CIPCODE2

CIP code of 2nd largest program

Storage: string | Stata name: CIPCODE2 | Observed years: 2004-2023 | Nulls: 93,404

Definitions by release year

2004-2019: CIP code of 2nd largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of contact hours. CIP code of the 2nd largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

2020-2023: CIP code of 2nd largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of clock or credit hours. CIP code of the 2nd largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

CIPCODE3

CIP code of 3rd largest program

Storage: string | Stata name: CIPCODE3 | Observed years: 2004-2023 | Nulls: 93,404

Definitions by release year

2004-2019: CIP code of 3rd largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of contact hours. CIP code of the 3rd largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

2020-2023: CIP code of 3rd largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of clock or credit hours. CIP code of the 3rd largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

CIPCODE4

CIP code of 4th largest program

Storage: string | Stata name: CIPCODE4 | Observed years: 2004-2023 | Nulls: 93,404

Definitions by release year

2004-2019: CIP code of 4th largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of contact hours. CIP code of the 4th largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

2020-2023: CIP code of 4th largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of clock or credit hours. CIP code of the 4th largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

CIPCODE5

CIP code of 5th largest program

Storage: string | Stata name: CIPCODE5 | Observed years: 2004-2023 | Nulls: 93,404

Definitions by release year

2004-2019: CIP code of 5th largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of contact hours. CIP code of the 5th largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

2020-2023: CIP code of 5th largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of clock or credit hours. CIP code of the 5th largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

CIPCODE6

CIP code of 6th largest program

Storage: string | Stata name: CIPCODE6 | Observed years: 2004-2023 | Nulls: 93,404

Definitions by release year

2004-2019: CIP code of 6th largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of contact hours. CIP code of the 6th largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

2020-2023: CIP code of 6th largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of clock or credit hours. CIP code of the 6th largest program CIP CODE - A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.

2004-2019: Cost of books and supplies of 3rd largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of contact hours. Cost of books and supplies for the 3rd largest program BOOKS AND SUPPLIES - The average cost of books and supplies for a typical student for an entire academic year (or program). Do not include unusual costs for special groups of students (e.g., engineering or art majors), unless they constitute the majority of students at your institution.

2020-2023: Cost of books and supplies of 3rd largest program

Please list the five next largest programs and provide the requested information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Also report the length of the entire program in terms of clock or credit hours. Cost of books and supplies for the 3rd largest program BOOKS AND SUPPLIES - The average cost of books and supplies for a typical student for an entire academic year (or program). Do not include unusual costs for special groups of students (e.g., engineering or art majors), unless they constitute the majority of students at your institution.

Definitions by release year

2009: In-district comprehensive fee 2009-10 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for in-district students are not guaranteed. COMPREHENSIVE FEE- The one fixed amount of money charged by an institution that covers tuition, required fees, room, and board. For some institutions, this amount may also cover books and supplies. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2010-2011: In-district comprehensive fee 2010-11 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for in-district students are not guaranteed. COMPREHENSIVE FEE- The one fixed amount of money charged by an institution that covers tuition, required fees, room, and board. For some institutions, this amount may also cover books and supplies. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2012: In-district comprehensive fee 2011-12 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for in-district students are not guaranteed. COMPREHENSIVE FEE- The one fixed amount of money charged by an institution that covers tuition, required fees, room, and board. For some institutions, this amount may also cover books and supplies. Tuition guarantee is a program where the institution guarantees, to

entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

CMP2GTD

[varies by year] In-state comprehensive fee 2009-10 guaranteed percent increase

Storage: double | Stata name: CMP2GTD | Observed years: 2009 | Nulls: 137,051

Definitions by release year

2009: In-state comprehensive fee 2009-10 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for in-state students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2010-2011: In-state comprehensive fee 2010-11 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for in-state students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2012: In-state comprehensive fee 2011-12 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee

program, but comprehensive fees for in-state students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

Storage: double | Stata name: CMP3GTD | Observed years: 2009 | Nulls: 137,051

Definitions by release year

2009: Out-of-state comprehensive fee 2009-10 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for out-of-state students are not guaranteed. COMPREHENSIVE FEE- The one fixed amount of money charged by an institution that covers tuition, required fees, room, and board. For some institutions, this amount may also cover books and supplies. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2010-2011: Out-of-state comprehensive fee 2010-11 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for out-of-state students are not guaranteed. COMPREHENSIVE FEE- The one fixed amount of money charged by an institution that covers tuition, required fees, room, and board. For some institutions, this amount may also cover books and supplies. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

2012: Out-of-state comprehensive fee 2011-12 guaranteed percent increase

The percent increase at which comprehensive fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insitution has a tuition guarantee program, but comprehensive fees for out-of-state students are not guaranteed. COMPREHENSIVE FEE- The one fixed amount of money charged by an institution that covers tuition, required fees, room, and board. For some institutions, this amount may also cover books and supplies. Definitions by release year

