DFRCUSCG__CUSTOMCG__00016000__ADEF7C31903E

Data Feedback Report - Institution submitted a custom comparison group

Storage: string | Stata name: DFRCUSCG__CUSTOMCG__000_3f8ee386 | Observed years: 2010 | Nulls: 134,208

Definitions by release year

2010: Data Feedback Report - Institution submitted a custom comparison group

Identifes institutions that created a custom comparison group for use in the 2011 IPEDS Data Feedback Report (DFR). When using the by groups option to select instititutions in the Data Center, the custom comparison group is referenced as the "Saved group" and the comparison group created by NCES is referenced as the "Automatic group".

DISAB

Percent indicator of undergraduates formally registered as students with disabilities

Storage: string | Stata name: DISAB | Observed years: 2008-2023 | Nulls: 31,251

Definitions by release year

2008-2009: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2008 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2010: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2009 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2011: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2010 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2012: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2011 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2013: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2012 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2014: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2013 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2015: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2014 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2016-2017: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2015 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2018: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2017 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2019: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2018 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2020: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2019 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2021: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2020 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2022: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2021 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

2023: Percent indicator of undergraduates formally registered as students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2022 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office): This variable applies only to undergraduate students enrolled either full- or part-time. If fewer than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the actual percent is not indicated. However, if more than 3% of the institution’s undergraduate students are registered with the disability services (or equivalent) office, the appropriate percentage is given. See variable DISABPCT.

DISTNCED

All programs offered completely via distance education

Storage: string | Stata name: DISTNCED | Observed years: 2011-2023 | Nulls: 52,317

Definitions by release year

2011-2015: All programs offered completely via distance education

Are all the programs at your institution offered completely via distance education? Distance education - Education that uses one or more technologies to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor synchronously or asynchronously. Technologies used for instruction may include the following: Internet; one-way and two-way transmissions through open broadcasts, closed circuit, cable, microwave, broadband lines, fiber optics, satellite or wireless communication devices; audio conferencing; and video cassette, DVDs, and CD-ROMs, if the cassette, DVDs, and CD-ROMs are used in a course in conjunction with the technologies listed above.

2016-2023: All programs offered completely via distance education

Are all the programs at your institution offered completely via distance education? A program for which all the required coursework for program completion is able to be completed via distance education courses.

DOCDEGOT

[varies by year] Doctor's degree - other

Storage: double | Stata name: DOCDEGOT | Observed years: 2008-2023 | Nulls: 98,714

Definitions by release year

2008: Doctor's degree - other (new classification)

Doctor's degree - other awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=19) and Doctor's degree other(AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2009: Doctor's degree - other (new classification)

Doctor's degree - other awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=19) and Doctor's degree other(AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2010: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2011: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2012: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2013: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2014: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2015: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2016: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2017: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2018: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2019: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19)

and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2020: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2021: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2022: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2023: Doctor's degree - other

Doctor's degree - other awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree other(AWLEVEL=19) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. A doctor's degree that does not meet the definition of a doctor’s degree - research/scholarship or a doctor’s degree - professional practice.

2008: Doctor's degree - professional practice (new classification)

Doctor's degree - professional practice awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2009: Doctor's degree - professional practice (new classification)

Doctor's degree - professional practice awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2010: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2011: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry

(D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2012: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2013: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2014: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2015: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2016: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2017: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2018: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2019: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2020: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse

status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2021: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2022: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2023: Doctor's degree - professional practice

Doctor's degree - professional practice awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree professional practice (AWLEVEL=18) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Definitions by release year

2008: Doctor's degree - research/scholarship (new classification)

Doctor's degree - research/scholarship awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2009: Doctor's degree - research/scholarship (new classification)

Doctor's degree - research/scholarship awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2010: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2011: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on

original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2012: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2013: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2014: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2015: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2016: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2017: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2018: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2019: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2020: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2021: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master’s level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2022: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse

status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

2023: Doctor's degree - research/scholarship

Doctor's degree - research/scholarship awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Doctor's degree research/scholarship (AWLEVEL=17) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Doctor's degree - research/scholarship (new classification) - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

Definitions by release year

2012-2023: Doctor's professional practice students are enrolled

Does your institution enroll students in doctor's - professional practice programs? Checking 'yes' for this question will allow your institution to report graduate level students in Fall Enrollment. Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

2012-2023: Doctor's professional practice students are enrolled in programs formerly designated as first-professional

Does your institution enroll students in doctor's - professional practice programs? Do you enroll students in one of the following? If you select 'yes' to enrolling students in one of the listed programs, you will also report tuition for the appropriate program(s). Chiropractic (D.C. or D.C.M.), Dentistry (D.D.S. or D.M.D.), Medicine (M.D.), Optometry (O.D.), Osteopathic Medicine (D.O.), Pharmacy (Pharm.D.), Podiatry (Pod.D., D.P., or D.P.M.), Veterinary Medicine (D.V.M.), Law (J.D.) Doctor's degree - professional practice A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years.

DOD_A

Average amount of Department of Defense Tuition Assistance Program benefits awarded - all students

Storage: double | Stata name: DOD_A | Observed years: 2014-2023 | Nulls: 124,975

Definitions by release year

2014-2023: Average amount of Department of Defense Tuition Assistance Program benefits awarded - all students

Military Servicemembers and Veteran's Benefits - Average amount of Department of Defense Tuition Assistance Program benefits awarded through the institution to all students Student recipients can also include eligible spouse or dependents. Information reported is only what is known to the institution. Benefits that were not awarded/certified

through the institution are not included. Military Tuition Assistance Program (TA) is a program that funds up to 100% of an eligible servicemember’s college tuition and course-specific fees. Available only to eligible servicemembers who are currently in active service as long as criteria limits are not exceeded and students are enrolled off-duty in an U.S. Department of Education accredited post-secondary institution. This military benefit is paid directly to the postsecondary institution by the individual’s Armed service.

DUNS__HD__00010063__E95F7A4A5967

Dun and Bradstreet numbers

Storage: string | Stata name: DUNS__HD__00010063__E95F7A4A5967 | Observed years: 2016-2021 | Nulls: 104,335

Definitions by release year

2016-2021: Dun and Bradstreet numbers

The Data Universal Numbering System (DUNS), is a proprietary system developed and regulated by Dun & Bradstreet (D&B) that assigns a unique numeric identifier, referred to as a "DUNS number" to a single business entity. It was introduced in 1963 to support D&B's credit reporting practice. The DUNS number is a 9-digit numeric. Some institutions have multiple DUNS numbers. Multiple DUNS numbers are separated by the vertical bar.

DVEF13

Percent of undergraduate enrollment under 18

Storage: double | Stata name: DVEF13 | Observed years: 2006-2023 | Nulls: 55,877

Definitions by release year

2006-2015, 2018-2023: Percent of undergraduate enrollment under 18

Percentage of all undergraduate fall enrollment by students less than 18 years of age. NOTE: Enrollment reported is of the institution's official fall reporting date or October 15.

