enrollment: 2015-16

12-month full-time equivalent enrollment: Academic year 2015-16. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2017: 12-month full-time equivalent enrollment: 2016-17

12-month full-time equivalent enrollment: Academic year 2016-17. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2018: 12-month full-time equivalent enrollment: 2017-18

12-month full-time equivalent enrollment: Academic year 2017-18. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment

programs, FTE is determined by dividing the number of contact hours attempted by 900.

2019: 12-month full-time equivalent enrollment: 2018-19

12-month full-time equivalent enrollment: Academic year 2018-19. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2020: 12-month full-time equivalent enrollment

12-month full-time equivalent enrollment: Academic year 2019-20. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 clock hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 clock hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of clock hours attempted by 900.

2021: 12-month full-time equivalent enrollment

12-month full-time equivalent enrollment: Academic year 2020-21. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 clock hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 clock hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of clock hours attempted by 900.

2022: 12-month full-time equivalent enrollment

12-month full-time equivalent enrollment: Academic year 2021-22. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 clock hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 clock hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of clock hours attempted by 900.

2023: 12-month full-time equivalent enrollment

12-month full-time equivalent enrollment: Academic year 2022-23. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 clock hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 clock hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of clock hours attempted by 900.

2024: 12-month full-time equivalent enrollment

12-month full-time equivalent enrollment: Academic year 2023-24. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the reported FTE of doctoral professional practice students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). Students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 clock hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 clock hours Graduate 24 credit hours For institutions with continuous enrollment

programs, FTE is determined by dividing the number of clock hours attempted by 900.

2012: Reported full-time equivalent (FTE) doctor's professional practice, 2011-12

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2013: Reported full-time equivalent (FTE) doctor's professional practice, 2012-13

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of

these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2014: Reported full-time equivalent (FTE) doctors professional practice, 2013-14

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2015: Reported full-time equivalent (FTE) doctors professional practice, 2014-15

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2016: Reported full-time equivalent (FTE) doctors professional practice, 2015-16

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2017: Reported full-time equivalent (FTE) doctors professional practice, 2016-17

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2018: Reported full-time equivalent (FTE) doctors professional practice, 2017-18

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2019: Reported full-time equivalent (FTE) doctors professional practice, 2018-19

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2020: Reported full-time equivalent (FTE) doctors professional practice, 2019-20

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2021: Reported full-time equivalent (FTE) doctors professional practice, 2020-21

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2022: Reported full-time equivalent (FTE) doctors professional practice, 2021-22

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2023: Reported full-time equivalent (FTE) doctors professional practice, 2022-23

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2024: Reported full-time equivalent (FTE) doctors professional practice, 2023-24

Doctor's-professional practice student FTE Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

FTEMP15

Does institution have 15 or more full-time employees

Storage: string | Stata name: FTEMP15 | Observed years: 2004-2024 | Nulls: 13

Definitions by release year

2004-2024: Does institution have 15 or more full-time employees

Does institution have 15 or more full-time employees? FULL-TIME STAFF (EMPLOYEES) - The type of appointment at the snapshot date determines whether an employee is full time or part time. The employee's term of contract is not considered in making the determination of full or part time. Employees are counted only once even if employed multiple ways (e.g., a full-time employee who also teaches part time on a per course basis is counted only as full time). Also, a full-time employee who has an additional overload part-time appointment, contract, or course payment is counted as full time. (If Institution has less than 15 full-time employees the Fall staff survey is not applicable).