2004-2018: 12-month instructional activity contact hours: undergraduates

12-Month Enrollment and Instructional Activity Contact Hour Activity for occupational (undergraduate) programs Related glossary links CONTACT HOUR ACTIVITY - The provision of coursework to students which can be measured in terms of contact or clock hours. For the purposes of this survey, total contact hour activity was determined by multiplying the contact hour value of the program by the number of students enrolled in the program. For example, a 600 hour program with 6 students enrolled would contribute 3600 contact hours to the total 12-month activity as long as all 3600 hours were completed during the timeframe. However,if 3 students completed their program but the remaining 3 only completed half the program, the institution should report 1,800 hours for the first three students and 900 hours for the second group; or a total of 2,700 hours toward the 12-month total. INSTRUCTIONAL ACTIVITY - The provision of coursework to students which can be measured in various terms. CREDIT - Recognition of attendance or performance in an instructional activity (course or program) that can be applied by a recipient toward the requirements for a degree, diploma, certificate, or other formal award.

2019: 12-month instructional activity clock hours: undergraduates

12-Month Enrollment and Instructional Activity Clock Hour Activity for occupational (undergraduate) programs Related glossary links CLOCK HOUR ACTIVITY - The provision of coursework to students which can be measured in terms of clock(Prior to 2018-19 the term contact hours was used) hours. For the purposes of this survey, total clock hour activity was determined by multiplying the clock hour value of the program by the number of students enrolled in the program. For example, a 600 hour program with 6 students enrolled would contribute 3600 clock hours to the total 12-month activity as long as all 3600 hours were completed during the timeframe. However,if 3 students completed their program but the remaining 3 only completed half the program, the institution should report 1,800 hours for the first three students and 900 hours for the second group; or a total of 2,700 hours toward the 12-month total. INSTRUCTIONAL ACTIVITY - The provision of coursework to students which can be measured in various terms. CREDIT - Recognition of attendance or performance in an instructional activity (course or program) that can be applied by a recipient toward the requirements for a degree, diploma, certificate, or other formal award.

2020-2023: 12-month instructional activity clock hours: undergraduates

12-Month Enrollment and Instructional Activity Clock Hour Activity for occupational (undergraduate) programs Related glossary links CLOCK HOUR ACTIVITY - The provision of coursework to students which can be measured in terms of clock(Prior to 2018-19 the term clock hours was used) hours. CNGDSTCD

[varies by year] State and 118TH Congressional District ID

Storage: string | Stata name: CNGDSTCD | Observed years: 2009-2023 | Nulls: 35,178

Definitions by release year

2009-2011: Congressional district code

Congressional district code based on the location of the school. FIPS numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the FIPS state numeric code, which makes the congressional district code unique across states The Congressional Districts Codes are two-digit numeric codes used to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 110th Congress, this applies to Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Northern Mariana Islands, Palau, and the several U.S. minor outlying islands are designated as “99.”

2012-2014: Congressional district code

Congressional district code based on the location of the school. FIPS numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the FIPS state numeric code, which makes the congressional district code unique across states The Congressional Districts Codes are two-digit numeric codes used to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 110th Congress, this applies to Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Northern Mariana Islands, Palau, and the several U.S. minor outlying islands are designated as “-2.”

2015-2019, 2021: State and 114TH Congressional District ID

Congressional district code based on the location of the school. FIPS numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the FIPS state numeric code, which makes the congressional district code unique across states The Congressional Districts Codes are two-digit numeric codes used to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 114h Congress, this applies to Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Northern Mariana Islands, Palau, and the several U.S. minor outlying islands are designated as “-2.”

2020: State and 116TH Congressional District ID

Congressional district code based on the location of the school. FIPS numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the FIPS state numeric code, which makes the congressional district code unique across states The Congressional Districts Codes are two-digit numeric codes used to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 116 Congress, this applies to Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Northern Mariana Islands, Palau, and the several U.S. minor outlying islands are designated as “-2.” Geographic codes come from TIGER 2020. The congressional district codes in TIGER 2020 represent the 116th Congress. TIGER 2020 uses the U.S. Office of Management and Budget (OMB) updates to metropolitan and micropolitan delineations as of March 2020.

2022: State and 116TH Congressional District ID

Congressional district code based on the location of the school. FIPS numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the FIPS state numeric code, which makes the congressional district code unique across states The Congressional Districts Codes are two-digit numeric codes used to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 114h Congress, this applies to Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Northern Mariana Islands, Palau, and the several U.S. minor outlying islands are designated as “-2.” Congressional District codes in TIGER 2022 represent the 116th Congress. For more information about Congressional district updates, see discussion from the Census Bureau’s Redistricting and Voting Rights Data Office. https://www.census.gov/programs-surveys/decennial-census/about/rdo/congressional-districts.117th_Congress.html#list-tab-1532737863

2023: State and 118TH Congressional District ID

Congressional district code based on the location of the school. FIPS numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the FIPS state numeric code, which makes the congressional district code unique across states. The Congressional Districts Codes are two-digit numeric codes used

to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 118h Congress, this applies to Alaska, Delaware, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Northern Mariana Islands, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Marshall Islands, Palau, and the several U.S. minor outlying islands are designated as “-2.” Congressional District codes in TIGER 2023 represent the 118th Congress

CNTLAFFI

Institutional control or affiliation

Storage: string | Stata name: CNTLAFFI | Observed years: 2004-2023 | Nulls: 3,340

