User codebook

2004-2023 | 141,711 institution-year rows | 2,721 variables

Labeled release: full-panel-labels-v1

How to use this codebook

Use the PDF bookmarks or alphabetical variable index to find a field. The online codebook provides search and year filters at https://markjayson13.github.io/IPEDSDB_Panel/.

The panel key is UNITID plus year. It is an unbalanced panel: institution coverage differs by year. Year identifies an IPEDS release; survey, academic, fiscal and financial-aid reference periods can differ. Use the source-specific reference period where supplied.

Observed years are years with at least one nonmissing panel value. A missing observation is not evidence of zero. Null counts cover the full panel. Negative source codes remain distinct from nulls; consult their variable- and year-specific meanings.

Definitions and code labels apply only to the years listed. Changes in titles, source tables or definitions do not establish that a variable is comparable over time. Unspecified units, currency, price basis or reference periods are recorded as unknown.

The companion Parquet retains source values and embedded metadata. The Stata file has native variable and category labels. Canonical integer strings preserve their numeric codes; other categorical strings use the reversible mappings printed below. Ordinary string nulls become empty strings in Stata. Use the original Parquet when that distinction matters.

The full file has more than Stata/BE's 2,048-variable limit. Load a selected varlist from the full DTA, or use Stata/SE or MP. Source variable names and Stata export names are both recorded here.

This codebook describes the published dataset; it does not include institution-level data. The data files live in Final/ under the external IPEDSDB_PANEL data root. Keep their matching metadata and checksums together.

Known source gaps

The published metadata is incomplete. No missing description or unknown category meaning has been guessed. The affected fields and observation counts follow; other measurement attributes can also be unspecified.

F1C196: No source description is available.

LINE_55: Some selected source definitions have no description.

PCF_F_RV: Selected source definitions have different descriptions; retained in source_metadata.

REV_IC: Selected source definitions have different descriptions; retained in source_metadata.

SFTETOTL: Selected source definitions have different descriptions; retained in source_metadata.

ADMCON9: 2 nonmissing values of ADMCON9 have no safely resolved code definition for their reporting year.

CUFASB: 1 nonmissing values of CUFASB have no safely resolved code definition for their reporting year.

CUGASB: 1 nonmissing values of CUGASB have no safely resolved code definition for their reporting year.

DEATHYR: 229 nonmissing values of DEATHYR have no safely resolved code definition for their reporting year.

STAT_AL: 6023 nonmissing values of STAT_AL have no safely resolved code definition for their reporting year.

Release identity

SHA-256 hashes bind this codebook to its published datasets and companion metadata. These identify the labeled derivative; original release files remain preserved.

parquet_sha256: f93cf45fe50e04250465a0b583a384737f4954cb7034f5a880f853d55827bb61

parquet_metadata_sha256: d9ddbd4ca12842718cfb052369bebb1d01d556c34e2db700bb25d161a44f0b0e

stata_sha256: 37570f3a5f54a28a6ea02f1888d8e89e89cee499cc04100e36badcbd5f07386f

stata_metadata_sha256: 10e102c6751d37957744ad333ba7913d405b401becda67cab7aa9b5a52027a85

Alphabetical variable index

Each variable name is a link to its definition. PDF bookmarks provide the same alphabetical index.

ACCRD1

National or specialized accrediting

Storage: string | Stata name: ACCRD1 | Observed years: 2004 | Nulls: 134,907

Definitions by release year

2004: National or specialized accrediting

This institution is accredited by the following accrediting agency(ies). [Check all that apply] National institutional or specialized accrediting agency ACCREDITING AGENCIES - Agencies that establish operating standards for educational or professional institutions and programs, determine the extent to which the standards are met, and publicly announce their findings NATIONAL INSTITUTIONAL ACCREDITATION - Institutional accreditation normally applies to an entire institution, indicating that each of its parts is contributing to the achievement of an institution's objectives, although not necessarily all on the same level of quality. The various commissions of the regional accrediting associations, for example, perform institutional accreditation, as do some national institutional accrediting agencies. SPECIALIZED ACCREDITATION - Specialized accreditation normally applies to the evaluation of programs, departments, or schools which usually are parts of a total collegiate or other postsecondary institution. The unit accredited may be as large as a college or school within a university or as small as a curriculum within a discipline. Most of the specialized accrediting agencies review units within a postsecondary institution which is accredited by one of the regional accrediting commissions. However, certain of the specialized accrediting agencies accredit professional schools and other specialized or vocational or other postsecondary institutions which are free-standing in their operations. Thus, a "specialized" or "programmatic" accrediting agency may also function in the capacity of an "institutional" accrediting agency. In addition, a number of specialized accrediting agencies accredit educational programs within non-educational settings, such as hospitals.

ACISSTUD

Academic and institutional support, and student services expenses per FTE (for-profit institutions only)

Storage: double | Stata name: ACISSTUD | Observed years: 2004-2005 | Nulls: 137,246

Definitions by release year

2004: Academic and institutional support, and student services expenses per FTE (for-profit institutions only)

Academic and institutional support, and student services expenses per FTE is derived for private for-profit institutions only Academic and institutional support, and student services expenses is equal to F3E03 and is divided by the full-time equivalent enrollment: Academic year 2003-04 Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries,

museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Under FASB standards this includes actual or allocated costs for operation and maintenance of plant, interest, and depreciation. Under GASB standards this does not include operation and maintenance of plant or interest but may include depreciation expense. Student services (expenses) - A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources(otherwise these expenses are included in institutional support.) FASB institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation. GASB institutions do not include operation and maintenance of plant or interest but may, as an option, distribute depreciation expense. Institutional support - A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function. FASB institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation. GASB institutions do not include operation and maintenance of plant or interest, but may, as an option, distribute depreciation expense. 12-month full-time equivalent enrollment: Academic year 2003-04. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions’ FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2004 Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall counts (part A) and applying this ratio to the 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2005: Academic and institutional support, and student services expenses per FTE (for-profit institutions only)

Academic and institutional support, and student services expenses per FTE is derived for private for-profit institutions only Academic and institutional support, and student services expenses is equal to F3E03 and is divided by the full-time equivalent enrollment: Academic year 2004-05 Academic support A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. ACTCM25

ACT Composite 25th percentile score

Storage: double | Stata name: ACTCM25 | Observed years: 2004-2023 | Nulls: 116,815

Definitions by release year

2004-2011: ACT Composite 25th percentile score

If test scores are required for admission and 60 percent or more of your enrolled students (first-time, degree/certificate-seeking undergraduate students) submitted scores for a given test, please provide the following information: the number and percentage of students submitting SAT/ACT scores and the 25th and 75th percentile scores for each test. Provide data for the most recent group of students for which data are available; include new students admitted the summer prior to that fall. (This is applicable to institutions that have no open admission policy for entering first-time undergraduate students). ACT Composite 25th percentile score ACT (AMERICAN COLLEGE TESTING PROGRAM) - The ACT assessment program measures educational development and readiness to pursue college-level coursework in English, mathematics, natural science, and social studies. Student performance does not reflect innate ability and is influenced by a student's educational preparedness. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2012-2021: ACT Composite 25th percentile score

If test scores are required for admission for first-time, degree/certificate-seeking undergraduate students, please provide the following information: the number and percentage of students submitting SAT/ACT scores and the 25th and 75th percentile scores for each test. Provide data for the most recent group of students for which data are available; include new students admitted the summer prior to that fall. (This is applicable to institutions that have no open admission policy for entering first-time undergraduate students). ACT Composite 25th percentile score ACT (AMERICAN COLLEGE TESTING PROGRAM) - The ACT assessment program measures educational development and readiness to pursue college-level coursework in English, mathematics, natural science, and social studies. Student performance does not reflect innate ability and is influenced by a student's educational preparedness. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing

(college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2022-2023: ACT Composite 25th percentile score

If test scores are required for admission for first-time, degree/certificate-seeking undergraduate students, please provide the following information: the number and percentage of students submitting SAT/ACT scores and the 25th, 50th and 75th percentile scores for each test. Provide data for the most recent group of students for which data are available; include new students admitted the summer prior to that fall. (This is applicable to institutions that have no open admission policy for entering first-time undergraduate students). ACT Composite 25th percentile score ACT (AMERICAN COLLEGE TESTING PROGRAM) - The ACT assessment program measures educational development and readiness to pursue college-level coursework in English, mathematics, natural science, and social studies. 2022-2023: ACT Composite 50th percentile score

If test scores are required for admission for first-time, degree/certificate-seeking undergraduate students, please provide the following information: the number and percentage of students submitting SAT/ACT scores and the 25th, 50th and 75th percentile scores for each test. Provide data for the most recent group of students for which data are available; include new students admitted the summer prior to that fall. (This is applicable to institutions that have no open admission policy for entering first-time undergraduate students). ACT Composite 50th percentile score ACT (AMERICAN COLLEGE TESTING PROGRAM) - The ACT assessment program measures educational development and

readiness to pursue college-level coursework in English, mathematics, natural science, and social studies. Student performance does not reflect innate ability and is influenced by a student's educational preparedness. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

Definitions by release year

2008-2015: ACT Writing 25th percentile score

If test scores are required for admission for first-time, degree/certificate-seeking undergraduate students, please provide the following information: the number and percentage of students submitting SAT/ACT scores and the 25th and 75th percentile scores for each test. Provide data for the most recent group of students for which data are available; include new students admitted the summer prior to that fall. (This is applicable to institutions that have no open admission policy for entering first-time undergraduate students). ACT Writing 25th percentile score ACT (AMERICAN COLLEGE TESTING PROGRAM) - The ACT assessment program measures educational development and readiness to pursue college-level coursework in English, mathematics, natural science, and social studies. Student performance does not reflect innate ability and is influenced by a student's educational preparedness. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

ADMNSTF

Executive/administrative and managerial FTE staff

Storage: double | Stata name: ADMNSTF | Observed years: 2005-2011 | Nulls: 92,538

Definitions by release year

2005-2011: Executive/administrative and managerial FTE staff

The full-time-equivalent (FTE) of professional staff is calculated by summing the total number of full-time professional staff from the Employees by Assigned Position (EAP) component and adding one-third of the total number of part-time

professional staff. Specifically for Executive/administrative and managerial FTE (A5+(B5/3)) Where A5=Full-time, Executive/administrative and managerial (EAPRECTP=2150) B5=Part-time, Executive/administrative and managerial (EAPRECTP=3150) Executive, administrative, and managerial - A primary function or occupational activity category used to classify persons whose assignments require management of the institution, or a customarily recognized department or subdivision thereof. Assignments require the performance of work directly related to management policies or general business operations of the institution, department or subdivision. Assignments in this category customarily and regularly require the incumbent to exercise discretion and independent judgment. Included in this category are employees holding titles such as: top executives; chief executives; general and operations managers; advertising, marketing, promotions, public relations, and sales managers; operations specialties managers; administrative services managers; computer and information systems managers; financial managers; human resources managers; purchasing managers; postsecondary education administrators such as: presidents, vice presidents (including assistants and associates), deans (including assistants and associates) if their principal activity is administrative and not primarily instruction, research or public service, directors (including assistants and associates), department heads (including assistants and associates) if their principal activity is administrative and not primarily instruction, research or public service, assistant and associate managers (including first-line managers of service, production and sales workers who spend more than 80 percent of their time performing supervisory activities); engineering managers; food service managers; lodging managers; and medical and health services managers.

2004-2023: Admissions total

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Total number of admissions ADMISSIONS - Applicants that have been granted an official offer to enroll in a college or university. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2022-2023: Admissions gender unknown

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Number of admissions gender unknown ADMISSIONS - Applicants that have been granted an official offer to enroll in a college or university. FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

ADMSTAFF

Executive/administrative and managerial FTE as a percent of FTE professional staff

Storage: double | Stata name: ADMSTAFF | Observed years: 2004 | Nulls: 135,114

Definitions by release year

2004: Executive/administrative and managerial FTE as a percent of FTE professional staff

The full-time-equivalent (FTE) of professional staff is calculated by summing the total number of full-time professional staff from the Employees by Assigned Position (EAP) component and adding one-third of the total number of part-time professional staff. Specifically for Executive/administrative and managerial FTE as a percent of FTE professional staff (A5+(B5/3)) / SUM(of (A1+ B1/3),(A2+ B2/3),(A3 + B3/3), (A4 + B4/3), (A5 + B5/3), (A6 + B6/3)) * 100; Where A1=Full-time, Primarily instruction total (EAPRECTP=2110) B1=Part-time, Primarily instruction total (EAPRECTP=3110) A2=Full-time, Instruction combined with research/public service (EAPRECTP=2120) B2=Part-time, Instruction combined with research/public service (EAPRECTP=3120) A3=Full-time, Primarily research total (EAPRECTP=2130) B3=Part-time, Primarily research total (EAPRECTP=3130) A4=Full-time, Primarily public service total (EAPRECTP=2140) B4=Part-time, Primarily public service total (EAPRECTP=3140) A5=Full-time, Executive/administrative and managerial (EAPRECTP=2150) B5=Part-time, Executive/administrative and managerial (EAPRECTP=3150) A6=Full-time, Other professional (EAPRECTP=2160) B6=Part-time, Other professional (EAPRECTP=3160) Primarily instruction - A primary function or occupational activity category used to classify persons whose specific assignments customarily are made for the purpose of conducting instruction or teaching and who hold academic titles of professor, associate professor, assistant professor, instructor, lecturer or the equivalent. Includes deans, directors, or the equivalent, as well as associate deans, assistant deans, and executive officers of academic departments (chairpersons, heads, or equivalent) if their principal activity is instruction. Primarily public service - A primary function or occupational activity category used to classify persons whose specific assignments customarily are made for the purpose of carrying out public service activities such as agricultural extension services, clinical services, or continuing education and who may hold academic titles of professor, associate professor, assistant professor. Includes deans, directors, or the equivalent, as well as associate deans, assistant deans, and executive officers of academic departments (chairpersons, heads, or equivalent) if their principal activity is public service. Primarily research - A primary function or occupational activity category used to classify persons whose specific assignments customarily are made for the purpose of conducting research and who hold academic titles of professor, associate professor, assistant professor, or titles such as research associate or postdoctoral fellow. Includes deans, directors, or the equivalent, as well as associate deans, assistant deans, and executive officers of academic departments (chairpersons, heads, or equivalent) if their principal activity is research. Executive, administrative, and managerial - A primary function or occupational activity category used to classify persons whose assignments require management of the institution, or a customarily recognized department or subdivision thereof. Assignments require the performance of work directly related to management policies or general business operations of the institution, department or subdivision. Assignments in this category customarily and regularly require the incumbent to exercise discretion and independent judgment. Included in this category are employees holding titles such as: top executives; chief executives; general and operations managers; advertising, marketing, promotions, public relations, and sales managers; operations specialties managers; administrative services managers; computer and information systems managers; financial managers; human resources managers; purchasing managers; postsecondary education administrators such as: presidents, vice presidents (including assistants and associates), deans (including assistants

and associates) if their principal activity is administrative and not primarily instruction, research or public service, directors (including assistants and associates), department heads (including assistants and associates) if their principal activity is administrative and not primarily instruction, research or public service, assistant and associate managers (including first-line managers of service, production and sales workers who spend more than 80 percent of their time performing supervisory activities); engineering managers; food service managers; lodging managers; and medical and health services managers. Other professional (support/service) - A primary function or occupational activity category used to classify persons employed for the primary purpose of performing academic support, student service, and institutional support, whose assignments would require either a baccalaureate degree or higher or experience of such kind and amount as to provide a comparable background. Included in this category are all employees holding titles such as business operations specialists; buyers and purchasing agents; human resources, training, and labor relations specialists; management analysts; meeting and convention planners; miscellaneous business operations specialists; financial specialists; accountants and auditors; budget analysts; financial analysts and advisors; financial examiners; loan counselors and officers; computer specialists; computer and information scientists, research; computer programmers; computer software engineers; computer support specialists; computer systems analysts; database administrators; network and computer systems administrators; network systems and data communication analysts; counselors, social workers, and other community and social service specialists; counselors; social workers; health educators; clergy; directors, religious activities and education; lawyers; librarians, curators, and archivists; museum technicians and conservators; librarians; artists and related workers; designers; athletes, coaches, umpires; dancers and choreographers; music directors and composers; chiropractors; dentists; dietitians and nutritionists; optometrists; pharmacists; physicians and surgeons; podiatrists; registered nurses; therapists; and veterinarians.