If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

2019: Reported full-time equivalent (FTE) undergraduate enrollment, 2018-19

Reported full-time equivalent (FTE) undergraduate enrollment, academic year 2018-19 NCES uses estimated FTE undergraduate enrollment to calculate expenses by function per FTE and core revenues per FTE as reported in the IPEDS Data Feedback Report. If the generated estimate was not reasonable, the institution provided their best estimate for undergraduate FTE. If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

2020: Reported full-time equivalent (FTE) undergraduate enrollment, 2019-20

Reported full-time equivalent (FTE) undergraduate enrollment, academic year 2019-20 NCES uses estimated FTE undergraduate enrollment to calculate expenses by function per FTE and core revenues per FTE as reported in the IPEDS Data Feedback Report. If the generated estimate was not reasonable, the institution provided their best estimate for undergraduate FTE. If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

2021: Reported full-time equivalent (FTE) undergraduate enrollment, 2020-21

Reported full-time equivalent (FTE) undergraduate enrollment, academic year 2020-21 NCES uses estimated FTE undergraduate enrollment to calculate expenses by function per FTE and core revenues per FTE as reported in the IPEDS Data Feedback Report. If the generated estimate was not reasonable, the institution provided their best estimate for undergraduate FTE. If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

2022: Reported full-time equivalent (FTE) undergraduate enrollment, 2021-22

Reported full-time equivalent (FTE) undergraduate enrollment, academic year 2021-22 NCES uses estimated FTE undergraduate enrollment to calculate expenses by function per FTE and core revenues per FTE as reported in the IPEDS Data Feedback Report. If the generated estimate was not reasonable, the institution provided their best estimate for undergraduate FTE. If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

2023: Reported full-time equivalent (FTE) undergraduate enrollment, 2022-23

Reported full-time equivalent (FTE) undergraduate enrollment, academic year 2022-23 NCES uses estimated FTE undergraduate enrollment to calculate expenses by function per FTE and core revenues per FTE as reported in the IPEDS Data Feedback Report. If the generated estimate was not reasonable, the institution provided their best estimate for undergraduate FTE. If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

2024: Reported full-time equivalent (FTE) undergraduate enrollment, 2023-24

Reported full-time equivalent (FTE) undergraduate enrollment, academic year 2023-24 NCES uses estimated FTE undergraduate enrollment to calculate expenses by function per FTE and core revenues per FTE as reported in the IPEDS Data Feedback Report. If the generated estimate was not reasonable, the institution provided their best estimate for undergraduate FTE. If the institution did not provide an FTE, then the reported FTE was set to the estimated FTE.

FTGDNIDP

Full-time graduate (not including doctor's professional practice) students are enrolled

Storage: string | Stata name: FTGDNIDP | Observed years: 2012-2024 | Nulls: 60,016

Definitions by release year

2012-2024: Full-time graduate (not including doctor's professional practice) students are enrolled

If institution enrolls full-time students, indicate levels Graduate (not including doctor's professional practice)
GRADUATE STUDENT - A student who holds a bachelor's or first-professional degree, or equivalent, and is taking courses at the post-baccalaureate level. These students may or may not be enrolled in graduate programs
FULL-TIME GRADUATE - A student enrolled for 9 or more semester credits, or 9 or more quarter credits, or students involved in thesis or dissertation preparation that are considered full time by the institution.
Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

F_ATHLTC

[varies by year] Are intercollegiate athletic expenses accounted for as auxiliary enterprises or treated as student services

Storage: string | Stata name: F_ATHLTC | Observed years: 2005-2021 | Nulls: 25,420

Definitions by release year

2005, 2007-2019: Are intercollegiate athletic expenses accounted for as auxiliary enterprises or treated as student services?

If your institution participates in intercollegiate athletics, are the expenses accounted for as auxiliary enterprises or treated as student services? Intercollegiate Athletics: according to NACUBO descriptions of functional expenses, intercollegiate athletics may be treated as auxiliary enterprises (if operated as an essentially self-supporting operation) or as student services (if the program is not operated as an essentially self-supporting operation). Please indicate whether your institution treats expenses for intercollegiate athletics as auxiliary enterprises, as student services, or in another functional category, or if the institution does not participate in intercollegiate athletics. This question is optional for the fiscal year 2005 collection.

2006: Are intercollegiate athletic expenses accounted for as auxiliary enterprises or treated as student services?