Definitions by release year

2004-2023: Institutional control or affiliation

What is your institutional control or affiliation? Select one; Public Private for-profit Private not-for-profit independent (no religious affiliation) Private not-for-profit religious affiliation - Specify PUBLIC INSTITUTION -An educational institution whose programs and activities are operated by publicly elected or appointed school officials and which is supported primarily by public funds. PRIVATE FOR-PROFIT (PROFIT-MAKING) INSTITUTION - A private institution in which the individual(s) or agency in control receives compensation other than wages, rent, or other expenses for the assumption of risk. PRIVATE NOT-FOR-PROFIT INSTITUTION - A private institution in which the individual(s) or agency in control receives no compensation, other than wages, rent, or other expenses for the assumption of risk. These include both independent nonprofit schools and those affiliated with a religious organization.

COHRTSTU

Enrolled any full-time first-time students

Storage: string | Stata name: COHRTSTU | Observed years: 2004-2023 | Nulls: 14

Definitions by release year

2004: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 1998-99 for 4-year institutions and 2001-2002 for both 2-year and less-than-2-year institutions.

2005: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 1999-2000 for 4-year institutions and 2002-03 for both 2-year and less-than-2-year institutions.

2006: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2000-01 for 4-year institutions and 2003-04 for both 2-year and less-than-2-year institutions.

2007: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2001-02 for 4-year institutions and 2004-05 for both 2-year and less-than-2-year institutions.

2008-2009: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2002-03 for 4-year institutions and 2005-06 for both 2-year and less-than-2-year institutions.

2010: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2004-05 for 4-year institutions and 2007-08 for both 2-year and less-than-2-year institutions.

2011: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2005-06 for 4-year institutions and 2008-09 for both 2-year and less-than-2-year institutions.

2012: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2005-06 for 4-year institutions and 2009-10 for both 2-year and less-than-2-year institutions.

2013: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2005-06 for 4-year institutions and 2010-11 for both 2-year and less-than-2-year institutions.

2014: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2008-09 for 4-year institutions and 2011-12 for both 2-year and less-than-2-year institutions.

2015: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2009-10 for 4-year institutions and 2012-13 for both 2-year and less-than-2-year institutions.

2016-2017: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2010-11 for 4-year institutions and 2013-14 for both 2-year and less-than-2-year institutions.

2018-2023: Enrolled any full-time first-time students

For the Cohort year, Did your institution enroll any full-time first-time students? Cohort year=Academic year 2011-12 for 4-year institutions and 2014-15 for both 2-year and less-than-2-year institutions.

CONTROL

Control of institution

Storage: string | Stata name: CONTROL | Observed years: 2004-2023 | Nulls: 14

Definitions by release year

2004-2023: Control of institution

A classification of whether an institution is operated by publicly elected or appointed officials or by privately elected or appointed officials and derives its major source of funds from private sources. Public institution - An educational institution whose programs and activities are operated by publicly elected or appointed school officials and which is supported primarily by public funds. Private not-for-profit institution - A private institution in which the individual(s) or agency in control receives no compensation, other than wages, rent, or other expenses for the assumption of risk. These include both independent not-for-profit schools and those affiliated with a religious organization. Private for-profit institution - A private institution in which the individual(s) or agency in control receives compensation other than wages, rent, or other expenses for the assumption of risk.

2004: Core expenses, total dollars

Core expenses, total dollarsis derived for all institutions as follows: For public institutions using the new GASB 34/35 standard Instruction (F1C011) Research (F1C021) Public service (F1C031) Academic support (F1C051) Student services (F1C061) Institutional support (F1C071) Operation maintenance of plant (F1C081) Depreciation (F1C091) Scholarships and fellowships expenses (F1C101) Other expenses and deductions (F1C141) Total nonoperating expenses and deductions (F1C181) For Private-not-for profit or public institutions using the FASB standards. Instruction (F2E011) Research (F2E021) Public service (F2E031) Academic support (F2E041) Student services (F2E051) Institutional support (F2E061) Net grant aid to students (F2E081) Other expenses (F2E121) For private for-profit institutions Instruction (F3E01) Research and public service (F3E02) Academic and institutional support, and student services (F3E03) Net grant aid to students (F3E05) All other expenses (F3E06) Other Core expenses is then divided the Full-time equivalent enrollment: Academic year 2003-04. For glossary definitions of the above finance terms see variables listed under the Finance survey. 12-month full-time equivalent enrollment: Academic year 2003-04. The full-time-equivalent (FTE) enrollment used in this report is the sum of the institutions' FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2004 Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). First-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the fall counts (part A) and applying this ratio to the 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. The calculation of FTE undergraduate and graduates is as follows: Quarter

calendar system Enrollment level (One FTE over 12-month period) Undergraduate 45 credit hours, 900 contact hours Graduate 36 credit hours Semester/trimester/4-1-4 plan/other calendar system Enrollment level (one FTE over 12-month period) Undergraduate 30 credit hours 900 contact hours Graduate 24 credit hours For institutions with continuous enrollment programs, FTE is determined by dividing the number of contact hours attempted by 900.