2016: Percent of undergraduate enrollment under 18

Percent of undergraduate enrollment under age 18. Fall enrollment (Table EF2016B) This variable is generated by dividing the number of undergraduates (LSTUDY=1) that are under 18 (EFBAGE=3,EFAGE09) by the total number of undergraduates, excluding age unknown (EFBAGE=1,EFAGE09) minus (EFBAGE=14,EFAGE09). NOTE: Enrollment reported is of the institution's official fall reporting date or October 15.

2017: Percent of undergraduate enrollment under 18

Percent of undergraduate enrollment under age 18. Fall enrollment (Table EF2017B) This variable is generated by dividing the number of undergraduates (LSTUDY=1) that are under 18 (EFBAGE=3,EFAGE09) by the total number of undergraduates, excluding age unknown (EFBAGE=1,EFAGE09) minus (EFBAGE=14,EFAGE09). [varies by year] Estimated full-time equivalent (FTE) graduate enrollment, 2022-23

Storage: double | Stata name: EFTEGD | Observed years: 2004-2023 | Nulls: 100,722

Definitions by release year

2004: Estimated full-time equivalent (FTE) graduate enrollment, academic year 2003-04

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2003-04 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2005: Estimated full-time equivalent (FTE) graduate enrollment, academic year 2004-05

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2004-05 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2006: Estimated full-time equivalent (FTE) graduate enrollment, academic year 2005-06

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2005-06 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2007: Estimated full-time equivalent (FTE) graduate enrollment, academic year 2006-07

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2006-07 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2008: Estimated full-time equivalent (FTE) graduate enrollment, academic year 2007-08

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2007-08 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan,

graduate FTE is the is the number ofgraduate credit hours divided by 36.

2009: Estimated full-time equivalent (FTE) graduate enrollment, 2008-09

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2008-09 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2010: Estimated full-time equivalent (FTE) graduate enrollment, 2009-10

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2009-10 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2011: Estimated full-time equivalent (FTE) graduate enrollment, 2010-11

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2010-11 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2012: Estimated full-time equivalent (FTE) graduate enrollment, 2011-12

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2011-12 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2013: Estimated full-time equivalent (FTE) graduate enrollment, 2012-13

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2012-13 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2014: Estimated full-time equivalent (FTE) graduate enrollment, 2013-14

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2013-14 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2015: Estimated full-time equivalent (FTE) graduate enrollment, 2014-15

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2014-15 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2016: Estimated full-time equivalent (FTE) graduate enrollment, 2015-16

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2015-16 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2017: Estimated full-time equivalent (FTE) graduate enrollment, 2016-17

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2016-17 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2018: Estimated full-time equivalent (FTE) graduate enrollment, 2017-18

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2017-18 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2019: Estimated full-time equivalent (FTE) graduate enrollment, 2018-19

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2018-19 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2020: Estimated full-time equivalent (FTE) graduate enrollment, 2019-20

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2019-20 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2021: Estimated full-time equivalent (FTE) graduate enrollment, 2020-21

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2020-21 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2022: Estimated full-time equivalent (FTE) graduate enrollment, 2021-22

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2021-22 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

2023: Estimated full-time equivalent (FTE) graduate enrollment, 2022-23

Estimated full-time equivalent (FTE) graduate enrollment, academic year 2022-23 Estimated full-time equivalent graduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE graduate students is the number of graduate credit hours divided by 24. For institutions with a quarter plan, graduate FTE is the is the number ofgraduate credit hours divided by 36.

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2009-10 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2011: Estimated full-time equivalent (FTE) undergraduate enrollment, 2010-11

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2010-11 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2012: Estimated full-time equivalent (FTE) undergraduate enrollment, 2011-12

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2011-12 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2013: Estimated full-time equivalent (FTE) undergraduate enrollment, 2012-13

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2012-13 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2014: Estimated full-time equivalent (FTE) undergraduate enrollment, 2013-14

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2013-14 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2015: Estimated full-time equivalent (FTE) undergraduate enrollment, 2014-15

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2014-15 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2016: Estimated full-time equivalent (FTE) undergraduate enrollment, 2015-16

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2015-16 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2017: Estimated full-time equivalent (FTE) undergraduate enrollment, 2016-17

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2016-17 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2018: Estimated full-time equivalent (FTE) undergraduate enrollment, 2017-18

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2017-18 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2019: Estimated full-time equivalent (FTE) undergraduate enrollment, 2018-19

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2017-18 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and contact hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and contact hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and contact hours were divided by 900.

2020: Estimated full-time equivalent (FTE) undergraduate enrollment, 2019-20

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2019-20 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and clock hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and clock hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and clock hours were divided by 900.

2021: Estimated full-time equivalent (FTE) undergraduate enrollment, 2020-21

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2020-21 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and clock hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and clock hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and clock hours were divided by 900.

2022: Estimated full-time equivalent (FTE) undergraduate enrollment, 2021-22

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2021-22 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and clock hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and clock hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and clock hours were divided by 900.

2023: Estimated full-time equivalent (FTE) undergraduate enrollment, 2022-23

Estimated full-time equivalent (FTE) undergraduate enrollment, academic year 2022-23 Estimated full-time equivalent undergraduate enrollment was generated as follows: For institutions with a semester, trimester, or 4-1-4 plan, the number of FTE undergraduate is the sum of undergraduate credit hours divided by 30 and clock hours divided by 900. For institutions with a quarter plan, undergraduate undergraduate credit hours divided by 45 and clock hours divided by 900. For institutions with continuous enrollment over a 12-month period, undergraduate credit hours were divided by 30 and clock hours were divided by 900.

Storage: double | Stata name: EFUGTRFT | Observed years: 2010-2023 | Nulls: 47,343

Definitions by release year

2010-2019: Full-time transfer-in degree/certificate-seeking undergraduate enrollment

Full-time transfer-in degree/certificate seeking undergraduate men and women enrolled for credit in the fall of the academic year. Transfer-in student - A student entering the reporting institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). The student may transfer with or without credit. Degree/certificate-seeking students Students enrolled in courses for credit and recognized by the institution as seeking a degree, certificate, or other formal award. High school students also enrolled in postsecondary courses for credit are not considered degree/certificate-seeking Full-time undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate and enrolled for 12 or more semester credits , or 12 or more quarter credits, or 24 or more contact hours a week each term. CREDIT - Recognition of attendance or performance in an instructional activity (course or program) that can be applied by a recipient toward the requirements for a degree, diploma, certificate, or other formal award. NOTE: Enrollment reported is of the institution's official fall reporting date or October 15.

2020-2023: Full-time transfer-in degree/certificate-seeking undergraduate enrollment

Full-time transfer-in degree/certificate seeking undergraduate men and women enrolled for credit in the fall of the academic year. Transfer-in student - A student entering the reporting institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). The student may transfer with or without credit. Degree/certificate-seeking students Students enrolled in courses for credit and recognized by the institution as seeking a degree, certificate, or other formal award. High school students also enrolled in postsecondary courses for credit are not considered degree/certificate-seeking Full-time undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate and enrolled for 12 or more semester credits , or 12 or more quarter credits, or 24 or more clock hours a week each term. CREDIT - Recognition of attendance or performance in an instructional activity (course or program) that can be applied by a recipient toward the requirements for a degree, diploma, certificate, or other formal award. NOTE: Enrollment reported is of the institution's official fall reporting date or October 15.