2009: Number of full-time first-time undergraduates receiving any financial aid

Student Financial Aid and Student Counts - Financial Aid Number of full-time, first-time degree/certificate-seeking undergraduate students who received any financial aid. Financial aid - Grants, loans, assistantships, scholarships, fellowships, tuition waivers, tuition discounts, veteran's benefits, employer aid (tuition reimbursement) and other monies (other than from relatives/friends) provided to students to meet expenses. This includes Title IV subsidized and unsubsidized loans made directly to students. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).
Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2010-2013: Number of full-time first-time undergraduates receiving any financial aid

Student Financial Aid and Student Counts - Financial Aid Number of full-time, first-time degree/certificate-seeking undergraduate students who received any financial aid. Includes those who received Federal Work Study, any loans to students or grant or scholarship aid from the federal government, state/local government, or the institution. Plus loans to parents are not included. Grant or scholarship aid from private or other sources (e.g., Rotary Club Scholarship). Financial aid - Grants, loans, assistantships, scholarships, fellowships, tuition waivers, tuition discounts, veteran's benefits, employer aid (tuition reimbursement) and other monies (other than from relatives/friends) provided to students to meet expenses. This includes Title IV subsidized and unsubsidized loans made directly to students. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

2014-2019: Number of full-time first-time undergraduates awarded any financial aid

Student Financial Aid and Student Counts - Financial Aid Number of full-time, first-time degree/certificate-seeking undergraduate students who were awarded any financial aid. Includes those who were awarded Federal Work Study, any loans to students or grant or scholarship aid from the federal government, state/local government, or the institution. Plus loans to parents are not included. Grant or scholarship aid from private or other sources (e.g., Rotary Club Scholarship). Financial aid - Grants, loans, assistantships, scholarships, fellowships, tuition waivers, tuition discounts, veteran's benefits, employer aid (tuition reimbursement) and other monies (other than from relatives/friends) provided to students to meet expenses. This includes Title IV subsidized and unsubsidized loans made directly to students. 2004-2008: Percentage receiving any financial aid

Note: Perturbation procedures were applied to these data to protect against disclosure of individual information. Student Financial Aid and Student Counts - Financial Aid Percentage of all full-time, first-time degree/certificate-seeking undergraduate students who received any financial aid. Financial aid - Grants, loans, assistantships, scholarships, fellowships, tuition waivers, tuition discounts, veteran's benefits, employer aid (tuition reimbursement) and other monies (other than from relatives/friends) provided to students to meet expenses. This includes Title IV subsidized and unsubsidized loans made directly to students. Undergraduate - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate Full-time student (Undergraduate) — A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. First-time student (undergraduate) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs . Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). Degree/certificate-seeking students - Students enrolled in courses for credit who are recognized by the

institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

Definitions by release year

2004-2006: Application fee is required

Is an application fee for admission required by your institution? APPLICATION FEE - That amount of money that an institution charges for processing a student's application for admittance to the institution. This amount is not creditable toward tuition or required fees, nor is it refundable if the student is not admitted to the institution.

2004-2005: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2003 or Fall 2004 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2006: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2005 or Fall 2006 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2007: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2006 or Fall 2007 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2008: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2007 or Fall 2008 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time

at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2009: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2008 or Fall 2009 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2010: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2009 or Fall 2010 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2011: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2010 or Fall 2011 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision

applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2012: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2011 or Fall 2012 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2013: Fall reporting period for applicant and admissions

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent Fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Select reporting period: Fall 2012 or Fall 2013 FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS -Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION - A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION - An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2022-2023: Applicants another gender

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Number of applicants another gender Another gender (i.e., gender information is known but does not fall into either of the mutually exclusive binary categories provided [Men/Women]). This variable is left missing or blank for institutions who indicated that they were not able to report another gender for this data collection. For institutions who indicated that they were able to report another gender for this data collection, but no students identified as another gender this variable/cell is zero. APPLICANT - An individual who has fulfilled the institution’s requirements to be considered for admission (including payment or waiving of the application fee, if any) and who has been notified of one of the following actions: admission, nonadmission, placement on waiting list, or application withdrawn (by applicant or institution). FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. There are three possible decision applications: admitted, denied, or not admitted but forwarded for consideration with the regular applicant pool, without prejudice. EARLY ACTION An admission plan that allows students to apply and be notified of an admission decision well in advance of the regular notification dates. If admitted, the candidate is not committed to enroll (unlike early decision). Students may reply to the offer under the college's regular reply policy.

2004-2023: Applicants men

Please provide the number of first-time, degree/certificate-seeking undergraduate students who applied, were admitted, and enrolled (full or part time) at your institution for the most recent fall period available. Include early decision, early action, and students who began studies during the summer prior to that fall. This is applicable to institutions that have no open admission policy for entering first-time undergraduate students Number of applicants men APPLICANT - An individual who has fulfilled the institution’s requirements to be considered for admission (including payment or waiving of the application fee, if any) and who has been notified of one of the following actions: admission, nonadmission, placement on waiting list, or application withdrawn (by applicant or institution). FIRST-TIME STUDENT (UNDERGRADUATE) - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). DEGREE/CERTIFICATE-SEEKING STUDENTS Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs. EARLY DECISION A plan that allows students to apply and be notified of an admission decision (and financial aid offer, if applicable) well in advance of the regular notification date. Applicants agree to accept an offer of admission and, if admitted, to withdraw their applications from other colleges. ASCDEG

Associate's degree

Storage: double | Stata name: ASCDEG | Observed years: 2004-2023 | Nulls: 5,529

Definitions by release year

2004: Associate's degree

Associate's degree awarded between July 1, 2003 and June 30, 2004 Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2005: Associate's degree

Associate's degree awarded between July 1, 2004 and June 30, 2005 Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2006: Associate's degree

Associate's degree awarded between July 1, 2005 and June 30, 2006 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2007: Associate's degree

Associate's degree awarded between July 1, 2006 and June 30, 2007 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2010: Associate's degree

Associate's degree awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2011: Associate's degree

Associate's degree awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2012: Associate's degree

Associate's degree awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2013: Associate's degree

Associate's degree awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2014: Associate's degree

Associate's degree awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2015: Associate's degree

Associate's degree awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2016: Associate's degree

Associate's degree awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2017: Associate's degree

Associate's degree awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2018: Associate's degree

Associate's degree awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2019: Associate's degree

Associate's degree awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2020: Associate's degree

Associate's degree awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2021: Associate's degree

Associate's degree awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2022: Associate's degree

Associate's degree awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

2023: Associate's degree

Associate's degree awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Associate's degree (AWLEVEL=3) and

the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Associate's degree - An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

BAAEXCL

Additional exclusions from bachelor's degree-seeking cohort

Storage: double | Stata name: BAAEXCL | Observed years: 2008-2023 | Nulls: 109,145

Definitions by release year

2008-2023: Additional exclusions from bachelor's degree-seeking cohort

Additional exclusions from bachelor's degree-seeking cohort, Additional exclusions who left institution between 150% of normal time and 200% of normal time (and have neither graduated nor transferred to another institution) because of one of the following documented reasons: The student is deceased or is totally and permanently disabled and thus unable to return to school. The student left school to serve in the armed forces or was called to active duty. (DO NOT include students already in the military who transfer to another duty station.) The student left school to serve with a foreign aid service of the Federal Government, such as the Peace Corps. The student left school to serve on an official church mission. NOTE: Students who leave the institution for one of the above reasons, but return prior to the 200 percent status date of August 31, may still be reported as exclusions.

BASDEG

Bachelor's degree

Storage: double | Stata name: BASDEG | Observed years: 2004-2023 | Nulls: 83,621

Definitions by release year

2004: Bachelor's degree

Bachelor's degree awarded between July 1, 2003 and June 30, 2004 Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2005: Bachelor's degree

Bachelor's degree awarded between July 1, 2004 and June 30, 2005 Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4

but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2006: Bachelor's degree

Bachelor's degree awarded between July 1, 2005 and June 30, 2006 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2007: Bachelor's degree

Bachelor's degree awarded between July 1, 2006 and June 30, 2007 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2008: Bachelor's degree

Bachelor's degree awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2009: Bachelor's degree

Bachelor's degree awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2010: Bachelor's degree

Bachelor's degree awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work.

This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2011: Bachelor's degree

Bachelor's degree awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2012: Bachelor's degree

Bachelor's degree awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2013: Bachelor's degree

Bachelor's degree awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2014: Bachelor's degree

Bachelor's degree awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2015: Bachelor's degree

Bachelor's degree awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work.

This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2016: Bachelor's degree

Bachelor's degree awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2017: Bachelor's degree

Bachelor's degree awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2018: Bachelor's degree

Bachelor's degree awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2019: Bachelor's degree

Bachelor's degree awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2020: Bachelor's degree

Bachelor's degree awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work.

This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2021: Bachelor's degree

Bachelor's degree awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2022: Bachelor's degree

Bachelor's degree awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2023: Bachelor's degree

Bachelor's degree awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Bachelor's degree (AWLEVEL=5) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Bachelor's degree - An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

2004-2022: Institution provides board or meal plan

Does your institution provide board or meal plans to your students? BOARD CHARGES - The charge for an academic year for meals, for a specified number of meals per week.

2023: Institution offers food or meal plans

Does your institution offer food or meal plans to your students? Food charges (formerly board charges) - Charges assessed students for an academic year for meals.

C15BASIC

Carnegie Classification 2015: Basic

Storage: string | Stata name: C15BASIC | Observed years: 2015-2023 | Nulls: 80,826

Definitions by release year

2015-2023: Carnegie Classification 2015: Basic

The Basic Classification is an update of the traditional classification framework developed by the Carnegie Commission on Higher Education in 1970 to support its research program. The Basic Classification was published for use in 1973, and subsequently updated in 1976, 1987, 1994, 2000, 2005 and 2010 and 2015. The 2005 edition involved some significant changes from the previous releases by dividing Associate's colleges into subcategories and using a multi-measure research index to classify doctorate-granting institutions. The 2010 update retained the same classification structure as the 2005 edition. In the 2015 update, the Associate's Categories were substantially redefined and the categories of the Research Doctoral Universities changed (but not the calculation methodology). Please see the Basic Classification Methodology for details regarding how this classification is calculated. Note: The "shorthand" labels for the Doctoral Universities and Master's Colleges and Universities were restored in the 2015 update to numeric sequences (R1, R2, R3, and M1, M2, M3) to denote that each one is based on differences in quantitative levels. For doctoral universities, the levels are based on a research activity index and for master's colleges and universities it is based on number of degrees conferred. Doctoral Universities - Includes institutions that awarded at least 20 research/scholarship doctoral degrees during the update year (this does not include professional practice doctoral-level degrees, such as the JD, MD, PharmD, DPT, etc.). Excludes Special Focus Institutions and Tribal Colleges. Master's Colleges and Universities - Generally includes institutions that awarded at least 50 master's degrees and fewer than 20 doctoral degrees during the update year (with occasional exceptions – see Methodology). Excludes Special Focus Institutions and Tribal Colleges. Baccalaureate Colleges - Includes institutions where baccalaureate or higher degrees represent at least 50 percent of all degrees but where fewer than 50 master's degrees or 20 doctoral degrees were awarded during the update year. (Some institutions above the master's degree threshold are also included; see Methodology.) Excludes Special Focus Institutions and Tribal Colleges. Baccalaureate/Associate's Colleges - Includes four-year colleges (by virtue of having at least one baccalaureate degree program) with fewer than 50 percent of degrees awarded at the associate's level. Excludes Special Focus Institutions and Tribal Colleges. Associate's Colleges - Institutions at which the highest level degree awarded is an associate's degree. The institutions are sorted into nine categories based on the intersection of two factors: disciplinary focus (transfer, career & technical or mixed) and dominant student type (traditional, nontraditional or mixed). Excludes Special Focus Institutions and Tribal Colleges. Special Focus Institutions- Institutions where a high concentration of degrees is in a single field or set of related fields. Excludes Tribal Colleges. Tribal Colleges - Colleges and universities that are members of the American Indian Higher Education Consortium, as identified in IPEDS Institutional Characteristics. Classifications are time-specific snapshots of institutional attributes and behavior based on 2013-14 data. The methodology can be found at http://carnegieclassifications.iu.edu/methodology/basic.php.

Definitions by release year

2015-2017: Carnegie Classification 2015: Enrollment Profile

Enrollment Profile Classification provides a bird's eye view of the student population by grouping institutions according to the mix of students enrolled at the undergraduate and graduate levels. Exclusively undergraduate institutions are further disaggregated by level (two-year and four-year). For institutions with both undergraduate and graduate students, institutions are groupedaccording to the distribution of full-time equivalent (FTE*) students across the two levels, giving an approximate measure of the student population's "center of gravity." As a result, it reflects important differences with respect to educational mission as well as institutional climate and culture—differences that can have implications for infrastructure, services, and resource allocationFor more information regarding how this classification is calculated, please see the Enrollment Profile Methodology. The categories are as follows: Exclusively undergraduate two-year - Fall enrollment data show only undergraduates enrolled at these associate's degree granting institutions. Exclusively undergraduate four-year - Fall enrollment data show only undergraduates enrolled at these bachelor's or higher degree granting institutions. Very high undergraduate - Fall enrollment data show both undergraduate and graduate students, with the latter group accounting for less than 10 percent of FTE* enrollment. High undergraduate - Fall enrollment data includes both undergraduate and graduate students, with the latter group accounting for 10–24 percent of FTE enrollment. Majority undergraduate - Fall enrollment data includes both undergraduate and graduate students, with the latter group accounting for 25–49 percent of FTE enrollment. Majority graduate - Fall enrollment data includes both undergraduate and graduate students, with the latter group accounting for at least half of FTE enrollment. Exclusively graduate - Fall enrollment data includes only graduate students enrolled. * FTE: Full-time equivalent enrollment was calculated as full-time headcount plus one-third part-time headcount. Classifications are time-specific snapshots of institutional attributes and behavior based on 2013-14 data. For the methodology used go to http://carnegieclassifications.iu.edu/definitions.php

C15IPGRD

Carnegie Classification 2015: Graduate Instructional Program

Storage: string | Stata name: C15IPGRD | Observed years: 2015-2017 | Nulls: 119,390

Definitions by release year

2015-2017: Carnegie Classification 2015: Graduate Instructional Program

Graduate and Instructional Program classification examines the nature of graduate education, with a special focus on the mix of graduate programs across fields of study. In this classification, a single graduate-level degree qualifies an institution for inclusion. For more information regarding how this classification is calculated, please see the Graduate Instructional Program Methodology. The classification is based on the level of graduate degrees awarded (master's degrees, and doctoral degrees categorized as either research/scholarship, professional practice, or other doctorate), the number of fields represented by the degrees awarded, and the mix or concentration of degrees by broad disciplinary domain. The classification has two parts: one for institutions that award at least one research/scholarship doctoral degrees (hereinafter referred to as research doctoral degrees), and one postbaccalaureate degree-granting institutions that either offer only master's degrees or that also offer professional practice or other doctoral degrees (based on the record of degree conferrals, not program offerings). Within each group, institutions are classified respect to the breadth of graduate offerings and the concentration of degrees in certain fields or combinations of fields. For two categories of institutions offering research doctorates, institutions offering medical education (defined as human or veterinary medical education, including allopathic medicine, osteopathic medicine, dentistry, and veterinary medicine) were distinguished. Institutions in other categories may also offer medical education, but the numbers were not large enough to justify subcategories, and judged it preferable to differentiate with respect to the other graduate fields, rather than with respect to the presence or absence of medical education. NOTE: Because a single research doctoral degree (as defined in the IPEDS data collection of the National Center for Education Statistics) qualifies an institution for inclusion in the doctoral categories, institutions with large master's or professional programs and modest doctoral-level programs are currently classified according to their doctoral programs. Classifications are time-specific snapshots of institutional attributes and behavior based on 2013-14 data. For specific detail on each classification category and the methodology used go to http://carnegieclassifications.iu.edu/definitions.php