2005: Core expenses, total dollars

Core expenses, total dollars is derived for all institutions as follows: For public institutions using the new GASB 34/35 standard Instruction (F1C011) Research (F1C021) Public service (F1C031) Academic support (F1C051) Student services (F1C061) Institutional support (F1C071) Operation maintenance of plant (F1C081) Depreciation (F1C091) Scholarships and fellowships expenses (F1C101) Other expenses and deductions (F1C141) Total nonoperating expenses and deductions (F1C181) For Private-not-for profit or public institutions using the FASB standards. Instruction (F2E011) Research (F2E021) Public service (F2E031) Academic support (F2E041) Student services (F2E051) Institutional support (F2E061) Net grant aid to students (F2E081) Other expenses (F2E121) For private for-profit institutions Instruction (F3E01) Research and public service (F3E02) Academic and institutional support, and student services (F3E03) Net grant aid to students (F3E05) All other expenses (F3E06)

COUNTYCD

Fips County code

Storage: string | Stata name: COUNTYCD | Observed years: 2009-2023 | Nulls: 35,178

Definitions by release year

2009-2021: Fips County code

FIPS county number (two digit FIPS state numeric code + three digits FIPS county code) based on the location of the school.

2022: Fips County code

FIPS county number (two digit FIPS state numeric code + three digits FIPS county code) based on the location of the school. The Census Bureau introduced new county equivalent planning regions for Connecticut in TIGER 2022. The previous 8 counties were replaced with 9 county equivalent entities. For more information about changes to Connecticut counties, see discussion from the Census Bureau’s Geography Division. https://www.census.gov/programs-surveys/geography/technical-documentation/county-changes/2020.html

2023: Fips County code

FIPS county number (two digit FIPS state numeric code + three digits FIPS county code) based on the location of the school. County codes are based on TIGER 2023. The Census Bureau introduced new county equivalent planning regions for Connecticut in 2022 (TIGER 2022). The previous 8 counties were replaced with 9 county equivalent entities. For more information about changes to Connecticut counties, see discussion from the Census Bureau’s Geography Division. https://www.census.gov/programs-surveys/geography/technical-documentation/county-changes/2020.html

CREDITS1

[varies by year] Dual enrollment

Storage: string | Stata name: CREDITS1 | Observed years: 2004-2022 | Nulls: 9,389

Definitions by release year

2004-2019: Dual credit

Does your institution accept any of the following? [Check all that apply] Special credit upon entry - Please indicate if institution accepts credit earned prior to admission through any of the sources listed. Dual credit (college credit earned while in high school) DUAL CREDIT - A program through which high school students are enrolled in advanced placement (AP) courses, taught at their high school, that fulfill high school graduation requirements and may earn the student college credits.

2020-2022: Dual enrollment

Does your institution accept any of the following? [Check all that apply] Special credit upon entry - Please indicate if institution accepts credit earned prior to admission through any of the sources listed. Dual enrollment DUAL ENROLLMENT - Refers to students who enroll in college courses offered by an institution of higher education while enrolled in high school or seeking a recognized equivalent. Student performance is recorded on a college transcript and postsecondary credit is awarded for a passing grade in the course. - Includes: All postsecondary courses, independent of course delivery mode, course location, course instructor, whether secondary credit is also offered, and whether the student enrolls through a formal state/local program or enrolls outside a formal state/local program. - Excludes: Credit-by-exam models such as Advanced Placement and International Baccalaureate in which the student is not enrolled in a postsecondary institution.

CSA

Combined Statistical Area (CSA)

Storage: string | Stata name: CSA | Observed years: 2007-2023 | Nulls: 21,000

Definitions by release year

2007-2019, 2021-2022: Combined Statistical Area (CSA)

Combined Statistical Area (CSA) - 3-digit code that identifies the Combined Statistical Area, that an institutions's address is associated with. If an institution is not associated with a CSA the value of this variable is not applicable (-2). A CSA is a geographic entity consisting of two or more adjacent Core Based Statistical Areas (CBSAs). A Combined Statistical Area may comprise two or more Metropolitan Statistical Areas, a Metropolitan Statistical Area and a Micropolitan Statistical Area, two or more Micropolitan Statistical Areas, or multiple Metropolitan and Micropolitan Statistical Areas that have social and economic ties as measured by commuting, but at lower levels than are found among counties within Metropolitan and Micropolitan Statistical Areas. For more information see http://www.whitehouse.gov/omb/inforeg/statpolicy.html#ms.

2020: Combined Statistical Area (CSA)

Combined Statistical Area (CSA) - 3-digit code that identifies the Combined Statistical Area, that an institutions's address is associated with. If an institution is not associated with a CSA the value of this variable is not applicable (-2). A CSA is a geographic entity consisting of two or more adjacent Core Based Statistical Areas (CBSAs). A Combined Statistical Area may comprise two or more Metropolitan Statistical Areas, a Metropolitan Statistical Area and a Micropolitan Statistical Area, two or more Micropolitan Statistical Areas, or multiple Metropolitan and Micropolitan Statistical Areas that have social and economic ties as measured by commuting, but at lower levels than are found among counties within Metropolitan and Micropolitan Statistical Areas. Geographic codes come from TIGER 2020. TIGER 2020 uses the U.S. Office of Management and Budget (OMB) updates to metropolitan and micropolitan delineations as of March 2020. For more information see http://www.whitehouse.gov/omb/inforeg/statpolicy.html#ms.