2023: Enolls high school students in college courses for credit

Does your institution enroll high school students in college courses for credit? --Within a dual enrollment progam -- Outside a dual enrollment program. Within a dual enrollment program is defined as within an organized system with special guidelines that allows high school students to take college-level courses. The guidelines might have to do with entrance or eligibility requirements, funding, limits on course taking, etc. Outside a dual enrollment program is defined as high school students who simply enroll in credit courses through your institution, and are treated as regularly enrolled college students.

2022-2023: Enrolled another gender

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Number of enrolled another gender Another gender (i.e., gender information is known but does not fall into either of the mutually exclusive binary categories provided [Men/Women]). This variable is left missing or blank for institutions who indicated that they were not able to report another gender for this data collection. For institutions who indicated that they were able to report another gender for this data collection, but no students identified as another gender this variable/cell is zero. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2004-2019: Enrolled part time total

Total number of first-time degree/certificate-seeking undergraduate enrolled part time. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS - Students enrolled in courses

for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. PART-TIME STUDENT Undergraduate - A student enrolled for either 11 semester credits or less, or 11 quarter credits or less, or less than 24 contact hours a week each term.

2020-2023: Enrolled part time total

Total number of first-time degree/certificate-seeking undergraduate enrolled part time. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. PART-TIME STUDENT Undergraduate - A student enrolled for either 11 semester credits or less, or 11 quarter credits or less, or less than 24 clock hours a week each term.

2022-2023: Enrolled part time another gender

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Number of part time enrolled another gender Another gender (i.e., gender information is known but does not fall into either of the mutually exclusive binary categories provided [Men/Women]). This variable is left missing or blank for institutions who indicated that they were not able to report another gender for this data collection. For institutions who indicated that they were able to report another gender for this data collection, but no students identified as another gender this variable/cell is zero. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled

in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy. PART-TIME STUDENT Undergraduate - A student enrolled for either 11 semester credits or less, or 11 quarter credits or less, or less than 24 clock hours a week each term.

2022-2023: Enrolled gender unknown

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Number of enrolled gender unknown FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2004-2015: Total current liabilities

Total current liabilities are liabilities whose liquidation is reasonably expected to require the use of resources classified as current assets or the creation of other current liabilities within the next year such as accounts payable, salaries payable, and the current portion of long-term debt.

2016: Total current liabilities

Total current liabilities are liabilities whose liquidation is reasonably expected to require the use of resources classified as current assets or the creation of other current liabilities within the next year such as accounts payable, salaries payable, and the current portion of long-term debt. Beginning with FY13, GASB statements 63,65 required institutions to display deferred inflows and outflows of resources on their Statement of Net Position. Thus from FY2013 to FY2015, total current liabilities included deferred inflows of resources. Beginning with FY2016, deferred inflows of resources was collected separately from total current liabilities.

2017-2018: Total current liabilities

Total current assets includes cash and equivalents, investments, accounts and notes receivable (net of allowance for uncollectible amounts), inventories, and all other assets classified as current assets as discussed in Chapter 2 of

Accounting Research Bulletin 43. Beginning with FY2013, GASB statements 63,65 required institutions to display deferred inflows and outflows of resources on their Statement of Net Position. Thus from FY2013 to FY2015, current assets included deferred outflows of resources. Beginning with FY2016, deferred outflows of resources was collected separately from current assets.

2019-2023: Total current liabilities

Total current assets includes cash and equivalents, investments, accounts and notes receivable (net of allowance for uncollectible amounts), inventories, and all other assets classified as current assets as discussed in Chapter 2 of Accounting Research Bulletin 43. Beginning with FY2014, GASB statements 63,65 required institutions to display deferred inflows and outflows of resources on their Statement of Net Position. Thus from FY2014 to FY2015, current assets included deferred outflows of resources. Beginning with FY2017, deferred outflows of resources was collected separately from current assets.

2004-2023: Total noncurrent liabilities

Total noncurrent liabilities are liabilities whose liquidation is not reasonably expected to require the use of resources classified as current assets or the creation of other current liabilities within the next year. This includes the noncurrent portion of long-term debt and long-term accrued liabilities (such as for compensated absences, claims & judgments, and post- employment/post-retirement benefits).

F1A18

[varies by year] Net position

Storage: double | Stata name: F1A18 | Observed years: 2004-2023 | Nulls: 110,377

Definitions by release year

2004-2015: Total net assets

Total net assets is the sum of net assets invested in capital assts, net of related debt, restricted-expendable net assets, restricted-nonexpendable net assets, and unrestricted net assets. It can be calculated as the difference between total assets and total liabilities.

2016-2018: Net position

Net position is the excess of assets over liabilities or the residual interest in the institution's assets remaining after liabilities are deducted. The change in net position results from revenues, gains, expenses, and losses. GASB institutions classify net position into three categories: invested in capital, net of related debt; restricted (with separate displays of restricted-expendable and restricted-nonexpendable net assets); and unrestricted. Net position beginning with the 2013-14 collection includes deferred inflows and outflows of resources, per GASB 63,65. This term is similar to the "Net assets" term used by FASB institutions.

2019-2023: Net position

Net position is the excess of assets over liabilities or the residual interest in the institution's assets remaining after liabilities are deducted. The change in net position results from revenues, gains, expenses, and losses. GASB institutions classify net position into three categories: invested in capital, net of related debt; restricted (with separate displays of restricted-expendable and restricted-nonexpendable net assets); and unrestricted. Net position beginning with the 2015-16 collection includes deferred inflows and outflows of resources, per GASB 63,65. This term is similar to the "Net assets" term used by FASB institutions.

2016-2023: Deferred outflows of resources

Deferred outflows of resources - A consumption of net assets by a government that is applicable to future periods. Examples of deferred outflows of resources include changes in fair values in hedging instruments and changes in the net pension liability that are not considered pension expense (as described in GASB Statement 68, Accounting and Financial Reporting for Pensions: an amendment of GASB Statement No. 27).

2016-2023: Deferred inflows of resources

Deferred inflows of resources - Acquisition of net assets acquired by a government that is applicable to future reporting periods. Examples of deferred inflows are the difference in a debt refunding between reacquisition and net carrying amount of the old debt, upfront payments in service concession arrangements, and change in fair values in hedging instruments.

2009-2012: Total for plant, property and equipment - Ending balance

Ending Balance (value) of total assets for plant, property and equipment as of the beginning of the fiscal year (or the end of the prior year). Includes only assetes reported as capital assests by the institution. Plan values that are part of endonwment funces or other capital fund investments in real estate are not included. Plant, property and equipment include: land and land improvements, infrastucture, buildings, equipment, art and library collections, property obtained under capital leases and construction in progress.