Definitions by release year

2015-2017: Carnegie Classification 2015: Undergraduate Instructional Program

The Undergraduate Instructional Program Classification focuses attention on undergraduate education, regardless of the presence or extent of graduate education. Undergraduate education is an essential component of what most colleges and universities do, as the vast majority of U.S. institutions of higher education teach undergraduates. Indeed, even at institutions with strongcommitments to graduate education and the production of new knowledge through research and scholarship, the undergraduate program usually accounts for the majority of student enrollment. For specific information regarding how this classification is calculated, please see the Undergraduate Instructional Program Methodology. The Undergraduate Instructional Program Classification is based on three pieces of information: the level of undergraduate degrees awarded (associate's or bachelor's), the proportion of bachelor's degree majors in the arts and sciences, in professional fields, and in career & technical fields for two-year institutions, and the extent to which an institution awards graduate degrees in the same fields in which it awards undergraduate degrees. All categories in this classification are determined using degree conferral data from the update year (2013-2014). The distinction between arts and sciences and professional baccalaureate majors is one that has been made in the Classification since 1987 (but only for undergraduate colleges), and researchers and others in the higher education community have also made similar distinctions. We are extending and elaborating the previous analysis by (1) applying it to almost all baccalaureate-level institutions, (2) making finer distinctions along the arts & sciences – professions continuum, and (3) recognizing a "middle ground" where the two domains exist in relative balance with respect to graduating students' major concentrations. With the 2015 update, The designation of career & technical programs was added. These are defined as professional fields (per the baccalaureate designation), in which 75% or more of the awards nationally are at the associate's level or lower (certificate programs of less than two-years duration) A high concentration of majors in the arts and sciences is not the same as a liberal arts education, and we do

not view any particular location on this continuum as the special province of liberal education. Examples of high-quality liberal education exist across the spectrum. Some institutions enroll no graduate students. Others may have graduate programs that operate relatively independently of the undergraduate program (such as a law school). Still others offer graduate education in most or all fields where they have undergraduate programs, and, of course, some institutions fall between these extremes. By examining the number of undergraduate fields in which we also see graduate degrees (as determined by overlap in the Department of Education CIP* codes under which baccalaureate and graduate degrees are recorded), we can locate institutions along this continuum of undergraduate-graduate "coexistence." Departments that teach only undergraduates can differ in many ways from those that also train graduate students. Examples of such differences include faculty activities and instructional resources. It is important to emphasize that these continua (arts & sciences – professions or graduate coexistence) were viewed as signifying gradations in value or quality. Classifications are time-specific snapshots of institutional attributes and behavior based on 2013-14 data. For specific detail on each classification category and the methodology used go to http://carnegieclassifications.iu.edu/definitions.php

C15SZSET

Carnegie Classification 2015: Size and Setting

Storage: string | Stata name: C15SZSET | Observed years: 2015-2017 | Nulls: 119,390

Definitions by release year

2015-2017: Carnegie Classification 2015: Size and Setting

The Size and Setting Classification describes institutions' size (student population) and residential character. Because residential character applies to the undergraduate student body, exclusively graduate institutions are not included. For detailed information regarding how this classification is calculated, please see the Size and Setting Methodology. Size matters. It is related to institutional structure, complexity, culture, finances, and other factors. Residential or nonresidential character reflects aspects of the campus environment, student population served, and the mix of programs and services that an institution provides. Four-year institutions are divided into four categories of full-time equivalent (FTE*) enrollment and three categories of residential character. Neither characteristic implies differences in the quality of undergraduate education, but an institution's location along the two continua generally corresponds to a distinctive mix of educational challenges and opportunities. Because few two-yearinstitutions serve a residential population, these institutions are classified solely based on FTE enrollment. The residential character measure is based on two attributes: the proportion of degree-seeking undergraduates who attend full-time and the proportion living in institutionally-owned, -operated, or -affiliated housing. It is important to note the variety of situations of students who do not live in college or university housing. Some are true "commuting" students, while others may live with other students in rental housing on the periphery of campus, and still others are distance education students who rarely or never set foot on a campus. A chart illustrating the residential character categories can be found here. * FTE: Full-time equivalent enrollment was calculated as full-time plus one-third part-time. ** On campus is defined as institutionally-owned, -controlled, or -affiliated housing. Classifications are time-specific snapshots of institutional

attributes and behavior based on 2013-14 data. For specific detail on each classification category and the methodology used go to http://carnegieclassifications.iu.edu/definitions.php

C15UGPRF

Carnegie Classification 2015: Undergraduate Profile

Storage: string | Stata name: C15UGPRF | Observed years: 2015-2017 | Nulls: 119,390

Definitions by release year

2015-2017: Carnegie Classification 2015: Undergraduate Profile

The Undergraduate Profile Classification describes the undergraduate population with respect to three characteristics: the proportion of undergraduate students who attend part- or full-time; background academic achievement characteristics of first-year, first-time students; and the proportion of entering students who transfer in from another institution. Each of these captures important differences in the nature of the undergraduate population. They do not imply differences in the quality of undergraduate education, but they have implications for how an institution serves its students. Please see the Undergraduate Profile Methodology for more detail regarding how this classification was calculated. Some institutions serve a primarily full-time student population, while others serve large numbers of students who attend part-time due to substantial work and family commitments outside school. These differences have implications for the scheduling of classes, student services, extracurricular activities, time to degree, and other factors. Part-time students also tend to be older than full-time students, and older students bring more life experience and maturity into the classroom, often accompanied by different motivations for learning compared with those who have not spent any appreciable time away from formal education. Older students also generally face special challenges related to the competing obligations of school, work, and family. For two-year colleges, the proportion of students enrolled part-time is based on all undergraduates. For four-year institutions, it is based on degree-seeking undergraduates. Entrance examination (SAT or ACT) scores describe—with notable limitations—the academic preparation of entering first-year students, which in turn corresponds to the selectivity of undergraduate admissions. Although we do not take this as a gauge of institutional quality, admissions test scores and selectivity are widely used by institutions, academic researchers, and others in determining the comparability of colleges and universities. For all the criticisms of standardized tests, they provide the only comparable, widely available metric for students' prior academic preparation and achievement. Average institution-level entering test scores are also highly correlated with

institutional-level graduation rates (typically around r=0.85). A measure of transfer origin identifies institutions where many undergraduates enter as first-year students and progress to graduation, as compared with those where an appreciable number of students begin their college careers elsewhere. Serving larger numbers of transfer students has a number of implications, such as the planning and assessment of general education, student advising, the structure of majors, and so on. At schools admitting large numbers of transfer students, test score data based on the first-time first-year population may not adequately describe the undergraduate population as a whole. For some institutions, analysis of aggregate student enrollments in the Undergraduate Profile Classification can conceal the fact that two distinct programs and student populations are included. These institutions offer relatively distinct undergraduate programs—one serves a student body consisting of recent high school graduates who typically attend full-time and who reside on or close to campus (often living with other students), while the other program focuses on degree completion for returning students. Students in degree completion programs typically have families and full-time jobs, and they may attend part-time and commute to school or enroll online. For such institutions, the undergraduate profile classification may not accurately characterize either program. Classifications are time-specific snapshots of institutional attributes and behavior based on 2013-14 data. For specific detail on each classification category and the methodology used go to http://carnegieclassifications.iu.edu/definitions.php

C18BASIC

Carnegie Classification 2018: Basic

Storage: string | Stata name: C18BASIC | Observed years: 2018-2023 | Nulls: 103,147

Definitions by release year

2018-2023: Carnegie Classification 2018: Basic

The Basic Classification is an update of the traditional classification framework developed by the Carnegie Commission on Higher Education in 1970 to support its research program. The Basic Classification was originally published for public use in 1973, and subsequently updated in 1976, 1987, 1994, 2000, 2005, 2010, 2015 and 2018. In the 2018 update, the Doctoral Universities have been reshaped to better accommodate “Doctor's degree – professional practice” within our methodology. Please see the Basic Classification Methodology for details regarding how this classification is calculated. Doctoral universities - Includes institutions that awarded at least 20 research/scholarship doctoral degrees during the update year and also institutions with below 20 research/scholarship doctoral degrees that awarded at least 30 professional practice doctoral degrees in at least 2 programs. Excludes Special Focus Institutions and Tribal Colleges. The first two categories include only institutions that awarded at least 20 research/scholarship doctoral degrees and had at least $5 million in total research expenditures (as reported through the National Science Foundation (NSF) Higher Education Research & Development Survey (HERD)). R1: Doctoral Universities – Very high research activity R2: Doctoral Universities – High research activity D/PU: Doctoral/Professional Universities Master's Colleges and Universities - Generally includes institutions that awarded at least 50 master's degrees and fewer than 20 doctoral degrees during the update year (with occasional exceptions – see Methodology). Excludes Special Focus Institutions and Tribal Colleges. Baccalaureate Colleges - Includes institutions where baccalaureate or higher degrees represent at least 50 percent of all degrees but where fewer than 50 master's degrees or 20 doctoral degrees were awarded during the update year. (Some institutions above the master's degree threshold are also included; see Methodology.) Excludes Special Focus Institutions and Tribal Colleges. Baccalaureate/Associate's Colleges - Includes four-year colleges (by virtue of having at least one baccalaureate degree program) that conferred more than 50 percent of degrees at the associate's level. Excludes Special Focus Institutions and Tribal Colleges. Associate's Colleges - Institutions at which the highest level degree awarded is an associate's degree. The institutions are sorted into nine categories based on the intersection of two factors: disciplinary focus (transfer, career & technical or mixed) and dominant student type (traditional, nontraditional or mixed). Excludes Special Focus Institutions and Tribal Colleges. Special Focus Institutions- Institutions where a high concentration of

degrees is in a single field or set of related fields. Excludes Tribal Colleges. Tribal Colleges - Colleges and universities that are members of the American Indian Higher Education Consortium, as identified in IPEDS Institutional Characteristics. Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. The methodology can be found at http://carnegieclassifications.iu.edu/definitions.php.

2018-2020: Carnegie Classification 2018: Enrollment Profile

Enrollment Profile Classification provides a bird's eye view of the student population by grouping institutions according to the mix of students enrolled at the undergraduate and graduate levels. Exclusively undergraduate institutions are further disaggregated by level (two-year and four-year). For institutions with both undergraduate and graduate students, institutions are grouped according to the distribution of full-time equivalent (FTE*) students across the two levels, giving an approximate measure of the student population's "center of gravity." As a result, it reflects important differences with respect to educational mission as well as institutional climate and culture—differences that can have implications for infrastructure, services, and resource allocation. For more information regarding how this classification is calculated, go to http://carnegieclassifications.iu.edu/definitions.php. Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. Exclusively undergraduate two-year - Only undergraduates enrolled at these associate's degree granting institutions. Exclusively undergraduate four-year - Only undergraduates enrolled at these bachelor's or higher degree granting institutions. Very high undergraduate - Undergraduate and graduate students enrolled, with the latter group accounting for less than 10 % of FTE* enrollment. High undergraduate - Undergraduate and graduate students enrolled, with the latter group accounting for 10–24 % of FTE* enrollment. Majority undergraduate - Undergraduate and graduate students enrolled, with the latter group accounting for 25–49 % of FTE* enrollment. Majority graduate - Undergraduate and graduate students enrolled, with the latter group accounting for at least half of FTE* enrollment. Exclusively graduate - Only graduate students enrolled. *FTE: Full-time equivalent enrollment was calculated as full-time headcount plus one-third part-time headcount.

Definitions by release year

2018-2020: Carnegie Classification 2018: Graduate Instructional Program

Graduate and Instructional Program classification examines the nature of graduate education, with a special focus on the mix of graduate programs across fields of study. In this classification, a single graduate-level degree qualifies an institution for inclusn The classification is based on the level of graduate degrees awarded (master's degrees, and doctoral degrees categorized as either research/scholarship, professional practice, or other doctorate), the number of fields represented by the degrees awarded, and the mix or concentration of degrees by broad disciplinary domain. The classification has two parts: one for institutions that award at least one research/scholarship doctoral degrees (hereinafter referred to as research doctoral degrees), and one postbaccalaureate degree-granting institutions that either offer only master's degrees or that also offer professional practice or other doctoral degrees (based on the record of degree conferrals, not program offerings). Within each group, institutions are classified respect to the breadth of graduate offerings and the concentration of degrees in certain fields or combinations of fields. For two categories of institutions offering research doctorates, institutions offering medical education (defined as human or veterinary medical education, including allopathic medicine, osteopathic medicine, dentistry, and veterinary medicine) were distinguished. Institutions in other categories may also offer medical education, but the numbers were not large enough to justify subcategories, and judged it preferable to differentiate with respect to the other graduate fields, rather than with respect to the presence or absence of medical education. NOTE: Because a single research doctoral degree (as defined in the IPEDS data collection of the National Center for Education Statistics) qualifies an institution for inclusion in the doctoral categories, institutions with large master's or professional programs and modest doctoral-level programs are currently classified according to their doctoral programs. The categories are listed below. The term "comprehensive" is used here to denote comprehensiveness of offerings across a range of fields. Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. For the methodology, go to http://carnegieclassifications.iu.edu/definitions.php Postbaccalaureate: Single program - Education - Awarded master's or professional practice/other doctoral degrees in education as their only postbaccalaureate program. Postbaccalaureate: Single program - Business - Awarded master's or professional practice/other doctoral degrees in business as their only postbaccalaureate program. Postbaccalaureate: Single program - Other - Awarded master's or professional practice/other doctoral degrees in a single field other than education or business as their only postbaccalaureate program. Postbaccalaureate: Comprehensive programs - Awarded at least one master's degree or professional practice/other doctoral degrees in each of the humanities, social sciences, and STEM* fields, as well as such graduate degrees in one or more professional fields. Postbaccalaureate: Arts & sciences-dominant - Awarded master's or professional practice/other doctoral degrees in some arts and sciences fields. They may also award master's or non-research doctoral degrees in other fields, but in lesser numbers. Postbaccalaureate: Education-dominant, with arts & sciences - Awarded master's or professional practice/other doctoral degrees in both arts and sciences and professional fields, and the field with the largest number of such graduate degrees was education. Postbaccalaureate: Business-dominant, with arts & sciences - Awarded master's or professional practice/other doctoral degrees in both arts and sciences and professional fields, and the field with the largest number of such graduate degrees was business. Postbaccalaureate: Other-dominant, with arts & sciences - Awarded master's or professional practice/other doctoral degrees in both arts and sciences and professional fields, and the field with the largest number of such graduate degrees was a professional field other than business or education.

Postbaccalaureate: Education-dominant, with other professional programs - Awarded master's or professional practice/other doctoral degrees in professional fields only, and the field with the largest number of such graduate degrees was education. Postbaccalaureate: Business-dominant, with other professional programs - Awarded master's or professional practice/other doctoral degrees in professional fields only, and the field with the largest number of such graduate degrees was business. Postbaccalaureate: Other-dominant, with other professional programs - Awarded master's or professional practice/other doctoral degrees in professional fields only, and the field with the largest number of such graduate degrees was a field other than business or education. Research Doctoral: Single program - Education - Awarded research doctoral degrees in education but not in other fields (they may have more extensive offerings at the master's or professional practice/other doctoral level). Research Doctoral: Single program - Other - Awarded research doctoral degrees in a single field other than education (they may have more extensive offerings at the master's or professional practice/other doctoral level). Research Doctoral: Comprehensive programs, with medical/veterinary school - Awarded research doctoral degrees in the humanities, social sciences, and STEM* fields, as well as in medicine, dentistry, and/or veterinary medicine. They also offer may also offer master's and professional practice/other doctoral degrees in other fields. Research Doctoral: Comprehensive programs, no medical/veterinary school - Awarded research doctoral degrees in the humanities, social sciences, and STEM* fields. They may also offer master's or professional practice/other degrees in fields other than medicine, dentistry, or veterinary medicine. Research Doctoral: Humanities/social sciences-dominant - Awarded research doctoral degrees in a range of fields, with the largest number of research doctorates in the humanities or social sciences. Research Doctoral: STEM-dominant - Awarded research doctoral degrees in a range of fields, with the largest number of research doctorates in the STEM* fields. Research Doctoral: Professional-dominant - Awarded research doctoral degrees in a range of fields, and the largest number of research doctorates were in professions other than engineering (such as education, health professions, law, public policy, or social work). * STEM: Science, technology, engineering, and mathematics.