2023: Combined Statistical Area (CSA)

Combined Statistical Area (CSA) - 3-digit code that identifies the Combined Statistical Area, that an institutions's address is associated with. If an institution is not associated with a CSA the value of this variable is not applicable (-2). A CSA is a geographic entity consisting of two or more adjacent Core Based Statistical Areas (CBSAs). A Combined Statistical Area may comprise two or more Metropolitan Statistical Areas, a Metropolitan Statistical Area and a Micropolitan Statistical Area, two or more Micropolitan Statistical Areas, or multiple Metropolitan and Micropolitan Statistical Areas that have social and economic ties as measured by commuting, but at lower levels than are found among counties within Metropolitan and Micropolitan Statistical Areas. Metropolitan, micropolitan, and CSA codes are based on the U.S. Office of Management and Budget’s (OMB) 2020 Core Based Statistical Area standards updated as of July 21, 2023.

CSUNKNM

Race/ethnicity unknown men

Storage: double | Stata name: CSUNKNM | Observed years: 2012-2023 | Nulls: 61,646

Definitions by release year

2012: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2011 and June 30, 2012. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2013: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2012 and June 30, 2013. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2014: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2013 and June 30, 2014. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2015: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2014 and June 30, 2015. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2016: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2015 and June 30, 2016. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2017: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2016 and June 30, 2017. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2018: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2017 and June 30, 2018. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2019: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2018 and June 30, 2019. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2020: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2019 and June 30, 2020. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2021: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2020 and June 30, 2021. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2022: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2021 and June 30, 2022. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

2023: Race/ethnicity unknown men

Number of race/ethnicity unknown men receiving awards/degrees conferred between July 1, 2022 and June 30, 2023. Race/ethnicity unknown - Category used to classify students or employees whose race/ethnicity is not known, and institutions are unable to place them in one of the specified racial/ethnic categories.

CUFASB

Number of component unit columns on GPFS using FASB standards

Storage: string | Stata name: CUFASB | Observed years: 2004-2009 | Nulls: 99,231

Source gap: 1 nonmissing values of CUFASB have no safely resolved code definition for their reporting year.

Definitions by release year

2004-2009: Number of component unit columns on GPFS using FASB standards

COMPONENT UNIT - (Term applies to GASB institutions only.) Legally separate organizations for which the governing board and/or managment of the primary institution is financially accountable. In addition, a component can be another organization for which the nature and signficance of its relationship with a primary institution is such that exclusion would cause the primary institution's financial statements to be misleading or incomplete. Component units are required to be reported in the financial statements of the primary institution, either discretely presented or by blending, effective with fiscal years beginning after June 15, 2004.

CYACTIVE

Institution is active in current year

Storage: string | Stata name: CYACTIVE | Observed years: 2004-2023 | Nulls: 14

Definitions by release year

2004-2014: Institution is active in current year

A code to indicate whether the institution is active in current year. This code is derived from the more detailed ACT (status of institution) variable. Active school CYACTIVE=1 includes: ACT=A an open (active) institution ACT=N an institution that opened in the current year ACT=M an institution that closed in the current year, but will have data from the previous academic year for example Finance or Completions data for academic year 2002-03 ACT=R an institution that was previously not active and was restored in the current year CYACTIVE=2 includes potential adds and restores (ACT=P,R) CYACTIVE=3 includes all other inactive institutions ACT=C combined with another active institution ACT=D delete institution is out of business ACT=O institution is out-of-scope ACT=W potential add that was not added ACT=X potential restore that was not restored

2015: Institution is active in current year

A code to indicate whether the institution is active in current year. This code is derived from the more detailed ACT (status of institution) variable. Active school CYACTIVE=1 includes: ACT=A an open (active) institution ACT=N an institution that opened in the current year ACT=M an institution that closed in the current year, but will have data from the previous academic year for example Finance or Completions data for academic year 2014-15 ACT=R an institution that was previously not active and was restored in the current year CYACTIVE=2 includes potential adds and restores (ACT=P,R) CYACTIVE=3 includes all other inactive institutions ACT=C combined with another active institution ACT=D delete institution is out of business ACT=O institution is out-of-scope ACT=W potential add that was not added ACT=X potential restore that was not restored

2016: Institution is active in current year

A code to indicate whether the institution is active in current year. This code is derived from the more detailed ACT (status of institution) variable. Active school CYACTIVE=1 includes: ACT=A an open (active) institution ACT=N an institution that opened in the current year ACT=M an institution that closed in the current year, but will have data from the previous academic year for example Finance or Completions data for academic year 2015-16 ACT=R an institution that was previously not active and was restored in the current year CYACTIVE=2 includes potential adds and restores (ACT=P,R) CYACTIVE=3 includes all other inactive institutions ACT=C combined with another active institution ACT=D delete institution is out of business ACT=O institution is out-of-scope ACT=W potential add that was not added ACT=X potential restore that was not restored