2013-2023: Total for plant, property and equipment - Ending balance

Ending balance for plant, property and equipment is the book value at the end of the fiscal year of total assets for plant, property and equipment. Plant, property and equipment include: land and land improvements, infrastucture, buildings, equipment, art and library collections, property obtained under capital leases and construction in progress. Land and land improvements is the book value at the end of the fiscal year for capital assets consisting of land and improvements such as athletic fields, golf courses, lakes, etc. Land is nondepreciable; some land improvements are depreciable assets and some are nondepreciable. Infrastructure is the book value at the end of the fiscal year for capital assets consisting of roads, bridges, drainage systems, water and sewer systems, and other similar assets. Infrastructure assets usually have longer useful lives than other capital assets such as buildings. Buildings is the book

value at the end of the fiscal year for capital assets built or acquired for occupancy and use by the entity. These are structures such as classrooms, research facilities, administrative offices, storage, etc. Includes built-in fixtures and equipment that are essentially part of the permanent structure. Buildings held for the production of revenue are not included here. Equipment, including art and library collections are captital assets that include moveable tangible property such as research equipment, vehicles, office equipment, library collections (capitalized amount of books, films, tapes, and other materials maintained in library collections intended for use by patrons), and capitalized art collections. Construction in progress is the book value of assets that were under construction or development that have not yet been placed into service, such as a building or parking lot, as of the end of the fiscal year.

2008-2009: Depreciable capital assets, net of depreciation (new)

Depreciable capital assets, net of depreciation is the net amount of all depreciable capital assets after reducing the gross amount for accumulated depreciation. Capital assets include improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, infrastructure, and all other tangible or intangible depreciable assets that are used in operations and that have initial useful lives extending beyond a single reporting Capital assets - Tangible or intangible assets that are capitalized under an institution's capitalization policy; some of these assets are subject to depreciation and some are not. These assets consist of land and land improvements, buildings, building improvements, machinery, equipment, infrastructure, and all other assets that are used in operations and that have initial useful lives extending beyond one year. Also includes collections of works of art and historical treasure and library collections; however under certain conditions such collections may not be capitalized. Includes property acquired under capital leases and intangible assets such as patents, copyrights, trademarks, goodwill, and software. Excluded are assets that are part of endowment funds or other capital fund investments in real estate period.

2010-2023: Depreciable capital assets, net of depreciation

Depreciable capital assets, net of depreciation is the net amount of all depreciable capital assets after reducing the gross amount for accumulated depreciation. Capital assets include improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, infrastructure, and all other tangible or intangible depreciable assets that are used in operations and that have initial useful lives extending beyond a single reporting Capital assets - Tangible or intangible assets that are capitalized under an institution's capitalization policy; some of these assets are subject to depreciation and some are not. F1ACSPFT

Academic support expenses per FTE (GASB)

Storage: double | Stata name: F1ACSPFT | Observed years: 2006-2023 | Nulls: 107,419

Definitions by release year

2006-2019: Academic support expenses per FTE (GASB)

Academic support expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Academic support (F1C051) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Academic support expenses per FTE (GASB)

Academic support expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Academic support (F1C051) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. Definitions by release year

2006-2015: Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support (GASB)

Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for academic support (F1C052) plus employee fringe benefit expenses for academic support (F1C053) divided by total expenses for academic support (F1C051). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker’s compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

2004-2023: Tuition and fees, after deducting discounts and allowances

Tuition and fees are revenues from all tuition and fees assessed against students (net of refunds and discounts & allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees should be deducted from the total state appropriation and added to the total for tuition and fees. If an all-inclusive charge is made for tuition, board, room, and other services, a reasonable distribution is made between revenues for tuition and fees and revenues for auxiliary enterprises. Tuition and fees excludes charges for room,board, and other services rendered by auxiliary enterprises.

2004-2023: Independent operations

Independent operations include all operating revenues associated with operations independent of the primary missions of the institution. This category generally includes only those revenues associated with major federally funded research and development centers. It does not include net profit (or loss) from operations owned and managed as investments of the institution's endowment funds.

2004-2023: Federal appropriations

Federal appropriations are amounts received by the institution through acts of a federal legislative body, except grants and contracts. Funds reported in this category are for meeting current operating expenses, not for specific projects or programs. An example is federal land-grant appropriations. However land grant appropriations may be included in operating revenues if accounted for by the institution as operating revenue.

Storage: double | Stata name: F1C033 | Observed years: 2004-2015 | Nulls: 117,949

Definitions by release year

2004-2015: Public service - Employee fringe benefits

Public service - benefits are payments made to an individual over and above that received in the form of a salary or wage, such as for insurance or retirement benefits, associated with activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory services, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services.

2009-2015: Student services - Interest

Student services - Interest is the amount incurred on debt allocated to student services. Student services - total expenses is the sum of all operating expenses associated with admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal academic program (remedial instruction for example), career guidance, counseling, financial aid administration, and student records.

2004-2023: Scholarships and fellowships expenses -- Current year total

Scholarships and fellowships - total expenses is the sum of all operating expenses associated with scholarships and fellowships treated as expenses because the institution incurs an incremental expense in the provision of a good or service. Thus, payments, made to students or third parties in support of the total cost of education are expenses if those payments are made for goods and services not provided by the institution. Examples include payments for services to third parties (including students) for off-campus housing or for the cost of board provided by institutional contract meal plans. The amount of expense in this function is the total of all institutional scholarships reduced by the amount that is classified as discounts and allowances.

Thus, payments, made to students or third parties in support of the total cost of education are expenses if those payments are made for goods and services not provided by the institution. Examples include payments for services to third parties (including students) for off-campus housing or for the cost of board provided by institutional contract meal plans. The amount of expense in this function is the total of all institutional scholarships reduced by the amount that is classified as discounts and allowances.

2004-2023: Independent operations - Current year total

Independent operations - Expenses associated with operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may contribute indirectly to the enhancement of these programs. This category is generally limited to expenses of a major federally funded research and development center. Also included are information technology expenses, actual or allocated costs for operation and maintenance of plant, and depreciation related to the independent operations. FASB institutions also charge or allocate interest expense to independent operations. Excluded are expenses of operations owned and managed as investments of the institution's endowment funds.

Definitions by release year

2004-2015: Independent operations - Employee fringe benefits

Independent operations - benefits are payments made to an individual over and above that received in the form of a salary or wage, such as for insurance or retirement benefits, associated with operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may contribute indirectly to the enhancement of these programs. This category is generally limited to expenses of a major federally funded research and development center.

Independent operations - Operations and maintenance of plant

Storage: double | Stata name: F1C136 | Observed years: 2008-2015 | Nulls: 137,398

Definitions by release year

2008-2015: Independent operations - Operations and maintenance of plant

Operations and maintenance of plant expenses is the sum of all operating expenses associated with operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Independent operations - Expenses associated with operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may contribute indirectly to the enhancement of these programs. This category is generally limited to expenses of a major federally funded research and development center. Also included are information technology expenses, actual or allocated costs for operation and maintenance of plant, and depreciation related to the independent operations. FASB institutions also charge or allocate interest expense to independent operations. Excluded are expenses of operations

owned and managed as investments of the institution's endowment funds.