If your institution participates in intercollegiate athletics, are the expenses accounted for as auxiliary enterprises or treated as student services? Intercollegiate Athletics: according to NACUBO descriptions of functional expenses, intercollegiate athletics may be treated as auxiliary enterprises (if operated as an essentially self-supporting operation) or as student services (if the program is not operated as an essentially self-supporting operation). Please indicate whether your institution treats expenses for intercollegiate athletics as auxiliary enterprises, as student services, or in another functional category, or if the institution does not participate in intercollegiate athletics.

2020-2021: Are intercollegiate athletic expenses accounted for as auxiliary enterprises or treated as student services

If your institution participates in intercollegiate athletics, are the expenses accounted for as auxiliary enterprises or treated as student services? Intercollegiate Athletics: according to NACUBO descriptions of functional expenses, intercollegiate athletics may be treated as auxiliary enterprises (if operated as an essentially self-supporting operation) or as student services (if the program is not operated as an essentially self-supporting operation). Please indicate whether your institution treats expenses for intercollegiate athletics as auxiliary enterprises, as student services, or in another functional category, or if the institution does not participate in intercollegiate athletics. This question is optional for the fiscal year 2005 collection.

GBA4RTT

[varies by year] Graduation rate - Bachelor degree within 4 years, total

Storage: double | Stata name: GBA4RTT | Observed years: 2004-2024 | Nulls: 104,198

Definitions by release year

2004: Graduation rate - Bachelor degree within 4 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 1998 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRRACE24 when GRTYPE=13(Table GR2004). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2005: Graduation rate - Bachelor degree within 4 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 1999 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRRACE24 when GRTYPE=13(Table GR2005). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2006: Graduation rate - Bachelor degree within 4 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2000 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRRACE24 when GRTYPE=13(Table GR2006). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's

catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2007: Graduation rate - Bachelor degree within 4 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRRACE24 when GRTYPE=13(Table GR2007). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2008: Graduation rate - Bachelor degree within 4 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRRACE24 when GRTYPE=13(Table GR2008). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2009: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2003 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRTYPE=13(Table gr2009). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2010: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2004 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRTYPE=13(Table gr2010). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of

time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2011: Graduation rate - bachelor's degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2005 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2011). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2012: Graduation rate - bachelor's degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2006 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2012). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2013, 2015: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2013). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2014: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2014). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's

catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. 2016: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2010 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2016). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2017: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2011 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2017). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2018: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2012 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2018). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2019: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2013 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2019). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's

degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2020: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2014 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2020). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2021: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2015 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2021). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2022: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2016 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2022). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2023: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2017 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRATYPE=13(Table gr2023). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted)

from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2024: Graduation rate - Bachelor degree within 4 years, total

4-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2018 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 4-years (100% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 4-years is GRTOTLT when GRTYPE=13 (Table gr2024). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

Definitions by release year

2004: Graduation rate - Bachelor degree within 5 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 1998 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRRACE24,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table GR2004).

BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2005: Graduation rate - Bachelor degree within 5 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 1999 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRRACE24,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table GR2005).

BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2006: Graduation rate - Bachelor degree within 5 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2000 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRRACE24,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table GR2006).

BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2007: Graduation rate - Bachelor degree within 5 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years

(GRRACE24,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table GR2007).

BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2008: Graduation rate - Bachelor degree within 5 years, total

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE24 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRRACE24,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table GR2008).

BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2009: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2003 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table gr2009). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2010: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2004 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRACE24,GRTYPE=14)(Table gr2010). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2011: Graduation rate - bachelor's degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2005 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years

(GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2011). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2012: Graduation rate - bachelor's degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2006 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2012). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2013, 2015: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2013). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2014: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2014). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2016: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2010 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2016). BACHELOR'S

OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2017: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2011 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRATYPE=13)and the number of completers in 5-years (GRTOTLT,GRATYPE=14)(Table gr2017). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2018: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2012 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRATYPE=13)and the number of completers in 5-years (GRTOTLT,GRATYPE=14)(Table gr2018). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2019: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2013 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRATYPE=13)and the number of completers in 5-years (GRTOTLT,GRATYPE=14)(Table gr2019). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2020: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2014 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRATYPE=13)and the number of completers in 5-years (GRTOTLT,GRATYPE=14)(Table gr2020). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were

seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2021: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2015 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2021). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2022: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2016 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2022). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2023: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2017 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2023). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2024: Graduation rate - Bachelor degree within 5 years, total