2017-2023: Institution is active in current year

A code to indicate whether the institution is active in current year. This code is derived from the more detailed ACT (status of institution) variable. Active school CYACTIVE=1 includes: ACT=A an open (active) institution ACT=N an institution that opened in the current year ACT=M an institution that closed in the current year, but will have data from the previous academic year for example Finance or Completions data for academic year 2016-17 ACT=R an institution that was previously not active and was restored in the current year CYACTIVE=2 includes potential adds and restores (ACT=P,R) CYACTIVE=3 includes all other inactive institutions ACT=C combined with another active institution ACT=D delete institution is out of business ACT=O institution is out-of-scope ACT=W potential add that was not added ACT=X potential restore that was not restored

DEGGRANT

Degree-granting status

Storage: string | Stata name: DEGGRANT | Observed years: 2004-2023 | Nulls: 14

Definitions by release year

2004-2023: Degree-granting status

A code indicating the degree-granting status of the institution. Degree-granting institutions offer an associate's, bachelor's, master's, doctor's or a first-professional degree. Nondegree-granting offers certificates or other formal awards.

Data Feedback Report comparison group category

Storage: string | Stata name: DFRCGID__DFR__00015230__91a04d5b | Observed years: 2004-2005 | Nulls: 127,777

Definitions by release year

2004-2005: Data Feedback Report comparison group category

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the 2005 Data Feedback Report/Executive Peer tool, if the institution did not provide their own comparison group. This variable was derived using Carnegie classification, institutional control, level of offerings, enrollment size, and geographic region. Institutions that only offer progams above the bachelor's degree were not classified and were coded as not applicable (-2). Nontitle IV institutions were also not classified and were coded as not applicable. Institutions that report enrollment data with their main campus could not be classified and were coded as -3. A minimum of 10 institutions were required for the automatic comparison groups. Some institutions including the U.S. Service schools and institutions in the American Samoa, Guam, Micronesia, Northern Marianas, Palau, and Virgin Islands could not be classified into comparison groups that met this minimum requirement and were coded as -4.

2006: Data Feedback Report comparison group category

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report/Executive Peer tool, when institutions did not provide their own comparison group. This variable was derived using institutional control, Carnegie classification, highest level of offering, geographic region, program concentration and enrollment size. Institutions were first grouped by institutional control (public, private not-for-profit, and for-profit). Degree-granting institutions were then grouped by the 2005 Basic Carnegie classification. Large groups by control and carnegie were then divided by geographic region and/or enrollment size to create peer group sizes of approximately 30 to 35 institutions. Nondegree-granting institutions were classified by highest level of offering, program concentration and enrollment size. Comparison groups 167 through 169 is an example of a comparison group that is divided into 3 groupings ordered by size. 167 Masters Colleges & Universities (smaller programs), Not-for-profit/1 168 Masters Colleges & Universities (smaller programs), Not-for-profit/2 169 Masters Colleges & Universities (smaller programs), Not-for-profit/3 Institutions that participate in Title IV Federal financial aid programs were classified and included in the Data Feedback report. Non-Title IV institutions were not classified and were coded as not applicable. Some institutions including the U.S. Service schools and institutions in American Samoa, Guam, Micronesia, Northern Marianas, Palau, and Virgin Islands could not be classified and were not sent Data FeedBack Reports. These schools are identified with codes of 901 or greater for the 2006 report.

2007: Data Feedback Report comparison group category

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report/Executive Peer tool, when institutions did not provide their own comparison group. This variable was derived using institutional control, Carnegie classification, highest level of offering, geographic region, program concentration and enrollment size. Institutions were first grouped by institutional control (public, private not-for-profit, and for-profit). Degree-granting institutions were then grouped by the 2005 Basic Carnegie classification. Large groups by control and carnegie were then divided by enrollment size and/or geographic region to create peer group sizes of approximately 30 to 35 institutions. Nondegree-granting institutions were classified by highest level of offering, program concentration and enrollment size. Comparison groups 156 through 158 is an example of a comparison group that is divided into 3 groupings ordered by size. 156 Masters Colleges & Universities (medium programs), Private not-for-profit/1 157 Masters Colleges & Universities (medium programs), Private not-for-profit/2 158 Masters Colleges & Universities (medium programs), Private not-for-profit/3 Institutions that participate in Title IV Federal financial aid programs were classified and included in the Data Feedback report. Non-Title IV institutions were not classified and were coded as not applicable. Some institutions including the U.S. Service schools and institutions in American Samoa, Guam, Micronesia, Northern Marianas, Palau, and Virgin Islands could not be classified and were not sent Data FeedBack Reports. These schools are identified with codes of 901 or

greater for the 2008 report.

2008-2009: Data Feedback Report comparison group category

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report/Executive Peer tool, when institutions did not provide their own comparison group.

2010-2012: Data Feedback Report comparison group category created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report/Executive Peer tool, when institutions did not provide their own comparison group.