2016: Total expenses and deductions - Operations and maintenance of plant

Operations and maintenance - An expense category that includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include: janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture, and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; earthquake and disaster preparedness; safety; hazardous waste disposal; property, liability, and all other insurance relating to property; space and capital leasing; facility planning and management; and central receiving. This expense does include amounts charged to auxiliary enterprises, hospitals, and independent operations. Also includes information

technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support). FASB institutions are required to allocate O&M costs to other functional categories (e.g., instruction, research, etc.) while GASB institutions can allocate O&M costs OR report it as a separate functional category. In an effort to align FASB and GASB O&M expenses, from FY 2010 to FY 2015, O&M was reported as both a functional and natural expense category in IPEDS, causing its total to be equal to zero. However, beginning with FY 2016, both FASB and GASB institutions are required to allocate O&M to all the functions and report it as a natural expense category. Prior to fiscal year 2016 this variable would always be equal to zero. Like other natural classification categories OM was reported for all expense functions (survey column 4) . Unlike other natural classification categories OM also appeared as a function (line 8). Institutions would report positive values of salaries and wages, benefits, depreciation, interest and other expenses on the OM (survey line 8). However total OM line 8 column 1 was always zero and negative values were reported in the intersection of line 8 and column 4 to balance out the total of all expenses of OM distributed to the functional categories. For a better understanding of this, please visit the IPEDS survey form archive site for finance below: http://nces.ed.gov/ipeds/InsidePages/ArchivedSurveyMaterials?section=Finance

F1ENDMFT

Endowment assets (year end) per FTE enrollment (GASB)

Storage: double | Stata name: F1ENDMFT | Observed years: 2006-2023 | Nulls: 119,030

Definitions by release year

2006-2019: Endowment assets (year end) per FTE enrollment (GASB)

Endowment assets (year end) per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Endowment assets (year end) (F1H02) divided by 12-month FTE enrollment (FTE12MN) Endowment assets are gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations. Endowment funds are funds whose principal is nonexpendable (true endowment) and that are intended to be invested to provide earnings for institutional use. Term endowment funds are funds which the donor has stipulated that the principal may be expended after a stated period or on the occurrence of a certain event. Funds functioning as endowment (quasi-endowment funds) are established by the governing board to function like an endowment fund but which may be totally expended at any time at the discretion of the governing board. These funds represent nonmandatory transfers from the current fund rather than a

direct addition to the endowment fund, as occurs for the true endowment categories. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Endowment assets (year end) per FTE enrollment (GASB)

F1EQUITR

Equity ratio (GASB)

Storage: double | Stata name: F1EQUITR | Observed years: 2006-2023 | Nulls: 113,873

Definitions by release year

2006-2023: Equity ratio (GASB)

Equity ratio for public institutions using GASB 34/35 standards is derived as follows: Total net assets (F1A18) divided by total assets (F1A06) Net assets are the excess of assets over liabilities or the residual interest in the institution's assets remaining after liabilities are deducted. The change in net assets results from revenues, gains, expenses, and losses. FASB institutions classify net assets into three categories: permanently restricted, temporarily restricted, and unrestricted. GASB institutions classify net assets into three categories: invested in capital, net of related debt;

restricted (with separate displays of restricted-expendable and restricted-nonexpendable net assets); and unrestricted. Although the terms are similar, the composition of the categories of net assets between FASB and GASB institutions can differ significantly. Total assets include current and noncurrent assets Current assets are assets that are reasonably expected to be realized in cash or sold or consumed during the next normal operating cycle (normally one year) of the institution. Liquidity or nearness to cash is not the basis for classifying assets as current or non-current; thus cash or investments intended for liquidation of liabilities due beyond the one-year period would not be current assets. Noncurrent assets are assets that are not reasonably expected to be realized in cash or sold or consumed during the next normal operating cycle (normally one year) of the institution. Liquidity or nearness to cash is not the basis for determining classification as current or noncurrent. Thus cash investments intended for liquidation of liabilities due beyond the one-year period are noncurrent assets, as would assets segregated for the liquidation of long-term debts (including amounts due within the next operating cycle). Assets designated to be used to acquire, construct, or improve capital assets would be noncurrent.

Revenues from government grants and contracts per FTE (GASB)

Storage: double | Stata name: F1GVGCFT | Observed years: 2006-2023 | Nulls: 107,422

Definitions by release year

2006-2009: Revenues from government grants and contracts per FTE (GASB)

Revenues from government grants and contracts per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Government grants and contracts is equal to the sum of Federal operating grants and contracts

(F1B02) State operating grants and contracts (F1B03) Local operating grants and contracts (F1B04) Federal nonoperating grants (F1B13) State nonoperating grants (F1B14) Local nonperating grants (F1B15) Government grants and contract revenues is then divided by 12-month FTE enrollment (FTE12MN) Government grants and contracts (revenues) - Revenues from governmental agencies that are for specific research projects, other types of programs , or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts. GASB institutions are required to classify in financial reports such grants and contracts as either operating or nonoperating. Operating - GASB requires that revenues and expenses be separated between operating and nonoperating. Operating revenues and expenses result from providing goods and services. Operating transactions are incurred in the course of the operating activities of the institution Nonoperating - GASB requires that revenues and expenses be separated between operating and nonoperating. Operating revenues and expenses result from providing goods and services. Nonoperating activities are those outside the activities that are part of the operating activities of the institution. Most government appropriations are nonoperating because they are not generated by the operations of the institution. Investment income is nonoperating in most instances because institutions are not engaged in investing as an operating activity. Gifts are defined as nonoperating. Nonexchange transactions generate nonoperating revenues. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2010-2019: Revenues from government grants and contracts per FTE (GASB)

Revenues from government grants and contracts per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Government grants and contracts is equal to the sum of Federal operating grants and contracts (F1B02) State operating grants and contracts (F1B03) Local operating grants and contracts (F1B04A) Federal nonoperating grants (F1B13) State nonoperating grants (F1B14) Local nonperating grants (F1B15) Government grants and contract revenues is then divided by 12-month FTE enrollment (FTE12MN) Government grants and contracts (revenues) - Revenues from governmental agencies that are for specific research projects, other types of programs , or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts. GASB institutions are required to classify in financial reports such grants and contracts as either operating or nonoperating. Operating - GASB requires that revenues and expenses be separated between operating and nonoperating. Operating revenues and expenses result from providing goods and services. Operating transactions are incurred in the course of the operating activities of the institution Nonoperating - GASB requires that revenues and expenses be separated between operating and nonoperating. Operating revenues and expenses result from providing goods and services. Nonoperating activities are those outside the activities that are part of the operating activities of the institution. F1INSTFT

Instruction expenses per FTE (GASB)

Storage: double | Stata name: F1INSTFT | Observed years: 2006-2023 | Nulls: 107,419

Definitions by release year

2006-2019: Instruction expenses per FTE (GASB)

Instruction expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Instruction expenses (F1C011) divided by 12-month FTE enrollment (FTE12MN) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Instruction expenses per FTE (GASB)

Instruction expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Instruction expenses (F1C011) divided by 12-month FTE enrollment (FTE12MN) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. 2006-2015: Salaries, wages, and benefit expenses for instruction as a percent of total expenses for instruction (GASB)

Salaries, wages, and benefit expenses for instruction as a percent of total expenses for instruction for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for instruction (F1C012) plus employee fringe benefit expenses for instruction (F1C013) divided by total expenses for instruction (F1C011) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker’s compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

FASB institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker’s compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

F1LCAPFT

Revenues from local appropriations per FTE (GASB)

Storage: double | Stata name: F1LCAPFT | Observed years: 2006-2023 | Nulls: 107,422

Definitions by release year

2006-2019: Revenues from local appropriations per FTE (GASB)