C18IPUG

Carnegie Classification 2018: Undergraduate Instructional Program

Storage: string | Stata name: C18IPUG | Observed years: 2018-2020 | Nulls: 121,855

Definitions by release year

2018-2020: Carnegie Classification 2018: Undergraduate Instructional Program

The Undergraduate Instructional Program Classification focuses attention on undergraduate education, regardless of the presence or extent of graduate education. Undergraduate education is an essential component of what most colleges and universities do, as the vast majority of U.S. institutions of higher education teach undergraduates. Indeed, even at institutions with strong commitments to graduate education and the production of new knowledge through research and scholarship, the undergraduate program usually accounts for the majority of student enrollment. For the full definition and methodology, go to http://carnegieclassifications.iu.edu/definitions.php Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. Associate's Colleges, High Transfer - Awarded associate's degrees but no bachelor's degrees with fewer than 30% of awards (degrees and certificates) in career & technical programs. Associate's Colleges, Mixed Transfer/Career & Technical - Awarded associate's degrees but no bachelor's degrees with 30-49% of awards (degrees and certificates) in career & technical programs. Associate's Colleges, High Career & Technical - Awarded associate's degrees but no bachelor's degrees with more than 50% of awards (degrees and certificates) in career & technical programs. Special Focus Two-Year Institutions - Awarded associate's degrees but no bachelor's degrees with typically more than 75% of awards in a single career & technical program. Baccalaureate/Associate's Colleges - Awarded both associate's and bachelor's degrees, but the majority of degrees awarded were at the associate's level. Arts & sciences focus, no graduate coexistence - At least 80 % of bachelor's degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. Arts & sciences focus, some graduate coexistence - At least 80 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in up to half of

the fields corresponding to undergraduate majors. Arts & sciences focus, high graduate coexistence - At least 80 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Arts & sciences plus professions, no graduate coexistence - 60–79 % of bachelor's degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. Arts & sciences plus professions, some graduate coexistence - 60–79 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Arts & sciences plus professions, high graduate coexistence - 60–79 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Balanced arts & sciences/professions, no graduate coexistence - Bachelor's degrees awarded were relatively balanced between arts and sciences and professional fields (41–59 % in each), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Balanced arts & sciences/professions, some graduate coexistence -Bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 % in each), and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Balanced arts & sciences/professions, high graduate coexistence - Bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 % in each), and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Professions plus arts & sciences, no graduate coexistence - 60–79 % of bachelor's degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Professions plus arts & sciences, some graduate coexistence - 60–79 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Professions plus arts & sciences, high graduate coexistence - 60–79 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Professions focus, no graduate coexistence - At least 80 % of bachelor's degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Professions focus, some graduate coexistence - At least 80 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Professions focus, high graduate coexistence - At least 80 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors.

C18SZSET

Carnegie Classification 2018: Size and Setting

Storage: string | Stata name: C18SZSET | Observed years: 2018-2020 | Nulls: 121,855

Definitions by release year

2018-2020: Carnegie Classification 2018: Size and Setting

The Size and Setting Classification describes institutions' size (student population) and residential character. Because residential character applies to the undergraduate student body, exclusively graduate institutions are not included. For the full definition and methodology go to http://carnegieclassifications.iu.edu/definitions.php. Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. Two year Very small - FTE* enrollment of fewer than 500 students at these associate's degree granting institutions. Small - FTE* enrollment of 500–1,999 students at these associate's degree granting institutions. Medium - FTE* enrollment of 2,000–4,999 students at these associate's degree granting institutions. Large - FTE* enrollment of 5,000–9,999 students at these associate's degree granting institutions. Very large - FTE* enrollment of at least 10,000 students at these associate's degree granting institutions. Four-year Very small Primarily nonresidential - FTE* enrollment of fewer than 1,000 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Very small Primarily residential - FTE* enrollment of fewer than 1,000 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Very small Highly residential - FTE* enrollment of fewer than 1,000 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Small Primarily nonresidential - FTE* enrollment of 1,000–2,999 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of

degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Small Primarily residential - FTE* enrollment of 1,000–2,999 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Small Highly residential - FTE* enrollment of 1,000–2,999 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Medium Primarily nonresidential - FTE* enrollment of 3,000–9,999 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Medium Primarily residential - FTE* enrollment of 3,000–9,999 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Medium Highly residential - FTE* enrollment of 3,000–9,999 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Large Primarily nonresidential - FTE* enrollment of at least 10,000 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Large Primarily residential - FTE* enrollment of at least 10,000 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Large Highly residential - FTE* enrollment of at least 10,000 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Exclusively graduate/professional - Fall enrollment data indicate that there are no undergraduates enrolled at these institutions. All enrolled students are in graduate-level programs. *FTE: Full-time equivalent enrollment was calculated as full-time plus one-third part-time. **On campus is defined as institutionally-owned, -controlled, or -affiliated housing.

C18UGPRF

Carnegie Classification 2018: Undergraduate Profile

Storage: string | Stata name: C18UGPRF | Observed years: 2018-2020 | Nulls: 121,855

Definitions by release year

2018-2020: Carnegie Classification 2018: Undergraduate Profile

The Undergraduate Profile Classification describes the undergraduate population with respect to three characteristics: the proportion of undergraduate students who attend part- or full-time; background academic achievement characteristics of first-year, first-time students; and the proportion of entering students who transfer in from another institution. Each of these captures important differences in the nature of the undergraduate population. They do not imply differences in the quality of undergraduate education, but they have implications for how an institution serves its students. Please see the Undergraduate Profile Methodology for more detail regarding how this classification was calculated at http://carnegieclassifications.iu.edu/definitions.php. Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. Two-year Higher part-time - 60 percent of undergraduates are enrolled part-time at these associate's degree granting institutions. Mixed part/full-time - 40–59 percent of undergraduates are enrolled part-time at these associate's degree granting institutions. Medium full-time - 10–39 percent of undergraduates are enrolled part-time at these associate's degree granting institutions. Higher full-time - Less than 10 percent of undergraduates enrolled part-time at these associate's degree granting institutions. Four-year Higher part-time - At least 40 percent of undergraduates are enrolled part-time at these bachelor's or higher degree granting institutions. Medium full-time, inclusive, lower transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. Fewer than 20 percent of entering undergraduates are transfer students.

Medium full-time, inclusive, higher transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. At least 20 percent of entering undergraduates are transfer students. Medium full-time, selective or more selective, lower transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective or more selective in admissions. Fewer than 20 percent of entering undergraduates are transfer students. Medium full-time, selective or more selective, higher transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective or more selective in admissions. At least 20 percent of entering undergraduates are transfer students. Full-time, inclusive, lower transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. Fewer than 20 percent of entering undergraduates are transfer students. Full-time, inclusive, higher transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. At least 20 percent of entering undergraduates are transfer students. Full-time, selective, lower transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective in admissions (40th to 80th percentile of selectivity among all baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. Full-time, selective, higher transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective in admissions (40th to 80th percentile of selectivity among all baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. Full-time, more selective, lower transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are more selective in admissions (80th to 100th percentile of selectivity among all baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. Full-time, more selective, higher transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are more selective in admissions (80th to 100th percentile of selectivity among all baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students.

C21BASIC

Carnegie Classification 2021: Basic

Storage: string | Stata name: C21BASIC | Observed years: 2021-2023 | Nulls: 123,003

Definitions by release year

2021-2023: Carnegie Classification 2021: Basic

The Basic Classification is an update of the traditional classification framework developed by the Carnegie Commission on Higher Education in the early 1970s to support its research program. The Basic Classification was originally published for public use in 1973, and subsequently updated in 1976, 1987, 1994, 2000, 2005, 2010, 2015, 2018 and 2021. The 2021 update includes only minor changes. Specifically, the label “Tribal Colleges” has been changed back?to “Tribal Colleges and Universities”. In addition, there is a newly created category “Special Focus Research?Institution”, comprised of the special focus?institutions?that meet the criteria for being considered a “Research University” but confer degrees in a limited range of academic programs. Additionally, the special focus categories of “Engineering Schools” and “Other Technology-Related Schools” have been combined into a single category. Classifications are time-specific snapshots of institutional attributes and behavior based on 2019-20 data. For the full definition and methodology go to https://carnegieclassifications.acenet.edu/classification_descriptions/basic.php Doctoral universities - Includes institutions that awarded at least 20 research/scholarship doctoral degrees during the update year and also institutions with below 20 research/scholarship doctoral degrees that awarded at least 30 professional practice doctoral degrees in at least 2 programs. Excludes Special Focus Institutions and Tribal Colleges. The first two categories include only institutions that awarded at least 20 research/scholarship doctoral degrees and had at least $5 million in total research expenditures (as reported through the National Science Foundation (NSF) Higher Education Research & Development Survey (HERD)). R1: Doctoral Universities – Very high research activity R2: Doctoral

Universities – High research activity D/PU: Doctoral/Professional Universities Master's Colleges and Universities - Generally includes institutions that awarded at least 50 master's degrees and fewer than 20 doctoral degrees during the update year (with occasional exceptions – see Methodology). Excludes Special Focus Institutions and Tribal Colleges. Baccalaureate Colleges - Includes institutions where baccalaureate or higher degrees represent at least 50 percent of all degrees but where fewer than 50 master's degrees or 20 doctoral degrees were awarded during the update year. (Some institutions above the master's degree threshold are also included; see Methodology.) Excludes Special Focus Institutions and Tribal Colleges. Baccalaureate/Associate's Colleges - Includes four-year colleges (by virtue of having at least one baccalaureate degree program) that conferred more than 50 percent of degrees at the associate's level. Excludes Special Focus Institutions and Tribal Colleges. Associate's Colleges - Institutions at which the highest level degree awarded is an associate's degree. The institutions are sorted into nine categories based on the intersection of two factors: disciplinary focus (transfer, career & technical or mixed) and dominant student type (traditional, nontraditional or mixed). Excludes Special Focus Institutions and Tribal Colleges. Special Focus Institutions- Institutions where a high concentration of degrees is in a single field or set of related fields. Excludes Tribal Colleges. Tribal Colleges - Colleges and universities that are members of the American Indian Higher Education Consortium, as identified in IPEDS Institutional Characteristics. Classifications are time-specific snapshots of institutional attributes and behavior based on 2016-17 data. The methodology can be found at http://carnegieclassifications.iu.edu/definitions.php.

Definitions by release year

2021-2023: Carnegie Classification 2021: Enrollment Profile

Enrollment Profile Classification provides a bird's eye view of the student population by grouping institutions according to the mix of students enrolled at the undergraduate and graduate levels. Exclusively undergraduate institutions are further disaggregated by level (two-year and four-year). For institutions with both undergraduate and graduate students, institutions are grouped according to the distribution of full-time equivalent (FTE*) students across the two levels, giving an approximate measure of the student population's "center of gravity." As a result, it reflects important differences with respect to educational mission as well as institutional climate and culture—differences that can have implications for infrastructure, services, and resource allocation. For more information regarding how this classification is calculated, go to https://carnegieclassifications.acenet.edu/classification_descriptions/enrollment_profile.php. Classifications are time-specific snapshots of institutional attributes and behavior based on 2019-20 data. Exclusively undergraduate two-year - Only undergraduates enrolled at these associate's degree granting institutions. Exclusively undergraduate four-year - Only undergraduates enrolled at these bachelor's or higher degree granting institutions. Very high undergraduate - Undergraduate and graduate students enrolled, with the latter group accounting for less than 10 % of FTE* enrollment. High undergraduate - Undergraduate and graduate students enrolled, with the latter group accounting for 10–24 % of FTE* enrollment. Majority undergraduate - Undergraduate and graduate students enrolled, with the latter group accounting for 25–49 % of FTE* enrollment. Majority graduate - Undergraduate and graduate students enrolled, with the latter group accounting for at least half of FTE* enrollment. Exclusively graduate - Only graduate students enrolled. *FTE: Full-time equivalent enrollment was calculated as full-time headcount plus one-third part-time headcount.

C21IPGRD

Carnegie Classification 2021: Graduate Instructional Program

Storage: string | Stata name: C21IPGRD | Observed years: 2021-2023 | Nulls: 123,003

Definitions by release year

2021-2023: Carnegie Classification 2021: Graduate Instructional Program

Graduate Instructional Program classification examines the nature of graduate education, with a special focus on the mix of graduate programs across fields of study. In this classification, a single graduate-level degree qualifies an institution for inclusion. The classification is based on the level of graduate degrees awarded (master's degrees, and doctoral degrees categorized as either research/scholarship, professional practice, or other doctorate), the number of fields represented by the degrees awarded, and the mix or concentration of degrees by broad disciplinary domain. The classification has two parts: one for institutions that award at least one research/scholarship doctoral degrees (hereinafter referred to as research doctoral degrees), and one postbaccalaureate degree-granting institutions that either offer only master's degrees or that also offer professional practice or other doctoral degrees (based on the record of degree conferrals, not program offerings). Within each group, institutions are classified respect to the breadth of graduate offerings and the concentration of degrees in certain fields or combinations of fields. For two categories of institutions offering research doctorates, institutions offering medical education (defined as human or veterinary medical education, including allopathic medicine, osteopathic medicine, dentistry, and veterinary medicine) were distinguished. Institutions in other categories may also offer medical education, but the numbers were not large enough to justify subcategories, and judged it preferable to differentiate with respect to the other graduate fields, rather than with respect to the presence or absence of medical education. NOTE: Because a single research doctoral degree (as defined in the IPEDS data collection of the National Center for Education Statistics) qualifies an institution for inclusion in the doctoral categories, institutions with large master's or professional programs and modest doctoral-level programs are currently classified according to their doctoral programs. The categories are listed below. The term "comprehensive" is used here to denote comprehensiveness of offerings across a range of fields. Classifications are time-specific snapshots of institutional attributes and behavior based on 2019-20 data. For the methodology, go to https://carnegieclassifications.acenet.edu/classification_descriptions/grad_program.php Postbaccalaureate: Single program - Education - Awarded master's or professional practice/other doctoral degrees in education as their only postbaccalaureate program. Postbaccalaureate: Single program - Business - Awarded master's or professional practice/other doctoral degrees in business as their only postbaccalaureate program. Postbaccalaureate: Single program - Other - Awarded master's or professional practice/other doctoral degrees in a single field other than education or business as their only postbaccalaureate program. Postbaccalaureate: Comprehensive programs - Awarded at least one master's degree or professional practice/other doctoral degrees in each of the humanities, social sciences, and STEM* fields, as well as such graduate degrees in one or more professional fields. Postbaccalaureate: Arts & sciences-dominant - Awarded master's or professional practice/other doctoral degrees in some arts and sciences fields. They may also award master's or non-research doctoral degrees in other fields, but in lesser numbers. Postbaccalaureate: Education-dominant, with arts & sciences - Awarded master's or professional practice/other doctoral degrees in both arts and sciences and professional fields, and the field with the largest number of such graduate degrees was education. Postbaccalaureate: Business-dominant, with arts & sciences - Awarded master's or professional practice/other doctoral degrees in both arts and sciences and professional fields, and the field with the largest number of such graduate degrees was business. Postbaccalaureate: Other-dominant, with arts & sciences - Awarded master's or professional practice/other doctoral degrees in both arts and sciences and professional fields, and the field with the largest number of such graduate degrees was a professional field other than business or education. Postbaccalaureate: Education-dominant, with other professional programs - Awarded master's or professional practice/other doctoral degrees in professional fields only, and the field with the largest number of such graduate degrees was education. Postbaccalaureate: Business-dominant, with other professional programs - Awarded master's or professional practice/other doctoral degrees in professional fields only, and the field with the largest number of such graduate degrees was business. Postbaccalaureate: Other-dominant, with other professional programs - Awarded master's or professional practice/other doctoral degrees in professional fields only, and the field with the largest number of such graduate degrees was a field other than business or education. Research Doctoral: Single program - Education - Awarded research doctoral degrees in education but not in other fields (they may have more extensive offerings at the master's or professional practice/other doctoral level). Research Doctoral: Single program - Other - Awarded research doctoral degrees in a single field other than education (they may have more extensive offerings at the master's or professional practice/other doctoral level). Research Doctoral: Comprehensive programs, with medical/veterinary school - Awarded research doctoral degrees in the humanities, social sciences, and STEM* fields, as well as in medicine, dentistry, and/or veterinary medicine. They also offer may also offer master's and professional practice/other doctoral degrees in other fields. Research Doctoral: Comprehensive programs, no medical/veterinary school - Awarded research doctoral degrees in the humanities, social sciences, and STEM* fields. They may also offer master's or professional practice/other degrees in fields other than medicine, dentistry, or

veterinary medicine. Research Doctoral: Humanities/social sciences-dominant - Awarded research doctoral degrees in a range of fields, with the largest number of research doctorates in the humanities or social sciences. Research Doctoral: STEM-dominant - Awarded research doctoral degrees in a range of fields, with the largest number of research doctorates in the STEM* fields. Research Doctoral: Professional-dominant - Awarded research doctoral degrees in a range of fields, and the largest number of research doctorates were in professions other than engineering (such as education, health professions, law, public policy, or social work). * STEM: Science, technology, engineering, and mathematics.