2013: Data Feedback Report comparison group category created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report/Executive Peer tool, when institutions did not provide their own comparison group. General overview All institutions that participate in Title IV federal financial aid programs are first separated into degree-granting and nondgree-granting groups by control (public, private not-for-profit and private for-profit) of institution. Carnegie Classification Basic 2010 codes are used to further classify 4-year degree-granting institutions. The highest degree offered are used for 4-year degree-granting institutions that do not have a carnegie classification. Two-year degree-granting public degree-granting institutions are dissagregated into smaller groups by using institution size, geographic region and degree of urbanization/locale codes (city,suburban,town and rural). There are 3 institution size groups based on 12-month full-time equivalent enrollment (large, medium, small). 2-year degree-granting not-for-profit and for-profit are grouped by geographic region. The majority of nondegree-granting institutions are grouped by their largest program. The largest program is based on the largest program that the institution reports on the student cost section of the institutional characteristics component. The programs are business, cosmetology and health and other programs. Special groups are made for the Tribal colleges, distance learning institutions, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico. When the above methodology yields large groups (greater than 40), groups are further subdivided by size, base on 12-month enrollment, (See cosmetology groups above).

2014: Data Feedback Report comparison group category created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. General overview All institutions that participate in Title IV federal financial aid programs are first separated into degree-granting and nondgree-granting groups by control (public, private not-for-profit and private for-profit) of institution. Carnegie Classification Basic 2010 codes are used to further classify 4-year degree-granting institutions. The highest degree offered are used for 4-year degree-granting institutions that do not have a carnegie classification. Two-year degree-granting and 4-year primarily associate degree-granting are dissagregated into smaller groups by using institution size, geographic region and degree of urbanization/locale codes (city,suburban,town and rural). There are 3 institution size groups based on 12-month full-time equivalent enrollment (large, medium, small). The majority of nondegree-granting institutions are grouped by their largest program. The largest program is based on the largest program that the institution reports on the student cost section of the institutional characteristics component. The programs are business, cosmetology and health and other programs. Special groups are made for the Tribal colleges, distance learning institutions, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico. When the above methodology yields large groups (greater than 40), groups are further subdivided by size, base on 12-month enrollment, (See cosmetology groups above).

2015-2016: Data Feedback Report comparison group category created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. All institutions that participated in Title IV federal financial aid programs were first separated into degree-granting and nondegree-granting groups by control of institution (public, private, not-for-profit and private for-profit). Degree-granting institutions were divided into the following groups using the institution category variable: graduate only; 4-year primarily baccaluareate and above; 4-year primarily associate's; and 2-year degree-granting. The Carnegie Classification Basic 2015 was then used further classify degree-granting institutions within the 4 groups. The highest degree offered was used for 4-year degree-granting institutions that did not have a carnegie classification. The majority of nondegree-granting institutions were grouped by their largest program. The largest program was based on the largest program that the institution reported on the student cost section of the institutional characteristics component. The programs are business, cosmetology and health and other programs. When the above methodolgy yielded small comparison groups (< 5 schools), groups of different controls maybe combined or a 4-year primarily associates maybe combined with a 4-year baccalaureate and above group. When the above methodology yielded large groups (greater than 40), groups are further subdivided by size, base on 12-month enrollment, (See cosmetology groups above). Special groups were made for the Tribal colleges, distance learning institutions, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico.

2017: Data Feedback Report comparison group category created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. All institutions that participated in Title IV federal financial aid programs were first separated into degree-granting and nondegree-granting groups by control of institution (public, private, not-for-profit and private for-profit). Degree-granting institutions were divided into the following groups using the institution category variable: graduate and 4-year primarily baccalaureate and above; 4-year primarily associate's; and 2-year degree-granting. The Carnegie Classification Basic 2015 was then used further classify degree-granting institutions within the 4 groups. The highest degree offered was used for 4-year degree-granting institutions that did not have a carnegie classification. The majority of nondegree-granting institutions were grouped by their largest program. The largest program was based on the largest program identified by the cipcode, that the institution reported on the student cost section of the institutional characteristics component. The programs are business (52), communications and communication technologies(09,10), cosmetology(12.04), engineering and engineering technologies(14,15) , manufacturing, construction, repair, and transportation (46,47,48,49) and health (51). All other cipcodes were combined to for the other programs category. Communications and communication technologies, engineering and engineering technologies and, manufacturing, construction, repair, and transportation groups were added for the 2018 report. When the above methodolgy yielded small comparison groups (< 4 schools), groups of different controls maybe combined or a 4-year primarily associates maybe combined with a 4-year baccalaureate and above group. When the above methodology yielded large groups (greater than 40), groups were further subdivided by size, based on 12-month enrollment, (See cosmetology groups above). Special groups were made for the Tribal colleges, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico. In Prior data feedback reports Distance learning "Only" institutions were classified as one group. For the 2018 distance learning "Only" were classified based on their Carnegie Classification.