Revenues from local appropriations per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Local appropriations (F1B12) divided by 12-month FTE enrollment (FTE12MN) Local appropriations, education district taxes, and similar support - Local appropriations are government appropriations made by a governmental entity below the state level. Education district taxes include all tax revenues assessed directly by an institution or on behalf of an institution when the institution will receive the exact amount collected. These revenues also include similar revenues that result from actions of local governments or citizens (such as through a referendum) that result in receipt by the institution of revenues based on collections of other taxes or resources (sales taxes, gambling taxes, etc.). The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Revenues from local appropriations per FTE (GASB)

Revenues from local appropriations per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Local appropriations (F1B12) divided by 12-month FTE enrollment (FTE12MN) Local appropriations, education district taxes, and similar support - Local appropriations are government appropriations made by a governmental entity below the state level. Education district taxes include all tax revenues assessed directly by an institution or on behalf of an institution when the institution will receive the exact amount collected. Postemployment benefits other than pension (OPEB) reported

Storage: string | Stata name: F1MHOP | Observed years: 2020-2023 | Nulls: 135,138

Definitions by release year

2020-2023: Postemployment benefits other than pension (OPEB) reported

Does your institution include postemployment benefits other than pension (OPEB) liabilities, expenses, and/or deferrals in its General Purpose Financial Statements? (No/Yes) This variable indicates wether institution includes liabilities, expenses, and/or deferrals for one or more defined benefit pension plans (either a single employer, agent employer or cost-sharing multiple employer) and/or one or more OPEB plans in its General Purpose Financial Statements. Note that if institution fits any of the following criteria, institution should respond “No”: -If institution does not have a defined pension benefit and/or OPEB plan -If institution is part of a higher education system and the system reflects the pension and/or OPEB expense and liability (and does not allocate the expense and liability to the individual institutions) -If institution is a branch campus that did not have pension or OPEB expense and liabilities allocated to it -If institution is part of a special funding situation For more information about reporting pension and GASB Statement 68 "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27," please visit the GASB website. For more information about reporting OPEB and GASB Statement 75 "Accounting and Financial Reporting for Postemployment Benefits Other than Pension," visit this site. Note for institutions with jointly audited financial statements: In the case where the system office absorbs all the pension and/or OPEB liabilities, expenses, and deferrals for the campuses; the system office should report “Yes” to the screening question(s) and the individual campuses will report “No”. All institutions involved should note this reporting structure in the context box below the screening questions. Parts M-1 and M-2 will only be applicable to the system office. In the case where the institution shares an audited financial statement with another entity (e.g., with district, high school, hospital), the institution should report only its proportionate share of the pension and/or OPEB expense, liability, and deferrals.

Operating income (Loss) + net nonoperating revenues (expenses)

Storage: double | Stata name: F1N01 | Observed years: 2020-2023 | Nulls: 135,725

Definitions by release year

2020-2023: Operating income (Loss) + net nonoperating revenues (expenses)

These variables are intended to collect the numerator and denominator used to calculate financial health ratios that compose the Composite Financial Index (CFI). Operating income (Loss) + net nonoperating revenues (expenses) is the sum of the institution’s operating income/loss, net nonoperating revenues/expenses, and the institution’s FASB component unit’s change in unrestricted net assets (if applicable). Includes nonoperating revenues and expenses from government appropriations, investment income and operating gifts, and interest on plant debt. Excludes plant and endowment gifts, capital appropriations, and investment gains/losses except for endowment payout and working capital investment gains/losses. For the FASB component unit, includes total change in unrestricted assets from the statement of activities. Excludes the FASB component unit’s investment gains/losses except for endowment payout and working capital investment gains/losses.

F1OTEXFT

All other core expenses per FTE (GASB)

Storage: double | Stata name: F1OTEXFT | Observed years: 2006-2023 | Nulls: 107,419

Definitions by release year

2006-2009: All other core expenses per FTE (GASB)

All other core expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Other core expenses is equal to the sum of expenses for the following functions: Operation maintenance of plant (F1C081) Depreciation (F1C091) Scholarships and fellowships expenses (F1C101) Other expenses and deductions (F1C141) Total nonoperating expenses and deductions (F1C181) Other core expenses is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2010-2019: All other core expenses per FTE (GASB)

All other core expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Other core expenses is equal to the sum of expenses for the following functions: Scholarships and fellowships expenses (F1C101) Other expenses and deductions (F1C141) Other core expenses is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. Other core expenses as a percent of total core expenses (GASB)

Storage: double | Stata name: F1OTEXPC | Observed years: 2006-2023 | Nulls: 106,225

Definitions by release year

2006-2009: Other core expenses as a percent of total core expenses (GASB)

All other core expenses as a percent of total core expenses for public institutions using GASB 34/35 standards is derived as follows: Other core expenses is equal to the sum of expenses for the following functions: Operation maintenance of plant (F1C081) Depreciation (F1C091) Scholarships and fellowships expenses (F1C101) Other expenses and deductions (F1C141) Total nonoperating expenses and deductions (F1C181) Other core expenses is then divided by total core expenses (F1COREXP) For glossary definitions of the above finance terms see variables listed under the Finance survey.

2010-2023: Other core expenses as a percent of total core expenses (GASB)

All other core expenses as a percent of total core expenses for public institutions using GASB 34/35 standards is derived as follows: Other core expenses is equal to the sum of expenses for the following functions: Scholarships and fellowships expenses (F1C101) Other expenses and deductions (F1C141) Other core expenses is then divided by total core expenses (F1COREXP) For glossary definitions of the above finance terms see variables listed under the Finance survey.

F1OTRVFT

Other core revenues per FTE (GASB)

Storage: double | Stata name: F1OTRVFT | Observed years: 2006-2023 | Nulls: 107,422

Definitions by release year

2006-2009: Other core revenues per FTE (GASB)

Revenues from other core revenue sources per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Other core revenues is equal to the sum of: Other operating sources (F1B08) Federal appropriations (F1B10) Gifts, including contributions from affiliated organizations (F1B16) Investment income (F1B17) Other nonoperating revenues (F1B18) Total other revenues and additions (F1B24) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2010: Other core revenues per FTE (GASB)

Revenues from other core revenue sources per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Other core revenues is equal to the sum of: Other operating sources (F1B08) Federal appropriations (F1B10) Other nonoperating revenues (F1B18) Total other revenues and additions (F1B24) Sales and services of educational activities (F1B26) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2011-2019: Other core revenues per FTE (GASB)

Revenues from other core revenue sources per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Other core revenues is equal to the sum of: Other operating sources (F1B08) Federal appropriations (F1B10) Other nonoperating revenues (F1B18) Total other revenues and additions (F1B24) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

2020-2023: Other core revenues per FTE (GASB)

Revenues from other core revenue sources per FTE enrollment for public institutions using GASB 34/35 is derived as follows: Other core revenues is equal to the sum of: Other operating sources (F1B08) Federal appropriations (F1B10) Other nonoperating revenues (F1B18) Total other revenues and additions (F1B24) Other core revenues is then divided by 12-month FTE enrollment (FTE12MN) The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment. For glossary definitions of the above finance terms see variables listed under the Finance survey.