5-year graduation rate of the subcohort of full-time, first-time students seeking a bachelor's or equivalent degree - 2018 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 5-years (125% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRTOTLT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 5-years is the sum of completers within 4-years (GRTOTLT,GRTYPE=13)and the number of completers in 5-years (GRTOTLT,GRTYPE=14)(Table gr2024). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a

student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2008: graduation rate - Bachelor degree within 6 years, two or more races

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information

2009: graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2003 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable

GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2009). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2010: graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2004 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2010). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2011: Graduation rate - bachelor's degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2005 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2011). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2012: Graduation rate - bachelor's degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2006 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2012). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2013, 2015: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150%

of normal time) is GR2MORT when GRATYPE=12(Table gr2013). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2014: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRATYPE=12(Table gr2014). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2016: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2010 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRATYPE=12(Table gr2016). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2017: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2011 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRATYPE=12(Table gr2017). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2018: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2012 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRATYPE=12(Table gr2018). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING

SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2019: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2013 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2019). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2020: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2014 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2020). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2021: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2015 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2021). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2022: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2016 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2022). **BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT** - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent

degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2023: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2017 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2023). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2024: Graduation rate - Bachelor degree within 6 years, two or more races

6-year graduation rate of the subcohort of full-time, first-time students of two or more races seeking a bachelor's or equivalent degree - 2018 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GR2MORT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GR2MORT when GRTYPE=12(Table gr2024). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

Consolidated source columns

DFR→GR200→DRVGR retains the same graduation/transfer numerator, adjusted cohort denominator, duration, sex/race subset, variable number and annual cohort relationship. Boundary text differs by calendar/table year; GBA6RTW also renames the women-total source field, and GBATRRT has an editorial correction.

GBA6RT2M__GR200__00081066__02AE7B819668: 2008-2009

GBA6RT2M__DRVGR__00081066__D1846A017FB0: 2010-2024

Keep four-, five-, six-year rates, transfer-out rates, and demographic subsets distinct. Earlier metadata contains disclosure perturbation notices; retain annual metadata.

Race reporting changes across the historical span; older combined categories and optional/new reporting regimes require explicit year metadata. Source-table equivalence at the join does not establish race-population invariance across all years.

Definitions by release year

2004: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 1998 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE19 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE19 when GRTYPE=12(Table GR2004). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2005: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 1999 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE19 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE19 when GRTYPE=12(Table GR2005). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2006: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2000 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE19 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE19 when GRTYPE=12(Table GR2006). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete

all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2007: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE19 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE19 when GRTYPE=12(Table GR2007). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2008: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information.

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE19 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE19 when GRTYPE=12(Table GR2008). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2009: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2003 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable DVGRAIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is DVGRAIT when GRTYPE=12(Table gr2009). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2010: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2004 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable DVGRAIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is DVGRAIT when GRTYPE=12(Table gr2010). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent

degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2011: Graduation rate - bachelor's degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2005 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2011). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2012: Graduation rate - bachelor's degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2006 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2012). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2013, 2015: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2013). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2014: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2014). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all

requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2016: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2010 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2016). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2017: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2011 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2017). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2018: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2012 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2018). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2019: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2013 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2019). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or

trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2020: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2014 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2020). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2021: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2015 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2021). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2022: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2016 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2022). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution
 Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2023: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2017 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRATYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRATYPE=12(Table gr2023). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution

Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2024: Graduation rate - Bachelor degree within 6 years, American Indian or Alaska Native

6-year graduation rate of the subcohort of full-time, first-time American Indian or Alaska Native students seeking a bachelor's or equivalent degree - 2018 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRAIANT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRAIANT when GRTYPE=12(Table gr2024). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

Measurement metadata: units: Not supplied (unknown) | currency: Not supplied (unknown) | price basis: Not supplied (unknown) | reference period: Not supplied (unknown)

Consolidated source columns

DFR→GR200→DRVGR retains the same graduation/transfer numerator, adjusted cohort denominator, duration, sex/race subset, variable number and annual cohort relationship. Boundary text differs by calendar/table year; GBA6RTW also renames the women-total source field, and GBATRRT has an editorial correction.