2018: Data Feedback Report comparison group created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. All institutions that participated in Title IV federal financial aid programs were first separated into degree-granting and nondegree-granting groups by control of institution (public, private, not-for-profit and private for-profit). Degree-granting institutions were divided into the following groups using the institution category variable: graduate and 4-year primarily baccalaureate and above; 4-year primarily associate's; and 2-year degree-granting. The Carnegie Classification Basic 2018 was then used further classify degree-granting institutions within the 4 groups. The highest degree offered was used for 4-year degree-granting institutions that did not have a carnegie classification. The majority of nondegree-granting institutions were grouped by their largest program. The largest program was based on the largest program identified by the cipcode, that the institution reported on the student cost section of the institutional characteristics component. The programs are business (52), communications and communication technologies(09,10), cosmetology(12.04), engineering and engineering technologies(14,15) , manufacturing, construction, repair, and transportation (46,47,48,49) and health (51). All other cipcodes were combined for the other programs category. When the above methodolgy yielded small comparison groups (< 4 schools), groups of different controls maybe combined or a 4-year primarily associates maybe combined with a 4-year baccalaureate and above group. When the above methodology yielded large groups (greater than 40), groups were further subdivided by size, based on 12-month enrollment, (See cosmetology groups above). Special groups were made for the Tribal colleges, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico. Priorto the 2018 data feedback reports Distance learning "Only" institutions were classified as one group. Beginning with the 2018 report distance learning "Only" were classified based on their Carnegie Classification.

2019: Data Feedback Report comparison group created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. All institutions that participated in Title IV federal financial aid programs were first separated into degree-granting and nondegree-granting groups by control of institution (public, private, not-for-profit and private for-profit). Degree-granting institutions were divided into the following groups using the institution category variable: graduate and 4-year primarily baccalaureate and above; 4-year primarily associate's; and 2-year degree-granting. The Carnegie Classification Basic 2018 was then used further classify degree-granting institutions within the 4 groups. The highest degree offered was used for 4-year degree-granting institutions that did not have a carnegie classification. The majority of nondegree-granting institutions were grouped by their largest program. The largest program was based on the largest program identified by the cipcode, that the institution reported on the student cost section of the institutional characteristics component. The programs are business (52), communications and communication technologies(09,10), cosmetology(12.04), engineering and engineering technologies(14,15) , manufacturing, construction, repair, and transportation (46,47,48,49) and health (51). All other cipcodes were combined for the other programs category. When the above methodolgy yielded small comparison groups (< 4 schools), groups of different controls maybe combined or a 4-year primarily associates maybe combined with a 4-year baccalaureate and above group. When the above methodology yielded large groups (greater than 40), groups were further subdivided by size, based on 12-month enrollment, (See cosmetology groups above). Special groups were made for the Tribal colleges, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico. Prior to the 2018 data feedback

reports Distance learning "Only" institutions were classified as one group. Beginning with the 2018 report distance learning "Only" were classified based on their Carnegie Classification.

2020-2021: Data Feedback Report comparison group created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. All institutions that participated in Title IV federal financial aid programs were first separated into degree-granting and nondegree-granting groups by control of institution (public, private not-for-profit and private for-profit). Degree-granting institutions were divided into the following groups using the institution category variable: graduate and 4-year primarily baccalaureate and above; 4-year primarily associate's; and 2-year degree-granting. The Carnegie Classification Basic 2018 was then used further classify degree-granting institutions within the 4 groups. The highest degree offered was used for 4-year degree-granting institutions that did not have a carnegie classification. The majority of nondegree-granting institutions were grouped by their largest program. The largest program was based on the largest program identified by the cipcode, that the institution reported on the student cost section of the institutional characteristics component. The programs are business (52), communications and communication technologies(09,10), cosmetology(12.04), engineering and engineering technologies(14,15) , manufacturing, construction, repair, and transportation (46,47,48,49) and health (51). All other cipcodes were combined for the other programs category. When the above methodolgy yielded small comparison groups (< 4 schools), groups of different controls maybe combined or a 4-year primarily associates maybe combined with a 4-year baccalaureate and above group. When the above methodology yielded large groups (greater than 40), groups were further subdivided by size, based on 12-month enrollment, (See cosmetology groups above). Special groups were made for the Tribal colleges, U.S. service institutions, and institutions in other jurisdictions, such as Puerto Rico. Prior to the 2018 data feedback reports Distance learning "Only" institutions were classified as one group. Beginning with the 2018 report distance learning "Only" were classified based on their Carnegie Classification.

2022-2023: Data Feedback Report comparison group created by NCES

Data Feedback Report comparison group category. - This indicator was used to create the automatic comparison groups in the IPEDS Data Feedback Report, when institutions did not provide their own comparison group. All institutions that participated in Title IV federal financial aid programs were first separated into degree-granting and nondegree-granting groups by control of institution (public, private not-for-profit and private for-profit). Degree-granting institutions were divided into the following groups using the institution category variable: graduate and 4-year primarily baccalaureate and above; 4-year primarily associate's; and 2-year degree-granting. The Carnegie Classification Basic 2021 was then used further classify degree-granting institutions within the 4 groups. The highest degree offered was used for 4-year degree-granting institutions that did not have a carnegie classification. The majority of nondegree-granting institutions were grouped by their largest program. The largest program was based on the largest program identified by the cipcode, that the institution reported on the student cost section of the institutional characteristics component. The programs are business (52), communications and communication technologies(09,10), cosmetology(12.04), engineering and engineering technologies(14,15) , manufacturing, construction, repair, and transportation (46,47,48,49) and health (51).