C21IPUG

Carnegie Classification 2021: Undergraduate Instructional Program

Storage: string | Stata name: C21IPUG | Observed years: 2021-2023 | Nulls: 123,003

Definitions by release year

2021-2023: Carnegie Classification 2021: Undergraduate Instructional Program

The Undergraduate Instructional Program Classification focuses attention on undergraduate education, regardless of the presence or extent of graduate education. Undergraduate education is an essential component of what most colleges and universities do, as the vast majority of U.S. institutions of higher education teach undergraduates. Indeed, even at institutions with strong commitments to graduate education and the production of new knowledge through research and scholarship, the undergraduate program usually accounts for the majority of student enrollment. For the full definition and methodology, go to https://carnegieclassifications.acenet.edu/classification_descriptions/ugrad_program.php Classifications are time-specific snapshots of institutional attributes and behavior based on 2019-20 data. Associate's Colleges, High Transfer - Awarded associate's degrees but no bachelor's degrees with fewer than 30% of awards (degrees and certificates) in career & technical programs. Associate's Colleges, Mixed Transfer/Career & Technical - Awarded associate's degrees but no bachelor's degrees with 30-49% of awards (degrees and certificates) in career & technical programs. Associate's Colleges, High Career & Technical - Awarded associate's degrees but no bachelor's degrees with more than 50% of awards (degrees and certificates) in career & technical programs. Special Focus Two-Year Institutions - Awarded associate's degrees but no bachelor's degrees with typically more than 75% of awards in a single career & technical program. Baccalaureate/Associate's Colleges - Awarded both associate's and bachelor's degrees, but the majority of degrees awarded were at the associate's level. Arts & sciences focus, no graduate coexistence - At least 80 % of bachelor's degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. Arts & sciences focus, some graduate coexistence - At least 80 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Arts & sciences focus, high graduate coexistence - At least 80 % of

bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Arts & sciences plus professions, no graduate coexistence - 60–79 % of bachelor's degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. Arts & sciences plus professions, some graduate coexistence - 60–79 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Arts & sciences plus professions, high graduate coexistence - 60–79 % of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Balanced arts & sciences/professions, no graduate coexistence - Bachelor's degrees awarded were relatively balanced between arts and sciences and professional fields (41–59 % in each), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Balanced arts & sciences/professions, some graduate coexistence -Bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 % in each), and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Balanced arts & sciences/professions, high graduate coexistence - Bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 % in each), and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Professions plus arts & sciences, no graduate coexistence - 60–79 % of bachelor's degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Professions plus arts & sciences, some graduate coexistence - 60–79 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Professions plus arts & sciences, high graduate coexistence - 60–79 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Professions focus, no graduate coexistence - At least 80 % of bachelor's degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Professions focus, some graduate coexistence - At least 80 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in up to half of the fields corresponding to undergraduate majors. Professions focus, high graduate coexistence - At least 80 % of bachelor's degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors.

C21SZSET

Carnegie Classification 2021: Size and Setting

Storage: string | Stata name: C21SZSET | Observed years: 2021-2023 | Nulls: 123,003

Definitions by release year

2021-2023: Carnegie Classification 2021: Size and Setting

The Size and Setting Classification describes institutions' size (student population) and residential character. Because residential character applies to the undergraduate student body, exclusively graduate institutions are not included. For the full definition and methodology go to https://carnegieclassifications.acenet.edu/classification_descriptions/size_setting.php. Classifications are time-specific snapshots of institutional attributes and behavior based on 2019-20 data. Two year Very small - FTE* enrollment of fewer than 500 students at these associate's degree granting institutions. Small - FTE* enrollment of 500–1,999 students at these associate's degree granting institutions. Medium - FTE* enrollment of 2,000–4,999 students at these associate's degree granting institutions. Large - FTE* enrollment of 5,000–9,999 students at these associate's degree granting institutions. Very large - FTE* enrollment of at least 10,000 students at these associate's degree granting institutions. Four-year Very small Primarily nonresidential - FTE* enrollment of fewer than 1,000 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Very small Primarily residential - FTE* enrollment of fewer than 1,000 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Very small Highly residential - FTE* enrollment of fewer than 1,000 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Small Primarily nonresidential - FTE* enrollment of 1,000–2,999

degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Small Primarily residential - FTE* enrollment of 1,000–2,999 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Small Highly residential - FTE* enrollment of 1,000–2,999 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Medium Primarily nonresidential - FTE* enrollment of 3,000–9,999 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Medium Primarily residential - FTE* enrollment of 3,000–9,999 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Medium Highly residential - FTE* enrollment of 3,000–9,999 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Large Primarily nonresidential - FTE* enrollment of at least 10,000 degree-seeking students at these bachelor's or higher degree granting institutions. Fewer than 25 % of degree-seeking undergraduates live on campus** and/or fewer than 50 % attend full time (includes exclusively distance education institutions). Large Primarily residential - FTE* enrollment of at least 10,000 degree-seeking students at these bachelor's or higher degree granting institutions. 25-49 % of degree-seeking undergraduates live on campus** and at least 50 % attend full time. Large Highly residential - FTE* enrollment of at least 10,000 degree-seeking students at these bachelor's or higher degree granting institutions. At least half of degree-seeking undergraduates live on campus** and at least 80 % attend full time. Exclusively graduate/professional - Fall enrollment data indicate that there are no undergraduates enrolled at these institutions. All enrolled students are in graduate-level programs. *FTE: Full-time equivalent enrollment was calculated as full-time plus one-third part-time. **On campus is defined as institutionally-owned, -controlled, or -affiliated housing.

C21UGPRF

Carnegie Classification 2021: Undergraduate Profile

Storage: string | Stata name: C21UGPRF | Observed years: 2021-2023 | Nulls: 123,003

Definitions by release year

2021-2023: Carnegie Classification 2021: Undergraduate Profile

The Undergraduate Profile Classification describes the undergraduate population with respect to three characteristics: the proportion of undergraduate students who attend part- or full-time; background academic achievement characteristics of first-year, first-time students; and the proportion of entering students who transfer in from another institution. Each of these captures important differences in the nature of the undergraduate population. They do not imply differences in the quality of undergraduate education, but they have implications for how an institution serves its students. Please see the Undergraduate Profile Methodology for more detail regarding how this classification was calculated at https://carnegieclassifications.acenet.edu/classification_descriptions/undergraduate_profile.php Classifications are time-specific snapshots of institutional attributes and behavior based on 2019-20 data. Two-year Higher part-time - 60 percent of undergraduates are enrolled part-time at these associate's degree granting institutions. Mixed part/full-time - 40–59 percent of undergraduates are enrolled part-time at these associate's degree granting institutions. Medium full-time - 10–39 percent of undergraduates are enrolled part-time at these associate's degree granting institutions. Higher full-time - Less than 10 percent of undergraduates enrolled part-time at these associate's degree granting institutions. Four-year Higher part-time - At least 40 percent of undergraduates are enrolled part-time at these bachelor's or higher degree granting institutions. Medium full-time, inclusive, lower transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational

opportunity to a wide range of students with respect to academic preparation and achievement. Fewer than 20 percent of entering undergraduates are transfer students. Medium full-time, inclusive, higher transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. At least 20 percent of entering undergraduates are transfer students. Medium full-time, selective or more selective, lower transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective or more selective in admissions. Fewer than 20 percent of entering undergraduates are transfer students. Medium full-time, selective or more selective, higher transfer-in - 60–79 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective or more selective in admissions. At least 20 percent of entering undergraduates are transfer students. Full-time, inclusive, lower transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. Fewer than 20 percent of entering undergraduates are transfer students. Full-time, inclusive, higher transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. At least 20 percent of entering undergraduates are transfer students. Full-time, selective, lower transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective in admissions (40th to 80th percentile of selectivity among all baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. Full-time, selective, higher transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are selective in admissions (40th to 80th percentile of selectivity among all baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. Full-time, more selective, lower transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are more selective in admissions (80th to 100th percentile of selectivity among all baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. Full-time, more selective, higher transfer-in - At least 80 percent of undergraduates are enrolled full-time at these bachelor's or higher degree granting institutions. Test score data for first-year students indicate that these institutions are more selective in admissions (80th to 100th percentile of selectivity among all baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students.

2004-2006, 2008-2015: Calendar system

What is the predominant calendar system at the institution? [Choose one] Standard academic terms Checking one of these systems determines that your institution will provide graduation rates data based on a FALL COHORT and student charges based on a FULL ACADEMIC YEAR Semester Quarter Trimester 4-1-4 or similar plan Other academic calendar Other calendar systems (for primarily occupational schools) Checking one of the following determines that your institution will provide graduation rates data based on a FULL YEAR COHORT and student charges data will be requested by PROGRAM. Differs by program Continuous basis (every 2 weeks, monthly, or other period) SEMESTER CALENDAR SYSTEM -A calendar system that consists of two semesters during the academic year with about 16 weeks for each semester of instruction. There may be an additional summer session. QUARTER CALENDAR SYSTEM - A calendar system in which the academic year consists of 3 sessions called quarters of about 12 weeks each. The range may be from 10 to 15 weeks. There may be an additional quarter in the summer TRIMESTER CALENDAR SYSTEM - An academic year consisting of 3 terms of about 15 weeks each. FOUR-ONE-FOUR PLAN - The 4-1-4 calendar consists of 4 courses taken for 4 months, 1 course taken for 1 month, and 4 courses taken for 4 months. There may be an additional summer session. OTHER ACADEMIC CALENDAR SYSTEM - Category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time". DIFFERS BY PROGRAM (CALENDAR SYSTEM) - A calendar system classification that is used by institutions that have occupational/vocational programs of varying lengths. These schools may enroll students at specific times depending on the program desired. For example, a school might offer a 2-month program in January, March, May, September, and November; and a 3-month program in January, April, and October. CONTINUOUS BASIS (FOR PROGRAM ENROLLMENT) - A calendar system classification that is used by institutions that enroll students at any time during the academic year. For example, a cosmetology school or a word processing school might allow students to enroll and begin studies at various times, with no requirement that classes begin on a certain date.

Definitions by release year

2004: Carnegie Classification Code

The 2000 Carnegie Classification includes all colleges and universities in the United States that are degree-granting and accredited by an agency recognized by the U.S. Secretary of Education. The 2000 edition classifies institutions based on their degree-granting activities from 1995-96 through 1997-98. 15 Doctoral/Research Universities--Extensive: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the doctorate. They award 50 or more doctoral degrees per year across at least 15 disciplines/2 16 Doctoral/Research Universities--Intensive: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the doctorate. They award at least ten doctoral degrees/1 per year across three or more disciplines,2 or at least 20 doctoral degrees per year overall. 21 Master’s Colleges and Universities I: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the master’s degree. They award 40 or more master’s degrees per year across three or more disciplines/2. 22 Master’s (Comprehensive) Colleges and Universities II: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the master’s degree. They award 20 or more master’s degrees per year. 31 Baccalaureate Colleges--Liberal Arts: These institutions are primarily undergraduate colleges with major emphasis on baccalaureate programs. They award at

least half of their baccalaureate degrees in liberal arts fields./3 32 Baccalaureate Colleges--General: These institutions are primarily undergraduate colleges with major emphasis on baccalaureate programs. They award less than half of their baccalaureate degrees in liberal arts fields./3 33 Baccalaureate/Associate's Colleges: These institutions are undergraduate colleges where the majority of conferrals are at the subbaccalaureate level (associate's degrees and certificates), but bachelor's degrees account for at least ten percent of undergraduate awards. 40 Associate's Colleges: These institutions offer associate's degree and certificate programs but, with few exceptions, award no baccalaureate degrees./4 Specialized Institutions - These institutions offer degrees ranging from the bachelor's to the doctorate, and typically award a majority of degrees in a single field. The list includes only institutions that are listed as separate campuses in the Higher Education Directory. Specialized institutions include: 51 Theological seminaries and other specialized faith-related institutions: These institutions primarily offer religious instruction or train members of the clergy. 52 Medical schools and medical centers: These institutions award most of their professional degrees in medicine. In some instances, they include other health professions programs, such as dentistry, pharmacy, or nursing. 53 Other separate health profession schools: These institutions award most of their degrees in such fields as chiropractic, nursing, pharmacy, or podiatry. 54 Schools of engineering and technology: These institutions award most of their bachelor's or graduate degrees in technical fields of study. 55 Schools of business and management: These institutions award most of their bachelor's or graduate degrees in business or business-related programs. 56 Schools of art, music, and design: These institutions award most of their bachelor's or graduate degrees in art, music, design, architecture, or some combination of such fields. 57 Schools of law: These institutions award most of their degrees in law. 58 Teachers colleges: These institutions award most of their bachelor's or graduate degrees in education or education-related fields. 59 Other specialized institutions: Institutions in this category include graduate centers, maritime academies, military institutes, and institutions that do not fit any other classification category. 60 Tribal Colleges and Universities: These colleges are, with few exceptions, tribally controlled and located on reservations. They are all members of the American Indian Higher Education Consortium. NOTES ON DEFINITIONS 1. Doctoral degrees are as defined in the Integrated Postsecondary Education Data System (IPEDS) of the U.S. Department of Education's National Center for Education Statistics (NCES). This includes the Ph.D. in any field as well as other doctoral-level degrees such as the Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health. It excludes doctoral-level degrees defined as first-professional degrees in IPEDS. For more information, see http://nces.ed.gov/ipeds. 2. Distinct disciplines are determined by the 4-digit series of the Classification of Instructional Programs published by NCES. For more information, see http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=91396. 3. Liberal arts fields include the following fields (as listed in the Classification of Instructional Programs): English language and literature/letters; foreign languages and literatures; biological sciences/life sciences; mathematics; philosophy and religion; physical sciences; psychology ; social sciences and history; visual and performing arts; area, ethnic, and cultural studies; liberal arts and sciences, general studies, and humanities; and multi/interdisciplinary studies. 4. This group includes community, junior, and technical colleges. Source: Carnegie Foundation

CBSA

Core Based Statistical Area (CBSA)

Storage: string | Stata name: CBSA | Observed years: 2007-2023 | Nulls: 21,000

Definitions by release year

2007-2019, 2021-2022: Core Based Statistical Area (CBSA)

Core Based Statistical Area (CBSA) - 5-digit code that identifies the Core Based Statistical Area,that an institution's address is associated with. If an institution is not associated with a CBSA the value of this variable is not applicable (-2). A CBSA is a geographic entity consisting of the county or counties associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties containing the core. Metropolitan and Micropolitan Statistical Areas are the two categories of Core Based Statistical Areas. Metropolitan Statistical Area - A Core Based Statistical Area associated with at least one urbanized area that has a population of at least 50,000. Micropolitan Statistical Area - A Core Based Statistical Area associated with at least one urban cluster that has a population of at least 10,000, but less than 50,000. To identify whether a CBSA is a Metropolitan Statistical Area or Micropolitan Statistical Area see variable CBSATYPE - CBSA Type Metropolitan or Micropolitan. For more information see http://www.whitehouse.gov/omb/inforeg/statpolicy.html#ms.