GBA6RTAN__DFR__00081045__B260E9F6BCEB: 2004-2005

GBA6RTAN__GR200__00081045__98EFBAC84086: 2006-2009

GBA6RTAN__DRVGR__00081045__6EDD6720DBE8: 2010-2024

Keep four-, five-, six-year rates, transfer-out rates, and demographic subsets distinct. Earlier metadata contains disclosure perturbation notices; retain annual metadata.

Race reporting changes across the historical span; older combined categories and optional/new reporting regimes require explicit year metadata. Source-table equivalence at the join does not establish race-population invariance across all years.

Definitions by release year

2004: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 1998 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE20 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE20 when GRTYPE=12(Table GR2004). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2005: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 1999 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE20 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE20 when GRTYPE=12(Table GR2005). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2006: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 2000 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE20 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE20 when GRTYPE=12(Table GR2006). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2007: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE20 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150%

of normal time) is GRRACE20 when GRTYPE=12(Table GR2007). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2008: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. 6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 2001 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable GRRACE20 when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRRACE20 when GRTYPE=12(Table GR2008). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2009: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 2003 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable DVGRAPT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is DVGRAPT when GRTYPE=12(Table gr2009). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2010: Graduation rate - Bachelor degree within 6 years, Asian or Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian or Pacific Islander students seeking a bachelor's or equivalent degree - 2004 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variable DVGRAPT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is DVGRAPT when GRTYPE=12(Table gr2010). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2011: Graduation rate - bachelor's degree within 6 years, Asian/Native Hawaiian/Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian/Native Hawaiian/ Pacific Islander students seeking a bachelor's or equivalent degree - 2005 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variables GRASIAT+GRNHPIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent

within 6-years (150% of normal time) is GRASIAT+GRNHPIT when GRTYPE=12(Table gr2011). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2012: Graduation rate - bachelor's degree within 6 years, Asian/Native Hawaiian/Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian/Native Hawaiian/ Pacific Islander students seeking a bachelor's or equivalent degree - 2006 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variables GRASIAT+GRNHPIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRASIAT+GRNHPIT when GRTYPE=12(Table gr2012). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2013, 2015: Graduation rate - Bachelor degree within 6 years, Asian/Native Hawaiian/Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian/Native Hawaiian/ Pacific Islander students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variables GRASIAT+GRNHPIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRASIAT+GRNHPIT when GRTYPE=12(Table gr2013). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2014: Graduation rate - Bachelor degree within 6 years, Asian/Native Hawaiian/Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian/Native Hawaiian/ Pacific Islander students seeking a bachelor's or equivalent degree - 2007 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variables GRASIAT+GRNHPIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRASIAT+GRNHPIT when GRTYPE=12(Table gr2014). BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2016: Graduation rate - Bachelor degree within 6 years, Asian/Native Hawaiian/Pacific Islander

6-year graduation rate of the subcohort of full-time, first-time Asian/Native Hawaiian/ Pacific Islander students seeking a bachelor's or equivalent degree - 2010 Bachelors subcohort (4-year institutions) This rate is calculated as the total number of students completing a bachelor degree or equivalent within 6-years (150% of normal time) divided by the revised bachelor subcohort minus any allowable exclusions. The adjusted bachelor subcohort is defined by the variables GRASIAT+GRNHPIT when GRTYPE=8 and the total students completing a bachelor's degree or equivalent within 6-years (150% of normal time) is GRASIAT+GRNHPIT when GRTYPE=12(Table gr2016). BACHELOR'S OR

EQUIVALENT DEGREE-SEEKING SUBCOHORT - In the GRS component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2017: Graduation rate - Bachelor degree within 6 years, Asian/Native Hawaiian/Pacific Islander