F1PBSVFT

Public service expenses per FTE (GASB)

Storage: double | Stata name: F1PBSVFT | Observed years: 2006-2023 | Nulls: 107,419

Definitions by release year

2006-2019: Public service expenses per FTE (GASB)

Public service expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Public service expenses (F1C031) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Public service expenses per FTE (GASB)

Public service expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Public service expenses (F1C031) divided by 12-month FTE enrollment (FTE12MN) Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Salaries, wages, and benefit expenses for public service as a percent of total expenses for public service (GASB)

Storage: double | Stata name: F1PBSVPS | Observed years: 2006-2015 | Nulls: 129,181

Definitions by release year

2006-2015: Salaries, wages, and benefit expenses for public service as a percent of total expenses for public service (GASB)

Salaries, wages, and benefit expenses for public service as a percent of total expenses for public service for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for public service (F1C032) plus employee fringe benefit expenses for public service (F1C033) divided by total expenses for public service (F1C031). Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker’s compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

F1RSRCFT

Research expenses per FTE (GASB)

Storage: double | Stata name: F1RSRCFT | Observed years: 2006-2023 | Nulls: 107,419

Definitions by release year

2006-2019: Research expenses per FTE (GASB)

Research expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Research expenses (F1C021) divided by 12-month FTE enrollment (FTE12MN) Research (expense) - A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) FASB institutions include actual or allocated costs for operation & maintenance of plant, interest, and depreciation. GASB institutions do not include operation & maintenance of plant or interest but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours).

2020-2023: Research expenses per FTE (GASB)

Research expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Research expenses (F1C021) divided by 12-month FTE enrollment (FTE12MN) Research (expense) - A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). 2006-2019: Revenues from state appropriations per FTE (GASB)

Revenues from State appropriations per FTE enrollment for public institutions using GASB 34/35 is derived as follows: State appropriations (F1B11) divided by 12-month FTE enrollment (FTE12MN) State appropriations are amounts received by the institution through acts of a state legislative body, except grants and contracts and capital appropriations. Funds reported in this category are for meeting current operating expenses, not for specific projects or programs. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Revenues from state appropriations per FTE (GASB)

Revenues from State appropriations per FTE enrollment for public institutions using GASB 34/35 is derived as follows: State appropriations (F1B11) divided by 12-month FTE enrollment (FTE12MN) State appropriations are amounts received by the institution through acts of a state legislative body, except grants and contracts and capital appropriations. Funds reported in this category are for meeting current operating expenses, not for specific projects or programs. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2006-2019: Student service expenses per FTE (GASB)

Student services expenses per FTE enrollment for public institutions using GASB 34/35 standards is derived as follows: Student service expenses (F1C061) divided by 12-month FTE enrollment (FTE12MN) Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources(otherwise these expenses are included in institutional support.) FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest but may, as an option, distribute depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Student service expenses per FTE (GASB)

2016-2023: Salaries and wages for academic support as a percent of total expenses for academic support (GASB)

Salaries and wages for academic support as a percent of total expenses for academic support for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for academic support (F1C052) divided by total expenses for academic support (F1C051). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

2016-2023: Salaries and wages for instruction as a percent of total expenses for instruction (GASB)

Salaries and wages for instruction as a percent of total expenses for instruction for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for instruction (F1C012) divided by total expenses for instruction (F1C011) Instruction - A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees,

and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

2016-2023: Salaries and wages for institutional support as a percent of total expenses for institutional support (GASB)

Salaries and wages for institutional support as a percent of total expenses for institutional support for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for institutional support (F1C072) divided by total expenses for institutional support (F1C071). Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. FASB institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. Salaries and wages are the amounts paid as compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Total expenses include expenses from salaries, wages, employee fringe benefits, depreciation and other expenses.

2016-2023: Salaries and wages for public service as a percent of total expenses for public service (GASB)

Salaries and wages for public service as a percent of total expenses for public service for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for public service (F1C032) divided by total expenses for public service (F1C031). Public service (expense) - A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. 2016-2023: Salaries and wages for research as a percent of total expenses for research (GASB)

Salaries and wages for research as a percent of total expenses for research for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for research (F1C022) divided by total expenses for research (F1C021). Research (expense) - A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) FASB institutions include actual or allocated costs for operation & maintenance of plant, interest, and depreciation. GASB institutions do not include operation & maintenance of plant or interest but may, as an option, distribute depreciation expense. 2016-2023: Salaries and wages for student services as a percent of total expenses for student services (GASB)

Salaries and wages for student services as a percent of total expenses for student services for public institutions using GASB 34/35 standards is derived as follows: Salaries and wage expenses for student services (F1C062) divided by total expenses for student services (F1C061). Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records.

Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources(otherwise these expenses are included in institutional support.) FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest but may, as an option, distribute depreciation expense. 2006-2009: Name system, governing board or corporate entity.

Name of System, Governing Board or Corporate Structure (please see instructions for reporting System or Corporate data.) SYSTEM - An organization of two or more institutions of higher education under the control or supervision of a common administrative governing body. Governing bodies generally have the power to act in their own name, to hire and fire personnel, enter into contracts, etc. A coordinating body without these powers or a section of a state agency usually would not be considered a system office. Governing Board - An entity that ensures on behalf of the public the performance of an institution or a group of institutions. Responsibilities of the board may include appointing, supporting, and monitoring the president of the institution; reviewing educational and public service programs; insisting on strategic planning; and, ensuring good management and adequate resources.

F1TUFEFT

Revenues from tuition and fees per FTE (GASB)

Storage: double | Stata name: F1TUFEFT | Observed years: 2006-2023 | Nulls: 107,422

Definitions by release year

2006-2019: Revenues from tuition and fees per FTE (GASB)

Revenues from tuition and fees per FTE enrollment for public institutions using GASB 34/35 standard is derived as follows: Tuition and fees revenues (F1B01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F1B01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Revenues from tuition and fees per FTE (GASB)

Revenues from tuition and fees per FTE enrollment for public institutions using GASB 34/35 standard is derived as follows: Tuition and fees revenues (F1B01) divided by 12-month FTE enrollment (FTE12MN) Tuition and fees (revenues) (F1B01) - Revenues from all tuition and fees assessed against students (net of refunds and discounts and allowances) for educational purposes. If tuition or fees are remitted to the state as an offset to the state appropriation, the total of such tuition or fees are deducted from the total state appropriation and added to the total for tuition and fees. The full-time-equivalent (FTE) enrollment used is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2004-2023: Total unrestricted net assets

Total unrestricted net assets is the sum of unrestricted (designated and undesignated) and unrestricted (investment in plant, property, and equipment, net of related debt) net assets. Unrestricted net assets are amounts that are available for the general purposes of the institution without restriction. Includes amounts specifically designated by the governing board, such as those designated as quasi-endowments for building additions and replacement, for debt service, and for loan programs. Also, includes the unrestricted portion of net investment in plant, property, and equipment less related debt. This amount is computed as the amount of plant, property, and equipment, net of accumulated depreciation, reduced by any bonds, mortgages, notes, capital leases, or other borrowings that are clearly attributable to the acquisition, construction, or improvement of those assets.