2020: Core Based Statistical Area (CBSA)

Core Based Statistical Area (CBSA) - 5-digit code that identifies the Core Based Statistical Area,that an institution's address is associated with. If an institution is not associated with a CBSA the value of this variable is not applicable (-2). A CBSA is a geographic entity consisting of the county or counties associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties containing the core. Metropolitan and Micropolitan Statistical Areas are the two categories of Core Based Statistical Areas. Metropolitan Statistical Area - A Core Based Statistical Area associated with at least one urbanized area that has a population of at least 50,000. Micropolitan Statistical Area - A Core Based Statistical Area associated with at least one urban cluster that has a population of at least 10,000, but less than 50,000. To identify whether a CBSA is a Metropolitan Statistical Area or Micropolitan Statistical Area see variable CBSATYPE - CBSA Type Metropolitan or Micropolitan. Geographic codes come from TIGER 2020. TIGER 2020 uses the U.S. Office of Management and Budget (OMB) updates to metropolitan and micropolitan delineations as of March 2020. For more information see http://www.whitehouse.gov/omb/inforeg/statpolicy.html#ms.

2023: Core Based Statistical Area (CBSA)

Core Based Statistical Area (CBSA) - 5-digit code that identifies the Core Based Statistical Area,that an institution's address is associated with. If an institution is not associated with a CBSA the value of this variable is not applicable (-2). A CBSA is a geographic entity consisting of the county or counties associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties containing the core. Metropolitan and Micropolitan Statistical Areas are the two categories of Core Based Statistical Areas. Metropolitan Statistical Area - A Core Based Statistical Area associated with at least one urbanized area that has a population of at least 50,000. Micropolitan Statistical Area - A Core Based Statistical Area associated with at least one urban cluster that has a population of at least 10,000, but less than 50,000. To identify whether a CBSA is a Metropolitan Statistical Area or Micropolitan Statistical Area see variable CBSATYPE - CBSA Type Metropolitan or Micropolitan. Metropolitan, micropolitan, and CSA codes are based on the U.S. Office of Management and Budget’s (OMB) 2020 Core Based Statistical Area standards updated as of July 21, 2023.

CBSATYPE

CBSA Type Metropolitan or Micropolitan

Storage: string | Stata name: CBSATYPE | Observed years: 2007-2023 | Nulls: 21,000

Definitions by release year

2007-2022: CBSA Type Metropolitan or Micropolitan

CBSA Type Metropolitan or Micropolitan - Indicates whether the CBSA is a metropolitan or micropolitan statistical area. Metropolitan Statistical Area - A Core Based Statistical Area associated with at least one urbanized area that has a population of at least 50,000. Micropolitan Statistical Area - A Core Based Statistical Area associated with at least one urban cluster that has a population of at least 10,000, but less than 50,000. For more information see http://www.whitehouse.gov/omb/inforeg/statpolicy.html#ms.

2023: CBSA Type Metropolitan or Micropolitan

CBSA Type Metropolitan or Micropolitan - Indicates whether the CBSA is a metropolitan or micropolitan statistical area. Metropolitan Statistical Area - A Core Based Statistical Area associated with at least one urbanized area that has a population of at least 50,000. Micropolitan Statistical Area - A Core Based Statistical Area associated with at least one urban cluster that has a population of at least 10,000, but less than 50,000. Metropolitan, micropolitan, and CSA codes are based on the U.S. Office of Management and Budget’s (OMB) 2020 Core Based Statistical Area standards updated as of July 21, 2023.

CCBASIC

[varies by year] Carnegie Classification 2005/2010: Basic

Storage: string | Stata name: CCBASIC | Observed years: 2005-2023 | Nulls: 6,930

Definitions by release year

2005-2009: Carnegie Classification 2005: Basic

Carnegie Classification 2005: Basic Classification The Basic Classification is an update of the traditional classification framework developed by the Carnegie Commission on Higher Education in 1970 to support its research program, and later published in 1973 for use by other researchers. Although this classification has undergone many changes over the years, the current release involves some significant changes from previous editions. Associate’s Colleges. Includes institutions where all degrees are at the associate's level, or where bachelor's degrees account for less than 10 percent of all undergraduate degrees. Excludes institutions eligible for classification as Tribal Colleges or Special Focus Institutions. Assoc/Pub-R-S: Associate’s—Public Rural-serving Small Assoc/Pub-R-M: Associate’s—Public Rural-serving Medium Assoc/Pub-R-L: Associate’s—Public Rural-serving Large Assoc/Pub-S-SC: Associate’s—Public Suburban-serving Single Campus Assoc/Pub-S-MC: Associate’s—Public Suburban-serving Multicampus Assoc/Pub-U-SC: Associate’s—Public Urban-serving Single Campus Assoc/Pub-U-MC: Associate’s—Public Urban-serving Multicampus Assoc/Pub-Spec: Associate’s—Public Special Use Assoc/PrivNFP: Associate’s—Private Not-for-profit Assoc/PrivFP: Associate’s—Private For-profit Assoc/Pub2in4: Associate’s—Public 2-year Colleges under Universities Assoc/Pub4: Associate’s—Public 4-year, Primarily Associate’s Assoc/PrivNFP4: Associate’s—Private Not-for-profit 4-year, Primarily Associate’s Assoc/PrivFP4: Associate’s—Private For-profit 4-year, Primarily Associate’s Doctorate-granting Universities. Includes institutions that award at least 20 doctoral degrees per year (excluding doctoral-level degrees that qualify recipients for entry into professional practice, such as the JD, MD, PharmD, DPT, etc.) Excludes Special Focus Institutions and Tribal Colleges. RU/VH: Research Universities (very high research activity) RU/H: Research Universities (high research activity) DRU: Doctoral/Research Universities Master’s Colleges and Universities. Includes institutions that award at least 50 master's degrees per year. Excludes Special Focus Institutions and Tribal Colleges. Master’s/L: Master’s Colleges and Universities (larger programs) Master’s/M: Master’s Colleges and Universities (medium programs) Master’s/S: Master’s Colleges and Universities (smaller programs) Baccalaureate Colleges. Includes institutions where baccalaureate degrees represent at least 10 percent of all undergraduate degrees and that award fewer than 50 master's degrees or fewer than 20 doctoral degrees per year. Excludes Special Focus Institutions and Tribal Colleges. Bac/A&S: Baccalaureate Colleges—Arts & Sciences Bac/Diverse: Baccalaureate Colleges—Diverse Fields Bac/Assoc: Baccalaureate/Associate’s Colleges Special Focus Institutions. Institutions awarding baccalaureate or

higher-level degrees where a high concentration of degrees is in a single field or set of related fields. Excludes Tribal Colleges. Spec/Faith: Theological seminaries, Bible colleges, and other faith-related institutions Spec/Medical: Medical schools and medical centers Spec/Health: Other health profession schools Spec/Engg: Schools of engineering Spec/Tech: Other technology-related schools Spec/Bus: Schools of business and management Spec/Arts: Schools of art, music, and design Spec/Law: Schools of law Spec/Other: Other special-focus institutions Tribal Colleges. Colleges and universities that are members of the American Indian Higher Education Consortium, as identified in IPEDS Institutional Characteristics. Tribal: Tribal Colleges For a complete description and technical details visit the Carnegie Foundation Website at www.carnegiefoundation.org/classifications/

2010-2014: Carnegie Classification 2010: Basic

Carnegie Classification 2010 Update: Basic Classification To ensure continuity of the classification framework and to allow comparison across years, the 2010 Classification update retains the same structure of six parallel classifications, initially adopted in 2005. They are as follows: Basic Classification (the traditional Carnegie Classification Framework), Undergraduate and Graduate Instructional Program classifications, Enrollment Profile and Undergraduate Profile classifications, and Size & Setting classification. These classifications provide different lenses through which to view U.S. colleges and universities, offering researchers greater analytic flexibility. These classifications are time-specific snapshots of institutional attributes and behavior based on data from 2008 to 2010. and collectively they depict the most current landscape of U.S. colleges and universities. Institutions might be classified differently using a different timeframe. Individual classifications are not updated with more recent data. ***Note- Carnegie classifications for IPEDS years 2005-2009, are the 2005 classifications, which were based on time-specific snapshots of institutional attributes and behavior based on data from 2003 to 2005. The Basic Classification is an update of the traditional classification framework developed by the Carnegie Commission on Higher Education in 1970 to support its research program, and later published in 1973 for use by other researchers. Although this classification has undergone many changes over the years, the current release involves some significant changes from previous editions. Associate’s Colleges. Includes institutions where all degrees are at the associate's level, or where bachelor's degrees account for less than 10 percent of all undergraduate degrees. Excludes institutions eligible for classification as Tribal Colleges or Special Focus Institutions. 2005-2009: Carnegie Classification 2005: Enrollment Profile

Carnegie Classification 2005: Enrollment Profile Classification By grouping institutions according to the mix of students enrolled at the undergraduate and graduate/professional levels, this classification provides a bird’s eye view of the student population. Exclusively undergraduate institutions are further broken down by level (two-year and four-year). For institutions with both undergraduate and graduate/professional students, institutions are grouped according to the distribution of full-time equivalent students across the two levels, giving an approximate measure of the student population’s “center of gravity.” As a result, it reflects important differences with respect to educational mission as well as institutional climate and culture—differences that can have implications for infrastructure, services, and resource allocation. The categories are as follows: ExU2: Exclusively undergraduate two-year. Fall enrollment data show only undergraduates enrolled, and at these associate’s degree granting institutions. ExU4: Exclusively undergraduate four-year. Fall enrollment data show only undergraduates enrolled, at these bachelor’s granting institutions. VHU: Very high undergraduate. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for less than 10 percent of FTE* enrollment. HU: High undergraduate. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for at least 10–24 percent of FTE enrollment. MU: Majority undergraduate. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for 25–49 percent of FTE enrollment. MGP: Majority graduate/professional. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for at least half of FTE enrollment. ExGP: Exclusively graduate/professional. Fall enrollment data show only graduate/professional students enrolled. * FTE: Full-time equivalent enrollment was calculated as full-time plus one-third part-time. Classifications are time-specific snapshots of institutional attributes and behavior based on data from 2003 and 2004. Institutions might be classified differently using a different timeframe. For a complete description and technical details visit the Carnegie Foundation Website at www.carnegiefoundation.org/classifications/

2010-2014: Carnegie Classification 2010: Enrollment Profile

Carnegie Classification 2010 Update: Enrollment Profile Classification To ensure continuity of the classification framework and to allow comparison across years, the 2010 Classification update retains the same structure of six parallel classifications, initially adopted in 2005. They are as follows: Basic Classification (the traditional Carnegie Classification Framework), Undergraduate and Graduate Instructional Program classifications, Enrollment Profile and Undergraduate Profile classifications, and Size & Setting classification. These classifications provide different lenses through which to view U.S. colleges and universities, offering researchers greater analytic flexibility. These classifications are time-specific snapshots of institutional attributes and behavior based on data from 2008 to 2010. and collectively they depict the most current landscape of U.S. colleges and universities. Institutions might be classified differently using a different timeframe. Individual classifications are not updated with more recent data. ***Note--Carnegie classifications for IPEDS years 2005-2009, are the 2005 classifications, which were based on time-specific snapshots of institutional attributes and behavior based on data from 2003 to 2005. By grouping institutions according to the mix of students enrolled at the undergraduate and graduate/professional levels, this classification provides a bird’s eye view of the student population. Exclusively undergraduate institutions are further broken down by level (two-year and four-year). For institutions with both undergraduate and graduate/professional students, institutions are grouped according to the distribution of full-time equivalent students across the two levels, giving an approximate measure of the student population’s “center of gravity.” As a result, it reflects important differences with respect to educational mission as well as institutional climate and culture—differences that can have implications for infrastructure, services, and resource allocation. The categories are as follows: ExU2: Exclusively undergraduate two-year. Fall enrollment data show only undergraduates enrolled, and at these associate’s degree granting institutions. ExU4: Exclusively undergraduate four-year. Fall enrollment data show only undergraduates enrolled, at these bachelor’s granting institutions. VHU: Very high undergraduate. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for less than 10 percent of FTE* enrollment. HU: High undergraduate. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for at least 10–24 percent of FTE enrollment. MU: Majority undergraduate. Fall enrollment data show both undergraduate and graduate/professional students, with the latter group accounting for 25–49 percent of FTE enrollment. MGP: Majority graduate/professional. Fall enrollment data show both

undergraduate and graduate/professional students, with the latter group accounting for at least half of FTE enrollment. ExGP: Exclusively graduate/professional. Fall enrollment data show only graduate/professional students enrolled. * FTE: Full-time equivalent enrollment was calculated as full-time plus one-third part-time. 2005-2009: Carnegie Classification 2005: Graduate Instructional Program

Carnegie Classification 2005: Graduate Instructional Program Graduate Instructional Program Description As a companion to the Undergraduate Instructional Program classification, this classification examines the nature of graduate education, with a special focus on the mix of graduate programs. In this classification, a single graduate-level degree qualifies an institution for inclusion. The classification is based on the level of graduate degrees awarded (master's/professional or doctoral), the number of fields represented by the degrees awarded, and the mix or concentration of degrees by broad disciplinary domain. The classification has two parts: one for institutions that do not award the doctorate, and one for doctoral-level institutions (based on the record of degree conferrals, not program offerings). Within each group, we then classify institutions with respect to the breadth of graduate offerings and the concentration of degrees in certain fields or combinations of fields. For two categories of doctorate-granting institutions, we distinguish institutions offering medical education (defined as human or veterinary medical education, including allopathic medicine, osteopathic medicine, dentistry, and veterinary medicine). Institutions in other categories may also offer medical education, but the numbers were not large enough to justify subcategories and we judged it preferable to differentiate with respect to the other graduate fields, rather than with respect to the presence or absence of medical education. NOTE: Because a single doctoral-level degree (as defined in the IPEDS data collection of the National Center for Education Statistics) qualifies an institution for inclusion in the doctoral categories, a small number of institutions with large master's or professional programs and modest doctoral-level programs are currently classified according to their doctoral programs. The categories are listed below. The term "comprehensive" is used here to denote comprehensiveness of offerings across a range of fields. This is a different usage from that in previous editions of the Carnegie Classification. S-Postbac/Ed: Single Postbaccalaureate (education). Based on the degree data, these institutions award master's degrees in education but not in other fields. S-Postbac/Bus: Single Postbaccalaureate (business). Based on the degree data, these institutions award master's degrees in business but not in other fields. S-Postbac/Other: Single Postbaccalaureate (other field). Based on the degree data, these institutions award master's or professional degrees in a single field other than education or business. Postbac-Comp: Postbaccalaureate comprehensive. According to the degree data, these institutions award master's degrees in the humanities, social sciences, and STEM* fields, and degrees in one or more professional fields. Postbac-A&S: Postbaccalaureate, arts & sciences dominant. These institutions award master's degrees in some arts and sciences fields. They may also award master's or professional degrees in other fields, but in lesser numbers. Postbac-A&S/Ed: Postbaccalaureate with arts & sciences (education dominant). These institutions award master's degrees in some arts and sciences fields as well as degrees in professional fields, and the plurality of graduate degrees are in education. Postbac-A&S/Bus: Postbaccalaureate with arts & sciences (business dominant). These institutions award master's degrees in some arts and sciences fields as well as degrees in professional fields, and the plurality of graduate degrees are in business. Postbac-A&S/Other: Postbaccalaureate with arts & sciences (other dominant fields). These institutions award master's degrees in some arts and sciences fields as well as degrees in professional fields, and the plurality of graduate degrees are in a professional field other than business or education. Postbac-Prof/Ed: Postbaccalaureate professional (education dominant). According to the degree data, these institutions award master's or professional degrees in professional fields, and the plurality of graduate degrees are in education. Postbac-Prof/Bus: Postbaccalaureate professional (business dominant). According to the degree data, these institutions award master's or professional degrees in professional fields, and the plurality of graduate degrees are in business. Postbac-Prof/Other: Postbaccalaureate professional (other dominant fields). According to the degree data, these institutions award master's or professional degrees in professional fields, and the plurality of graduate degrees are in a field other than business or education. S-Doc/Ed: Single doctoral (education). Based on the degree data, these institutions award doctoral degrees in education but do not offer other graduate/professional education. S-Doc/Other: Single doctoral (other field). Based on the degree data, these institutions award doctoral degrees in a single field other than education. CompDoc/MedVet: Comprehensive doctoral with medical/veterinary. According to the degree data, these institutions award doctoral degrees in the humanities, social sciences, and STEM* fields, and they also award degrees in medicine, dentistry, and/or veterinary medicine. They also offer professional education in other health professions or in fields such as business, education, engineering, law, public policy, or social work. CompDoc/NMedVet: Comprehensive doctoral (no medical/veterinary). According to the degree data, these institutions award doctoral degrees in the humanities, social sciences, and STEM* fields. They also offer professional education in fields such as business, education, engineering, law, public policy, social work, or health professions other than medicine, dentistry, or veterinary medicine. Doc/HSS: Doctoral, humanities/social sciences dominant. According to the degree data, these institutions award doctoral degrees in a range of fields, with the plurality in the humanities or social sciences. They may also offer professional education at the doctoral level or in fields such as law or medicine. Doc/STEM: Doctoral, STEM dominant. According to the degree data, these institutions award doctoral degrees in a range of fields, with the plurality in the STEM* fields. They may also offer professional education at the doctoral level or in fields such as law or medicine. Doc/Prof: Doctoral, professions dominant. According to the degree data, these institutions award doctoral degrees in a range of fields, with the plurality in the professions other than engineering (such as education, health professions, public policy, or social work). They may also offer professional education in law or medicine. * STEM: Science, technology, engineering, and mathematics. Classifications are time-specific snapshots of institutional attributes and behavior based on data from 2003 and 2004. Institutions might be classified differently using a different timeframe. 2005-2009: Carnegie Classification 2005: Undergraduate Instructional Program

