2008: Graduation rate, two or more races

2009: Graduation rate, two or more races

Graduation rate of first-time, full-time degree or certificate-seeking students of two or more races - 2003 cohort (4-year institutions) and 2006 cohort (2-year institutions). The graduation rate is the rate required for disclosure and/or reporting purposes under Student Right-to-Know. This rate is calculated as the total number of completers within 150% of normal time divided by the revised cohort minus any allowable exclusions. For 4-year institutions the adjusted cohort is defined by the variable GR2MORT when GRTYPE=2 and the total completers within 150% of normal time is G2MORT when GRTYPE=3. GRTYPE=2 and 3 include both the bachelor's or equivalent degree/certificate-seeking subcohort and the other degree/certificate-seeking subcohort (Table gr2009). For 2-year institutions the adjusted cohort is defined by the variable G2MORT when GRTYPE=29 and the total completers within 150% of normal time is G2MORT when GRTYPE=30 (Table gr2009). Graduation rate data was not collected from less-than 2-year institutions. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2010: Graduation rate, two or more races

The graduation rate is the rate required for disclosure and/or reporting purposes under Student Right-to-Know. This rate is calculated as the total number of completers within 150% of normal time divided by the revised cohort minus any allowable exclusions. For 4-year institutions the adjusted cohort is defined by the variable GR2MORT when GRTYPE=2 and the total completers within 150% of normal time is GR2MORT when GRTYPE=3. GRTYPE=2 and 3 include both the bachelor's or equivalent degree/certificate-seeking subcohort and the other degree/certificate-seeking subcohort (Table gr2013). For 2-year institutions the adjusted cohort is defined by the variable GR2MORT when GRTYPE=29 and the total completers within 150% of normal time is GR2MORT when GRTYPE=30 (Table gr2013). Graduation rate data was not collected from less-than 2-year institutions. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2004: Graduation rate, Black, non-Hispanic

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. Graduation rate of first-time, full-time degree or certificate-seeking Black non-Hispanic students - 1998 cohort (4-year institutions) and 2001 cohort (2-year institutions). The graduation rate is the rate required for disclosure and/or reporting purposes under Student Right-to-Know. This rate is calculated as the total number of completers within 150% of normal time divided by the revised cohort minus any allowable exclusions. For 4-year institutions the adjusted cohort is defined by the variable GRRACE18 when GRTYPE=2 and the total completers within 150% of normal time is GRRACE18 when GRTYPE=3. GRTYPE=2 and 3 include both the bachelor's or equivalent degree/certificate-seeking subcohort and the other degree/certificate-seeking subcohort (Table GR2004). For 2-year institutions the adjusted cohort is defined by the variable GRRACE18 when GRTYPE=29 and the total completers within 150% of normal time is GRRACE18 when GRTYPE=30 (Table GR2004). Graduation rate data was not collected from less-than 2-year institutions. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

This rate is calculated as the total number of completers within 150% of normal time divided by the revised cohort minus any allowable exclusions. For 4-year institutions the adjusted cohort is defined by the variable GRBKAAT when GRTYPE=2 and the total completers within 150% of normal time is GRBKAAT when GRTYPE=3. GRTYPE=2 and 3 include both the bachelor's or equivalent

degree/certificate-seeking subcohort and the other degree/certificate-seeking subcohort (Table gr2022). For 2-year institutions the adjusted cohort is defined by the variable GRBKAAT when GRTYPE=29 and the total completers within 150% of normal time is GRBKAAT when GRTYPE=30 (Table gr2022). Graduation rate data was not collected from less-than 2-year institutions. Normal time to completion - The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution. Allowable exclusions - Those students who may be removed (deleted) from the GRS cohort according to the Student Right-to-Know legislation. These include students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church mission.

2023: Graduation rate, Black, non-Hispanic

Graduation rate of first-time, full-time degree or certificate-seeking Black non-Hispanic students - 2017 cohort (4-year institutions) and 2020 cohort (2-year institutions). The graduation rate is the rate required for disclosure and/or reporting purposes under Student Right-to-Know. This rate is calculated as the total number of completers within 150% of normal time divided by the revised cohort minus any allowable exclusions. For 4-year institutions the adjusted cohort is defined by the variable GRBKAAT when GRTYPE=2 and the total completers within 150% of normal time is GRBKAAT when GRTYPE=3.