2004-2023: Total restricted net assets

Total restricted net assets is the sum of temporarily restricted and permanently restricted net assets. Temporarily restricted includes the amount of all net assets that are subject to temporary donor/grantor restrictions that limit availabilty for expenditure. Temporary restrictions are also those that permit the institution to expend the donated assets for a specified purpose or a future date. Permanent restrictions are those that stipulate the resourcees must be maintained permanently, but permit the organization to expend part or all of the income derived from donated assets. Net assets that are subject to a donor’s or grantor’s restriction are restricted net assets. Include long-term but temporarily restricted net assets, such as term endowments, and net assets held subject to trust agreements if those agreements permit expenditure of the resources at a future date.

2004-2023: Permanently restricted net assets included in total restricted net assets

Permanently restricted net assets included in total restricted net assets - Net assets of FASB institutions that must be maintained in perpetuity. Permanently restricted net assets increase when institutions receive contributions for which donor-imposed restrictions limiting the institution's use of an asset or its economic benefits neither expire with the passage of time nor can be removed by the organization's meeting certain requirements. Donor-imposed restrictions on the use of the investment income on the assets may also change the amount of such net assets. Permanent endowment funds are the most common example.

Definitions by release year

2008-2018: Temporarily restricted net assets

Restricted net assets (FASB institutions only) - Assets held by the institution upon which restrictions have been placed by donors. These restrictions may be temporary or permanent. They restrict the institution in its use of the assets and/or the period of time for which the restriction applies.

2019-2023: Temporarily restricted net assets

Assets held by the institution upon which restrictions have been placed by donors. They restrict the institution in its use of the assets and/or the period of time for which the restriction applies. Temporarily restricted net assets includes the amount of all net assets that are subject to temporary donor/grantor restrictions that limit availability for expenditure. Temporary restrictions are also those that permit the institution to expend the donated assets for a specified purpose or a future date.

Accumulated depreciation

Storage: double | Stata name: F2A18 | Observed years: 2008-2023 | Nulls: 117,750

Definitions by release year

2008-2023: Accumulated depreciation

Accumulated depreciation The total depreciation charged as expenses as of the reporting date (in the current year and in prior years) on the capital assets of the institution. FASB Statement No. 117 and GASB Statement No. 34 require

that accumulated depreciation to date be recognized. NOTE: When a capital asset is removed from the accounting records due to disposal or end of the asset's useful life, the depreciation accumulated through the years on the asset is also removed from the records.

F2ACSPFT

Academic support expenses per FTE (FASB)

Storage: double | Stata name: F2ACSPFT | Observed years: 2006-2023 | Nulls: 108,385

Definitions by release year

2006-2019: Academic support expenses per FTE (FASB)

Academic support expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Academic support (F2E041) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. The full-time-equivalent (FTE) enrollment used is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month

instructional activity (credit and/or contact hours). For more information see the variable description for 12-month full-time equivalent enrollment (info link) under frequently used\ 12-month enrollment.

2020-2023: Academic support expenses per FTE (FASB)

Academic support expenses per FTE enrollment for public and private not-for-profit institutions using FASB standards is derived as follows: Academic support (F2E041) expenses divided by 12-month FTE enrollment (FTE12MN) Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. Definitions by release year

2006-2015: Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support (FASB)

Salaries, wages, and benefit expenses for academic support as a percent of total expenses for academic support for public and private not-for-profit institutions using FASB standards is derived as follows: Salaries and wage expenses for academic support (F2E042) plus employee fringe benefit expenses for academic support (F2E043) divided by total expenses for academic support (F2E041). Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Salaries and wages are the amounts paid as

compensation for services to all employees--faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.). Employee Fringe Benefits include all employee fringe benefits such as retirement plans, social security taxes, medical/dental plans, guaranteed disability income protection plans, tuition plans, housing plans, unemployment compensation plans, group life insurance plans, worker's compensation plans, other in-kind benefits with cash options, and all other costs of employee benefits. Total expenses include expenses from salaries, wages, employee fringe benefits,operations of plant, depreciation, interest and other expenses.

2004-2010: Other federal grants

Other federal grants includes the amount awarded to the institution under other federal student aid programs, such as Supplemental Education Opportunity Grants (SEOG), DHHS training grants (aid portion only), DOD grants, Department of Veterans Affairs grants, and the federal portion of the College Work Study Program (FWS) and State Student Incentive Grants (SSIG). Private not-for-profit institutions generally report these grants as allowances when applied to the student's account and as federal grant revenues when received. Matching portions for any of these programs are not included.

2011-2023: Other federal grants

Other federal grants includes the amount awarded to the institution under other federal student aid programs, such as Supplemental Education Opportunity Grants (SEOG), DHHS training grants (aid portion only), DOD grants, Department of Veterans Affairs grants, and the federal portion of the College Work Study Program (FWS) and the Leveraging Educational Assistance Partnership (LEAP) Program. Private not-for-profit institutions generally report these grants as allowances when applied to the student's account and as federal grant revenues when received. Matching portions for

any of these programs are not included.

2020-2023: Total discounts and allowances from endowments and gifts

Endowments are funds whose principal is nonexpendable (true endowment) and that are intended to be invested to provide for institutional use. The funds also include funds for which the donor has stipulated that the principal may be expended after a stated period or on the occurrence of a certain event (term endowment) and funds established by the governing board to function line an endowment fund but which may be totally expended at any time at the discretion of the governing board. Gifts are received contributions as a nonexchange transaction. The contributions include bequests, promises to give (pledges), gifts from an affiliated organization or a component unit not blended or consolidated, and income from funds held in irrevocable trusts or distributable at the direction of the trustees of the trusts. Includes any contributed services recognized (recorded) by the institution. Allowance applied to tuition and fees is the portion of total student aid that is applied to tuition and fees. This amount plus tuition and fees revenues equals gross tuition and fee revenues.

2008-2023: Private gifts - Total

Private gifts (Revenues) are revenues from private (non-governmental) entities including revenues received from gift or contribution nonexchange transactions (including contributed services) except those from affiliated entities. Includes bequests, promises to give (pledges), gifts from an affiliated organization or a component unit not blended or consolidated, and income from funds held in irrevocable trusts or distributable at the direction of the trustees of the trusts. Includes any contributed services recognized (recorded) by the institution.

2004-2007: Sales and services of auxiliary enterprises

Sales and services of auxiliary enterprises includes the amount of revenues generated by the auxiliary enterprise operations, net of any tuition and fee allowances applied in the general purpose financial statements. Auxiliary enterprises are operations that exist to furnish a service to students, faculty, of staff, and that charge a fee that is directly related to the cost of the service. Examples of auxiliary enterprises are residence halls, food services, student health services, intercollegiate athletics, college unions, stores and movie theaters.

2004-2007: Independent operations revenue

Independent operations revenue includes all revenues associated with operations independent of the primary missions of the institution. This category generally includes only those revenues associated with major federally-funded research and development centers. Excludes the profit (or loss) from operations owned and managed as investments of the institution’s endowment funds, which should be reported in investment return.

Instruction-Total amount

Storage: double | Stata name: F2E011 | Observed years: 2004-2023 | Nulls: 104,463

Definitions by release year

2004-2023: Instruction-Total amount

Instruction expenses includes all expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institutions's students. Also, includes expenses for both credit and non-credit activities. Excludes

expenses for academic administration if the primary function is administration (e.g., academic deans).