Carnegie Classification 2005: Undergraduate Instructional Program The instructional program classification is based on three pieces of information: the level of undergraduate degrees awarded (associate’s or bachelor’s), the proportion of bachelor’s degree majors in the arts and sciences and in professional fields, and the extent to which an institution awards graduate degrees in the same fields in which it awards undergraduate degrees. The distinction between arts and sciences and professional undergraduate majors is one that has been made in the Classification since 1987 (but only for undergraduate colleges), and researchers and others in the higher education community have also made similar distinctions. We are extending and elaborating the previous analysis by (1) applying it to almost all baccalaureate-level institutions, (2) making finer distinctions along the arts & sciences – professions continuum, and (3) recognizing a “middle ground” where the two domains exist in relative balance with respect to graduating students’ major concentrations. A high concentration of majors in the arts and sciences is not the same as a liberal arts education, and we do not view any particular location on this continuum as the special province of liberal education. Examples of high-quality liberal education exist across the spectrum. Some institutions enroll no graduate students. Others may have graduate programs that operate relatively independently of the undergraduate program (such as a law school). Still others offer graduate education in most or all fields where they have undergraduate programs. And of course, some institutions fall between these extremes. By examining the number of undergraduate fields in which we also see graduate degrees, we can locate institutions along this continuum of undergraduate-graduate “coexistence.” Departments that teach only undergraduates can differ in many ways from

those that also train graduate students. Examples of such differences include faculty activities and instructional resources. It is important to emphasize that we do not view these continua (arts & sciences – professions or graduate coexistence) as signifying gradations in value or quality. The categories are as follows: Assoc: Associate's. According to the degree data, these institutions awarded associate's degrees but no bachelor's degrees. Assoc-Dom: Associate's Dominant. These institutions awarded both associate's and bachelor's degrees, but the majority of degrees awarded were at the associate's level. A&S-F/NGC: Arts & sciences focus, no graduate coexistence. According to the degree data, at least 80 percent of bachelor's degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. A&S-F/SGC: Arts & sciences focus, some graduate coexistence. At least 80 percent of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). A&S-F/HGC: Arts & sciences focus, high graduate coexistence. At least 80 percent of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. A&S+Prof/NGC: Arts & sciences plus professions, no graduate coexistence. According to the degree data, 60–79 percent of bachelor's degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. A&S+Prof/SGC: Arts & sciences plus professions, some graduate coexistence. 60–79 percent of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). A&S+Prof/HGC: Arts & sciences plus professions, high graduate coexistence. 60–79 percent of bachelor's degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Bal/NGC: Balanced arts & sciences/professions, no graduate coexistence. According to the degree data, bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 percent in each), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Bal/SGC: Balanced arts & sciences/professions, some graduate coexistence. Bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 percent in each), and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). Bal/HGC: Balanced arts & sciences/professions, high graduate coexistence. Bachelor's degree majors were relatively balanced between arts and sciences and professional fields (41–59 percent in each), and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Prof+A&S/NGC: Professions plus arts & sciences, no graduate coexistence. According to the degree data, 60–79 percent of bachelor's degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Prof+A&S/SGC: Professions plus arts & sciences, some graduate coexistence. 60–79 percent of bachelor's degree majors were in professional fields, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). Prof+A&S/HGC: Professions plus arts & sciences, high graduate coexistence. 60–79 percent of bachelor's degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Prof-F/NGC: Professions focus, no graduate coexistence. According to the degree data, at least 80 percent of bachelor's degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Prof-F/SGC: Professions focus, some graduate coexistence. At least 80 percent of bachelor's degree majors were in professional fields, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). Prof-F/HGC: Professions focus, high graduate coexistence. At least 80 percent of bachelor's degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. A high concentration of majors in the arts and sciences is not the same as a liberal arts education, and we do not view any particular location on this continuum as the special province of liberal education. Examples of high-quality liberal education exist across the spectrum. Some institutions enroll no graduate students. Others may have graduate programs that operate relatively independently of the undergraduate program (such as a law school). Still others offer graduate education in most or all fields where they have undergraduate

programs. And of course, some institutions fall between these extremes. By examining the number of undergraduate fields in which we also see graduate degrees, we can locate institutions along this continuum of undergraduate-graduate “coexistence.” Departments that teach only undergraduates can differ in many ways from those that also train graduate students. Examples of such differences include faculty activities and instructional resources. It is important to emphasize that we do not view these continua (arts & sciences – professions or graduate coexistence) as signifying gradations in value or quality. The categories are as follows: Assoc: Associate’s. According to the degree data, these institutions awarded associate’s degrees but no bachelor’s degrees. Assoc-Dom: Associate’s Dominant. These institutions awarded both associate’s and bachelor’s degrees, but the majority of degrees awarded were at the associate’s level. A&S-F/NGC: Arts & sciences focus, no graduate coexistence. According to the degree data, at least 80 percent of bachelor’s degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. A&S-F/SGC: Arts & sciences focus, some graduate coexistence. At least 80 percent of bachelor’s degree majors were in the arts and sciences, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). A&S-F/HGC: Arts & sciences focus, high graduate coexistence. At least 80 percent of bachelor’s degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. A&S+Prof/NGC: Arts & sciences plus professions, no graduate coexistence. According to the degree data, 60–79 percent of bachelor’s degree majors were in the arts and sciences, and no graduate degrees were awarded in fields corresponding to undergraduate majors. A&S+Prof/SGC: Arts & sciences plus professions, some graduate coexistence. 60–79 percent of bachelor’s degree majors were in the arts and sciences, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). A&S+Prof/HGC: Arts & sciences plus professions, high graduate coexistence. 60–79 percent of bachelor’s degree majors were in the arts and sciences, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Bal/NGC: Balanced arts & sciences/professions, no graduate coexistence. According to the degree data, bachelor’s degree majors were relatively balanced between arts and sciences and professional fields (41–59 percent in each), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Bal/SGC: Balanced arts & sciences/professions, some graduate coexistence. Bachelor’s degree majors were relatively balanced between arts and sciences and professional fields (41–59 percent in each), and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). Bal/HGC: Balanced arts & sciences/professions, high graduate coexistence. Bachelor’s degree majors were relatively balanced between arts and sciences and professional fields (41–59 percent in each), and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Prof+A&S/NGC: Professions plus arts & sciences, no graduate coexistence. According to the degree data, 60–79 percent of bachelor’s degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Prof+A&S/SGC: Professions plus arts & sciences, some graduate coexistence. 60–79 percent of bachelor’s degree majors were in professional fields, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). Prof+A&S/HGC: Professions plus arts & sciences, high graduate coexistence. 60–79 percent of bachelor’s degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Prof-F/NGC: Professions focus, no graduate coexistence. According to the degree data, at least 80 percent of bachelor’s degree majors were in professional fields (such as business, education, engineering, health, and social work), and no graduate degrees were awarded in fields corresponding to undergraduate majors. Prof-F/SGC: Professions focus, some graduate coexistence. At least 80 percent of bachelor’s degree majors were in professional fields, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half). Prof-F/HGC: Professions focus, high graduate coexistence. At least 80 percent of bachelor’s degree majors were in professional fields, and graduate degrees were observed in at least half of the fields corresponding to undergraduate majors. Definitions by release year

2005-2009: Carnegie Classification 2005: Size and Setting

Carnegie Classification 2005: Size and Setting Classification This classification describes institutions’ size and residential character. Because residential character applies to the undergraduate student body, exclusively graduate/professional institutions are not included. Size matters. It is related to institutional structure, complexity, culture, finances, and other factors. Indeed, it is probably the most influential omitted variable in the 1970 classification framework. Residential or nonresidential character reflects aspects of the campus environment, student population served, and the mix of programs and services that an institution provides. Four-year institutions are divided into four categories of full-time equivalent (FTE) enrollment and three categories of residential character. Neither characteristic implies differences in the quality of undergraduate education, but an institution’s location along the two continua generally corresponds to a distinctive mix of educational challenges and opportunities. Because few two-year institutions serve a residential population, these institutions are classified solely based on FTE enrollment. The residential character measure is based on two attributes: the proportion of degree-seeking undergraduates who attend full-time and the proportion living in institutionally-owned, -operated, or -affiliated housing. It is important to note the variety of situations of students who do not live in college or university housing. Some are true “commuting” students, while others may live with other students in rental housing on the periphery of campus, and still others are distance education students who rarely or never set foot on a campus. The categories are as follows: VS2: Very small two-year. Fall enrollment data show FTE* enrollment of fewer than 500 students at these associate’s degree granting institutions. S2: Small two-year. Fall enrollment data show FTE enrollment of 500–1,999 students at these associate’s degree granting institutions. M2: Medium two-year. Fall enrollment data show FTE enrollment of 2,000–4,999 students

at these associate’s degree granting institutions. L2: Large two-year. Fall enrollment data show FTE enrollment of 5,000–9,999 students at these associate’s degree granting institutions. VL2: Very large two-year. Fall enrollment data show FTE enrollment of at least 10,000 students at these associate’s degree granting institutions. VS4/NR: Very small four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of fewer than 1,000 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus** (includes exclusively distance education institutions). VS4/R: Very small four-year, primarily residential. Fall enrollment data show FTE enrollment of fewer than 1,000 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. VS4/HR: Very small four-year, highly residential. Fall enrollment data show FTE enrollment of fewer than 1,000 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. S4/NR: Small four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of 1,000–2,999 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus (includes exclusively distance education institutions). S4/R: Small four-year, primarily residential. Fall enrollment data show FTE enrollment of 1,000–2,999 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. S4/HR: Small four-year, highly residential. Fall enrollment data show FTE enrollment of 1,000–2,999 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. M4/NR: Medium four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of 3,000–9,999 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus (includes exclusively distance education institutions). M4/R: Medium four-year, primarily residential. Fall enrollment data show FTE enrollment of 3,000–9,999 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. M4/HR: Medium four-year, highly residential. Fall enrollment data show FTE enrollment of 3,000–9,999 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. L4/NR: Large four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of at least 10,000 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus (includes exclusively distance education institutions). L4/R: Large four-year, primarily residential. Fall enrollment data show FTE enrollment of at least 10,000 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. L4/HR: Large four-year, highly residential. Fall enrollment data show FTE enrollment of at least 10,000 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. * FTE: Full-time equivalent enrollment was calculated as full-time plus one-third part-time. ** On campus is defined as institutionally-owned, -controlled, or -affiliated housing. Classifications are time-specific snapshots of institutional attributes and behavior based on data from 2003 and 2004. Institutions might be classified differently using a different timeframe. For a complete description and technical details visit the Carnegie Foundation Website at www.carnegiefoundation.org/classifications/

2010-2014: Carnegie Classification 2010: Size and Setting

Carnegie Classification 2010 Update: Size and Setting Classification To ensure continuity of the classification framework and to allow comparison across years, the 2010 Classification update retains the same structure of six parallel classifications, initially adopted in 2005. They are as follows: Basic Classification (the traditional Carnegie Classification Framework), Undergraduate and Graduate Instructional Program classifications, Enrollment Profile and Undergraduate Profile classifications, and Size & Setting classification. These classifications provide different lenses through which to view U.S. colleges and universities, offering researchers greater analytic flexibility. These classifications are time-specific snapshots of institutional attributes and behavior based on data from 2008 to 2010. and collectively they depict the most current landscape of U.S. colleges and universities. Institutions might be classified differently using a different timeframe. Individual classifications are not updated with more recent data. ***Note--Carnegie classifications for IPEDS years 2005-2009, are the 2005 classifications, which were based on time-specific snapshots of institutional attributes and behavior based on data from 2003 to 2005. This classification describes institutions’ size and residential character. Because residential character applies to the undergraduate student body, exclusively graduate/professional institutions are not included. Size matters. It is related to institutional structure, complexity, culture, finances, and other factors. Indeed, it is probably the most influential omitted variable in the 1970 classification framework. Residential or nonresidential character reflects aspects of the campus environment, student population served, and the mix of programs and services that an institution provides. Four-year institutions are divided into four categories of full-time equivalent (FTE) enrollment and three categories of residential character. Neither characteristic implies differences in the quality of undergraduate education, but an institution’s location along the two continua generally corresponds to a distinctive mix of educational challenges and opportunities. Because few two-year institutions serve a residential population, these institutions are classified solely based on FTE enrollment. The residential character measure is based on two attributes: the proportion of degree-seeking undergraduates who attend full-time and the proportion living in institutionally-owned, -operated, or -affiliated housing. It is important to note the variety of situations of students who do not live in college or university housing. Some are true “commuting” students, while others may live with other students in rental housing on the periphery of campus, and still others are distance education students who rarely or never set foot on a campus. The categories are as follows: VS2: Very small two-year. Fall enrollment data show FTE* enrollment of fewer than 500 students at these associate’s degree granting institutions. S2: Small two-year. Fall enrollment data show FTE enrollment of 500–1,999

students at these associate’s degree granting institutions. M2: Medium two-year. Fall enrollment data show FTE enrollment of 2,000–4,999 students at these associate’s degree granting institutions. L2: Large two-year. Fall enrollment data show FTE enrollment of 5,000–9,999 students at these associate’s degree granting institutions. VL2: Very large two-year. Fall enrollment data show FTE enrollment of at least 10,000 students at these associate’s degree granting institutions. VS4/NR: Very small four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of fewer than 1,000 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus** (includes exclusively distance education institutions). VS4/R: Very small four-year, primarily residential. Fall enrollment data show FTE enrollment of fewer than 1,000 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. VS4/HR: Very small four-year, highly residential. Fall enrollment data show FTE enrollment of fewer than 1,000 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. S4/NR: Small four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of 1,000–2,999 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus (includes exclusively distance education institutions). S4/R: Small four-year, primarily residential. Fall enrollment data show FTE enrollment of 1,000–2,999 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. S4/HR: Small four-year, highly residential. Fall enrollment data show FTE enrollment of 1,000–2,999 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. M4/NR: Medium four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of 3,000–9,999 degree-seeking students at these bachelor’s degree granting institutions. Fewer than 25 percent of degree-seeking undergraduates live on campus (includes exclusively distance education institutions). M4/R: Medium four-year, primarily residential. Fall enrollment data show FTE enrollment of 3,000–9,999 degree-seeking students at these bachelor’s degree granting institutions. 25-49 percent of degree-seeking undergraduates live on campus. M4/HR: Medium four-year, highly residential. Fall enrollment data show FTE enrollment of 3,000–9,999 degree-seeking students at these bachelor’s degree granting institutions. At least half of degree-seeking undergraduates live on campus. L4/NR: Large four-year, primarily nonresidential. Fall enrollment data show FTE enrollment of at least 10,000 degree-seeking students at these bachelor’s degree granting institutions. Definitions by release year

2005-2009: Carnegie Classification 2005: Undergraduate Profile

Carnegie Classification 2005: Undergraduate Profile This new classification describes the undergraduate population with respect to three characteristics: the proportion who attend part- or full-time; achievement characteristics of first-year students; and the proportion of entering students who transfer in from another institution. Each of these captures important differences in the nature of the undergraduate population. They do not imply differences in the quality of undergraduate education, but they have implications for how an institution serves its students. PT2: Higher part-time two-year. Fall enrollment data show at least 60 percent of undergraduates enrolled part-time at these associate’s degree granting institutions. Mix2: Mixed part/full-time two-year. Fall enrollment data show 40–59 percent of undergraduates enrolled part-time at these associate’s degree granting institutions. MFT2: Medium full-time two-year. Fall enrollment data show 10–39 percent of undergraduates enrolled part-time at these associate’s degree granting institutions. FT2: Higher full-time two-year. Fall enrollment data show less than 10 percent of undergraduates enrolled part-time at these associate’s degree granting institutions. PT4: Higher part-time four-year. Fall enrollment data show at least 40 percent of undergraduates enrolled part-time at these bachelor’s degree granting institutions. MFT4/I: Medium full-time four-year, inclusive. Fall enrollment data show 60–79 percent of undergraduates enrolled full-time at these bachelor’s degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. MFT4/S/LTI: Medium full-time four-year, selective, lower transfer-in. Fall enrollment data show 60–79 percent of undergraduates enrolled full-time at these bachelor’s degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students’

test scores places most of these institutions in roughly the middle two-fifths of baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. MFT4/S/HTI: Medium full-time four-year, selective, higher transfer-in. Fall enrollment data show 60–79 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places most of these institutions in roughly the middle two-fifths of baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. FT4/I: Full-time four-year, inclusive. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. FT4/S/LTI: Full-time four-year, selective, lower transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the middle two-fifths of baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. FT4/S/HTI: Full-time four-year, selective, higher transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the middle two-fifths of baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. FT4/MS/LTI: Full-time four-year, more selective, lower transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are more selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the top fifth of baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. FT4/MS/HTI: Full-time four-year, more selective, higher transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are more selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the top fifth of baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. For a complete description and technical details visit the Carnegie Foundation Website at www.carnegiefoundation.org/classifications/

2010-2014: Carnegie Classification 2010: Undergraduate Profile

Carnegie Classification 2010 Update: Undergraduate Profile To ensure continuity of the classification framework and to allow comparison across years, the 2010 Classification update retains the same structure of six parallel classifications, initially adopted in 2005. They are as follows: Basic Classification (the traditional Carnegie Classification Framework), Undergraduate and Graduate Instructional Program classifications, Enrollment Profile and Undergraduate Profile classifications, and Size & Setting classification. These classifications provide different lenses through which to view U.S. colleges and universities, offering researchers greater analytic flexibility. These classifications are time-specific snapshots of institutional attributes and behavior based on data from 2008 to 2010. and collectively they depict the most current landscape of U.S. colleges and universities. Institutions might be classified differently using a different timeframe. Individual classifications are not updated with more recent data. ***Note--Carnegie classifications for IPEDS years 2005-2009, are the 2005 classifications, which were based on time-specific snapshots of institutional attributes and behavior based on data from 2003 to 2005. This new classification describes the undergraduate population with respect to three characteristics: the proportion who attend part- or full-time; achievement characteristics of first-year students; and the proportion of entering students who transfer in from another institution. Each of these captures important differences in the nature of the undergraduate population. They do not imply differences in the quality of undergraduate education, but they have implications for how an institution serves its students. PT2: Higher part-time two-year. Fall enrollment data show at least 60 percent of undergraduates enrolled part-time at these associate's degree granting institutions. Mix2: Mixed part/full-time two-year. Fall enrollment data show 40–59 percent of undergraduates enrolled part-time at these associate's degree granting institutions. MFT2: Medium full-time two-year. Fall enrollment data show 10–39 percent of undergraduates enrolled part-time at these associate's degree granting institutions. FT2: Higher full-time two-year. Fall enrollment data show less than 10 percent of undergraduates enrolled part-time at these associate's degree granting institutions. PT4: Higher part-time four-year. Fall enrollment data show at least 40 percent of undergraduates enrolled part-time at these bachelor's degree granting institutions. MFT4/I: Medium full-time four-year, inclusive. Fall enrollment data show 60–79 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. MFT4/S/LTI: Medium full-time four-year, selective, lower transfer-in. Fall enrollment data show 60–79 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places most of these institutions in roughly the middle two-fifths of baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. MFT4/S/HTI: Medium full-time four-year, selective, higher transfer-in. Fall enrollment data show 60–79 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places most of these institutions in roughly the middle two-fifths of baccalaureate institutions). At least 20 percent of entering undergraduates are

transfer students. FT4/I: Full-time four-year, inclusive. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. These institutions either did not report test score data or the scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement. FT4/S/LTI: Full-time four-year, selective, lower transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the middle two-fifths of baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. FT4/S/HTI: Full-time four-year, selective, higher transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the middle two-fifths of baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. FT4/MS/LTI: Full-time four-year, more selective, lower transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are more selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the top fifth of baccalaureate institutions). Fewer than 20 percent of entering undergraduates are transfer students. FT4/MS/HTI: Full-time four-year, more selective, higher transfer-in. Fall enrollment data show at least 80 percent of undergraduates enrolled full-time at these bachelor's degree granting institutions. Score data for first-year students indicate that these institutions are more selective in admissions (our analysis of first-year students' test scores places these institutions in roughly the top fifth of baccalaureate institutions). At least 20 percent of entering undergraduates are transfer students. For a complete description and technical details visit the Carnegie Foundation Website at www.carnegiefoundation.org/classifications/

CDACTGA

12-month instructional activity credit hours: graduates

Storage: double | Stata name: CDACTGA | Observed years: 2004-2023 | Nulls: 100,624

Definitions by release year

2004-2023: 12-month instructional activity credit hours: graduates

12-Month Enrollment and Instructional Activity Credit Hour Activity for academic programs: Graduate Programs Related glossary links CREDIT HOUR ACTIVITY - The provision of coursework to students which can be measured in terms of credit hours. For the purposes of this survey, total credit hour activity was determined by multiplying the credit hour value of the course by the number of students enrolled in the course for credit. For example, the credit hour activity for a 3-credit course with an enrollment of 30 students is 90 credit hours. Using this as a guide, institutions were asked to compute the credit hours attempted for each course and sum the activity for all credit hour courses over the total 12-month period. enrollment is based on the number of students enrolled at the close of the official drop/add period or other census date of the institution. INSTRUCTIONAL ACTIVITY - The provision of coursework to students which can be measured in various terms. CREDIT - Recognition of attendance or performance in an instructional activity (course or program) that can be applied by a recipient toward the requirements for a degree, diploma, certificate, or other formal award.

CERT1A

Certificate of less than 12 weeks

Storage: double | Stata name: CERT1A | Observed years: 2020-2023 | Nulls: 117,447

Definitions by release year

2020: Certificate of less than 12 weeks

Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=20) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) designed for completion in less than 300 clock hours, or in less than 9 semester or trimester credit hours, or less than 13 quarter credit hours. Beginning in 2020-21, this award level category was one of two added options for reporting certificates of less than one year in length.

2021: Certificate of less than 12 weeks

Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=20) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) designed for completion in less than 300 clock hours, or in less than 9 semester or trimester credit hours, or less than 13 quarter credit hours. Beginning in 2020-21, this award level category was one of two added options for reporting certificates of less than one year in length.

2022: Certificate of less than 12 weeks

Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=20) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) designed for completion in less than 300 clock hours, or in less than 9 semester or trimester credit hours, or less than 13 quarter credit hours. Beginning in 2020-21, this award level category was one of two added options for reporting certificates of less than one year in length.

2023: Certificate of less than 12 weeks

Postsecondary award, certificate, or diploma of less than 300 clock, 9 semester/trimester credit or 13 quarter credit hours awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=20) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. 2006: Certificates of less-than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2005 and June 30, 2006 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit

hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2007: Certificates of less-than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2006 and June 30, 2007 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2008: Certificates of less-than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2009: Certificates of less-than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2010: Certificates of less-than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2011: Certificates of less-than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2012: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit

hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2013: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2014: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2015: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2016: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2017: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2018: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit

hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2019: Certificates of less than 1-year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2020: Certificates of less than 1 year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2021: Certificates of less than 1 year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2022: Certificates of less than 1 year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

2023: Certificates of less than 1 year

Postsecondary award, certificate, or diploma of less than 1 year awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of less-than 1-year (AWLEVEL=1) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (less than 1 academic year) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours, by a student enrolled full time.

Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2010: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2011: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2012: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2013: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2014: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2015: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2016: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2017: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child

allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2018: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2019: Certificates of 1 but less than 2-years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2020: Certificates of 1 but less than 2 years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2021: Certificates of 1 but less than 2 years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2022: Certificates of 1 but less than 2 years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2023: Certificates of 1 but less than 2 years

Postsecondary awared, certificate or diploma of 1 but less than 2-years awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 1 but less-than 2-year (AWLEVEL=2) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years , or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours, by a student enrolled full time.

2006: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2005 and June 30, 2006 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4 and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2007: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2006 and June 30, 2007 This variable is derived directly from the completions survey Grand total (CRACE24) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4 and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2008: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2007 and June 30, 2008 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4 and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2009: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2008 and June 30, 2009 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4 and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2010: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2009 and June 30, 2010 This variable is derived directly from the completions survey Grand total (CTOTALT) for first

majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4 and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2011: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2010 and June 30, 2011 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2012: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2011 and June 30, 2012 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2013: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2012 and June 30, 2013 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2014: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2013 and June 30, 2014 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2015: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2014 and June 30, 2015 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level

(below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2016: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2015 and June 30, 2016 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2017: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2016 and June 30, 2017 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2018: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2017 and June 30, 2018 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2019: Certificates of 2 but less than 4-years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2018 and June 30, 2019 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2020: Certificates of 2 but less than 4 years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2019 and June 30, 2020 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2021: Certificates of 2 but less than 4 years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2020 and June 30, 2021 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2022: Certificates of 2 but less than 4 years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2021 and June 30, 2022 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2023: Certificates of 2 but less than 4 years

Postsecondary award, certificate, or diploma of 2 but less than 4-years awarded between July 1, 2022 and June 30, 2023 This variable is derived directly from the completions survey Grand total (CTOTALT) for first majors(MAJORNUM=1) and Certificates of 2 but less-than 4-year (AWLEVEL=4) and the sum of all 6-digit CIP programs (CIPCODE=99). If institution submits data for more than one institution (parent/child) the total awards/degrees are allocated based on factors submitted by the institution. For more information on allocation factors see Parent/child allocation factor - Completions in the reponse status section. Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years) - Requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years , or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours, by a student enrolled full time.

2009: Published in-district fees 2006-07

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-district required fees for 2006-07 IN-DISTRICT TUITION - The fees charged by the institution to those students residing in the locality in which they attend school. This may be a lower rate than in-state fee if offered by the institution. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-district fees 2007-08

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-district required fees for 2007-08 IN-DISTRICT TUITION - The fees charged by the institution to those students residing in the locality in which they attend school. This may be a lower rate than in-state fee if offered by the institution. 2013: Published in-district tuition and fees 2010-11

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-district published tuition and required fees for 2010-11 IN-DISTRICT TUITION - The tuition charged by the institution to those students residing in the locality in which they attend school. This may be a lower rate than in-state tuition if offered by the institution. TUITION AND REQUIRED FEES - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing

(college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2014: Published in-district tuition and fees 2011-12

Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 clock hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

Tuition may be charged per term, per course, or per credit. Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

Tuition may be charged per term, per course, or per credit. Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic Calender Systems" which is a category used to describe "non-traditional" calender systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 clock hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2023: Published in-district tuition and fees 2023-24

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-district published tuition and required fees for 2023-24 IN-DISTRICT TUITION - The tuition charged by the institution to those students residing in the locality in which they attend school. This may be a lower rate than in-state tuition if offered by the institution. TUITION AND REQUIRED FEES - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. Definitions by release year

2009: Published in-district fees 2009-10 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2010: Published in-district fees 2010-11 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2011: Published in-district fees 2011-12 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2012: Published in-district fees 2012-13 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2013: Published in-district fees 2013-14 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2014: Published in-district fees 2014-15 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2015: Published in-district fees 2015-16 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2016: Published in-district fees 2016-17 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2017: Published in-district fees 2017-18 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2018: Published in-district fees 2018-19 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2019: Published in-district fees 2019-20 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2020: Published in-district fees 2020-21 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2021: Published in-district fees 2021-22 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2022: Published in-district fees 2022-23 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2023: Published in-district fees 2023-24 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2009: Published in-district tuition 2009-10 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2010: Published in-district tuition 2010-11 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2011: Published in-district tuition 2011-12 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2012: Published in-district tuition 2012-13 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2013: Published in-district tuition 2013-14 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2014: Published in-district tuition 2014-15 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2015: Published in-district tuition 2015-16 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2016: Published in-district tuition 2016-17 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2017: Published in-district tuition 2017-18 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2018: Published in-district tuition 2018-19 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2019: Published in-district tuition 2019-20 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2020: Published in-district tuition 2020-21 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2021: Published in-district tuition 2021-22 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2022: Published in-district tuition 2022-23 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2023: Published in-district tuition 2023-24 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2009: Published in-state fees 2006-07

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published required fees for 2006-07 IN-STATE REQIORED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state fees 2007-08

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published required fees for 2007-08 IN-STATE REQIORED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. 2009: Published in-state fees 2007-08

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2007-08 IN-STATE REQUIRED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing

(college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state fees 2008-09

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2008-09 IN-STATE REQUIRED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. 2009: Published in-state fees 2008-09

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2008-09 IN-STATE REQUIRED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state fees 2009-10

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2009-10 IN-STATE REQUIRED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. 2009: Published in-state fees 2009-10

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2008-09 IN-STATE REQUIRED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. REQUIRED FEES - Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state fees 2010-11

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2009-10 IN-STATE REQUIRED FEES - The fees charged by institutions to those students who meet the state's or institution's residency requirements. 2009: Published in-state tuition 2006-07

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2006-07 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with

advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state tuition 2007-08

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2007-08 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. 2009: Published in-state tuition 2007-08

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web

site In-state published tuition for 2007-08 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state tuition 2008-09

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2008-09 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. 2009: Published in-state tuition 2008-09

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2008-09 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time"

2010: Published in-state tuition 2009-10

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2009-10 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. 2009: Published in-state tuition 2009-10

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2009-10 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time"

2010: Published in-state tuition 2010-11

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition for 2010-11 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. 2009: Published in-state tuition and fees 2006-07

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2006-07 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION AND REQUIRED FEES - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2010: Published in-state tuition and fees 2007-08

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2007-08 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. 2011: Published in-state tuition and fees 2010-11

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-state published tuition and required fees for 2010-11 IN-STATE TUITION - The tuition charged by institutions to those students who meet the state's or institution's residency requirements. TUITION AND REQUIRED FEES - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

Required fees are fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay the charge is an exception. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 contact hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic Calender Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

2005: Published in-state tuition and fees 2005-06

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, room and board, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS COOL (College Opportunities On-Line) Web site.
